The Honorable Jesse Molina
Mayor of the City of Moreno Valley
14177 Fredrick Street
Moreno Valley, California 92553

Dear Mayor Molina,

We have been watching with great interest as the plans for the World Logistics Center have been developing over the last several years. I want to commend the City of Moreno Valley and Highland Fairview for their visionary leadership in bringing forth this extraordinary project.

The project's innovative design and state-of-the-art sustainable features sets a new industry standard and provides the leadership necessary to move the entire industry to its next level. Partnering with Highland Fairview, one of the most innovative and leading development firms will give Moreno Valley the competitive edge it needs to succeed. The phenomenal success of Highland Fairview's Skechers building is known nationally which also set a new standard for logistics facilities, and I am sure, the World Logistics Center project will do the same.

As one of the leading sectors in the U.S. and global economies, the logistics industry represents a historic opportunity for Moreno Valley. Demand for logistic facilities is at an all-time high. Development grew 100% in 2014 with 115 million square feet delivered and the market is now projected to grow another 40% in 2015. Over the last 15 years the Inland Empire industrial market alone has grown by over 215 million square feet, which is an unprecedented 91.75% increase of sustained growth. We expect this trend to continue for many years to come. In addition, E-commerce will be an enormous driver of demand for large logistics facilities with over 50 million square feet of E-commerce users currently seeking facilities in the market. Many of these companies may also provide an exceptional opportunity for the city of Moreno Valley to generate additional tax revenues from ecommerce sales.

Therefore, we believe that the unique Master Plan for the World Logistics Center combined with the type of buildings envisioned will enable Moreno Valley to attract top global companies, establishing its leadership as a prominent business center in Southern California.

As the world's leading real estate brokerage firm, CBRE has been responsible for leasing over $108 billion of industrial space and completing over 60,000 transactions, we recognize the significance of this important project in the market. The World Logistics Center is not just important for Moreno

Valley; it is significant for California and is poised to become one of the preeminent business centers nationally and globally. We know it will be a great success.

This is the moment for bold action on the part of the Moreno Valley City Council. You have an opportunity to build a logistics center unique among the world's business centers, a center that can truly be a world-class, state-of-the-art International Trade complex unsurpassed in its locational advantages and unexcelled design. This vision, prompted by the City of Moreno Valley who has the imagination, drive and commitment to be leaders in the 21st century, can set in motion development and employment opportunities that will shape the future for the whole region. It also represents a momentous opportunity for Moreno Valley to secure its place amongst Southern California's leading business centers.

You have an unparalleled opportunity in front of you. Great achievements are made by leaders of vision. This unique project is entrusted to you and we challenge you to use it well. We look forward to seeing this vision become a reality.

Sincerely,

CBRE, Inc.

Darla Longo
Vice Chairman

Subject: WLC/Animal Shelter

CouncilWoman Jempson,

I hope you are in good health and hanging in there? I am writing you in regards to the horrible killings that is taking place at the Moreno Valley Animal Shelter. What is going on?! ? Why are these animals being put down in such a hurry and in such record numbers? This is totally unacceptable and only a person who hates animals would agree that such killings should go on! These animals are being killed because they are born? I need you to get on top of this as this is within your district and it will be a problem for you until its stopped period! We do not want to hear the OFFICIALLY tap dance story you and the shelter keep giving us. The killing needs to stop until there is an activily good reason to destroy perfectly good animals. I am putting in a complaint to the California Attorney General and to the various animal rights group to bring heat and attention to the MORENO VALLEY CONCENTRATION CAMPS FOR ANIMALS that is going on out here! You need to address this to the residents and STOP THE KILLING!

The WLC is a hot topic and again, I am against this project as it has major flaws in its concept and there are too many external factors that will render this project a bust! The Panama Canal opens next month? That will have significant impact on the need for warehousing and the Nicaraguan Canal will be complete in 4 years as well. Mr. Benveezi has already admitted at the planning commission that the numbers of 20,000 is not correct and is not his number. So that lie has been debunked. He also stated that he has no tenants and none in the near future as he can see. The infastructure is not there to support the pounding of trucks on the 60fwy. Caltrans has no plans to expand that freeway anytime soon. $100 million in FAIR SHARE by the city is ridiculous to think will be given to a SPECULATIVE developer and the area of Moreno Valley known as Edgemont cannot get, borrow $25 million to fix the water problem over here. A vote of YES on the WLC will ensure any councilpersons political career dead.

Speaking of water issues, that is something we need to stay on top of and I hope that is a priority on your list. To continue to wash your hands is ridiculous. Please solve that problem. Pvt. Mitchell plaque at the park looks really good and looking forward to its re-dedication.

I have several questions about the city ledger that do not make sense. I do not see any monies from warehouses that we already have coming into the city coffers. I have emailed the CFO several times to no avail. Could you please send me his email as I may have the wrong email. I have found several questionable accounts in the city ledger and codes that due not add up. I still need to compare this ledger to the city's bank account because I have taken managerial accounting in college and I do not understand the coding and things used to hide monies. I must point out I do not see anything spelled out in laymen's terms basic warehouse payments to the city in revenue. Where is it? We may need to sit down and go over this. I will be bringing this issue up at the next council meeting and have already contacted the State Attorney General's office with my concerns. There is something seriously wrong with the city's books.

Respectfully,

Donovan Saadiq

On Tuesday, July 28, 2015 8:57 PM, Erick Hermanson <[redacted]> wrote:

As a life long and concerned citizen of Moreno Valley I am addressing you today with the proposed world logistics center in mind. This in my opinion violates the trust of the citizens of this great city by allowing money to take the place of what is best for the city and its citizens. The world logistics center also completely disregards the master plan for the city; where industrial and warehouse buildings are isolated to the area around March Air force base, preserving the beauty of Moreno Valley and sustaining the quality of life for those who live here. Additionally, this will cost the city more in roadwork than it is worth, as the trucks trafficking in these areas will damage even larger amounts of road than necessary. I strongly oppose this proposition with the integrity of Moreno Valley in mind. I have seen the city grow and develop since I was a child and never before have I felt so compelled to speak up as now, because I truly believe in this case, the needs of the many out weigh the needs of the few and if the world logistics center is built, many will suffer and few will benefit. Thank you for your time, please take my thoughts into consideration.

Sincerely,
Erick Hermanson

Re: Critique of June 8, 2015 CARB Letter and June 24, 2015 SCAQMD Letter re World Logistics Center Final Environmental Impact Report

Dear Mr. Gross,

Please include the attached letter with other public comments on the World Logistics Center (WLC) Final Environmental Impact Report (FEIR) (http://www.moval.org/misc/pdf/wlc/FEIR.pdf). Also, please make sure that all members of the Moreno Valley City Council receive the letter. My comments are limited to a scientific critique of the "Heath Risk Assessment" section of the June 8, 2015 CARB letter from Heather Arias and the "Potential Health Risks" section of the June 24, 2015 SCAQMD letter from Ian MacMillan, which are earlier comments on the WLC FEIR. Please confirm that you have received this letter.

Thank you very much for your assistance.

Sincerely yours,

Re: Critique of June 8, 2015 CARB Letter and June 24, 2015 SCAQMD Letter re World Logistics Center Final Environmental Impact Report

Dear Mr. Gross,

Please include this letter with other public comments on the World Logistics Center (WLC) Final Environmental Impact Report (FEIR) (http://www.moval.org/misc/pdf/wlc/FEIR.pdf). Also, please make sure that all members of the Moreno Valley City Council receive the letter. My comments are limited to a scientific critique of the "Heath Risk Assessment" section of the June 8, 2015 CARB letter from Heather Arias and the "Potential Health Risks" section of the June 24, 2015 SCAQMD letter from Ian MacMillan, which are earlier comments on the WLC FEIR.

The specific section of the June 8, 2015 CARB letter from Heather Arias is on pages 5 and 6:

Recirculation Is Required Due To Fundamental Inadequacies in the Project's Health Risk Assessment

Several elements of the health risk assessment section of the FEIR are flawed and inadequate, and require revision and recirculation. As noted above, one of the circumstances triggering the need for EIR recirculation is the addition of information showing that the EIR was fundamentally inadequate and conclusory in nature that meaningful public review and comment were precluded. (14 CCR § 15088.5(a).)

In this case, this recirculation "trigger" is present. The FEIR analysis has been revised since the draft EIR was released to include a new study regarding health impacts from diesel engines, specifically, the Advanced Collaborative Emissions Study (ACES). The FEIR repeatedly references that the ACES study concludes that the "application of new emissions control technology to diesel engines have virtually eliminated the health impacts of diesel exhaust." First, the use of only one study as the basis for this analysis is not sufficient for the purpose of providing a comprehensive analysis of health risk from project construction and operations. The ACES study is only one of many scientific studies related to health risk and emissions, and therefore, cannot serve as substantial evidence regarding the project impact to human health. In fact, there are many other studies

that conclude that diesel particulate matter (PM) is a health hazard. For example, the International Agency for Research on Cancer evaluated the scientific literature as a whole and concluded in 2012 that diesel PM is carcinogenic to humans (class 1). Second, and more importantly, the ACES study's methodology and findings render it inadequate for inclusion in an environmental document, and cannot serve as substantial evidence supporting a finding that the project will not result in significant cancer risk impacts (4). Therefore, use of and reference to the ACES study should be removed throughout the FEIR (5).

Further, the air quality and health risk methodology and models used in the FEIR should be fully explained to ensure the information is accessible and understandable to the public. Specifically, the final document should include the presentation of all cancer and non-cancer health risks at the receptor locations of interest for all emissions from construction and operations at the WLC. The methodology should include the use of all the current Office of Environmental Health Hazard Assessment (OEHHA) approved risk assessment methodology contained in the OEHHA Air Toxics Hot Spots Program Risk Assessment Guidelines: Guidance Manual for the Preparation of Health Risk Assessments (February 2015).

The specific section of the June 24, 2015 SCAQMD letter from Ian MacMillan is on pages 4 and 5:

Misleading Discussion of Potential Health Risks

The PEIR misinterprets and then relies heavily on a single study published by the Health Effects Institute (HEI) to determine that "*new technology diesel exhaust does not cause cancer.*" (PEIR pg. 4.3-1). The PEIR should not make such sweeping conclusions based on a single study. . . . From the study results, it is not possible to make any conclusions on the relative carcinogenic potency of diesel exhaust particulates.

Further, the state Office of Environmental Health Hazard Assessment (OEHHA) is charged with determining the cancer potency factors of all pollutants for use in Health Risk Assessment (HRAs) throughout the state. The cancer potency factors from OEHHA have been used in the HRA prepared for this EIR, and the emission factors from the state Air Resources Board's EMFAC model already account for the reduced diesel exhaust coming from 2010 trucks. Therefore, the EIR's conclusions regarding diesel exhaust from this single HEI study are wholly unsupported by the volume of studies that OEHHA and ARB rely on to determine the carcinogenicity of diesel particulate matter coming from 2010 trucks.

Based on my own independent assessment, there are NO "Fundamental Inadequacies in the Project's Health Risk Assessment" and there is NO need for "Recirculation" of the FEIR as claimed by CARB. Also, there is NO "Misleading Discussion of Potential Health Risks" as claimed by SCAQMD. Regarding the above claims made by CARB and SCAQMD, I have these responses: 1) HEI Research Report 148 "Advanced Collaborative Emissions Study (ACES): Lifetime Cancer and Non-Cancer Assessment in Rats Exposed to New-Technology Diesel Exhaust" (http://pubs.healtheffects.org/view.php?id=438) is a very high quality, peer reviewed study that is directly relevant to the FEIR and reference to it must not be removed from FEIR; 2) There are serious methodological and scientific problems with the Office of Environmental Health Hazard Assessment (OEHHA) "Air Toxics Hot Spots Program Risk Assessment Guidelines: Guidance Manual for the Preparation of Health Risk Assessments (February 2015)" (http://oehha.ca.gov/air/hot_spots/hotspots2015.html) and the OEHHA cancer potency factors should not be used in the Health Risk Assessment for this project.

Since January 2006 I have submitted extensive comments to CARB and/or SCAQMD that dispute their exaggerated claims about the health effects of fine particulate air pollution ($PM_{2.5}$) and diesel particulate matter (DPM). This is overwhelming scientific evidence that $PM_{2.5}$ and DPM do not cause "premature deaths" or cancer among Californians. My evidence, as well as

additional evidence from numerous other qualified scientists, has been systematically and deliberately ignored by CARB and SCAQMD for a decade and these agencies continue to make inaccurate and exaggerated health claims such as those contained in their letters.

One way to put the CARB and SCAQMD exaggerations in context is to note that life expectancy from birth in California has increased from 71.7 years in 1970 to 80.8 years in 2013. The age-adjusted total death rate in California has declined by 45% from 11.370 deaths/1000 in 1970 to 6.301 deaths/1000 in 2013. These declines are not related to reductions in air pollution (like $PM_{2.5}$), because air pollution does not cause deaths in California. Indeed, California (CA) has the lowest age-adjusted total death rate in the continental United States (US) (only Hawaii has a lower rate) and nearly the lowest age-adjusted total cancer death rate. The South Coast Air Basin (SCAB), which includes Riverside County, has total and cancer death rates that are even lower than the corresponding California death rates (http://wonder.cdc.gov):

2013 age-adjusted total deaths/1000: 7.310 in US, 6.301 in CA, 6.202 in SCAB (.847 of US)
2013 age-adjusted cancer deaths/1000: 1.675 in US, 1.505 in CA, 1.465 in SCAB (.874 of US)

My statements are supported by the documents shown below that I have submitted to CARB and/or SCAQMD. In order to fully understand and assess these documents you need to get comments from the individuals who I have copied on this letter. All of these individuals have knowledge that is relevant to CARB, SCAQMD, and/or the health effects of air pollution in California. It is particularly important that you get comments from the ten UC Riverside (UCR) academics, who all work within 10 miles of Moreno Valley and who all should be concerned about the environmental, health, and economic impacts of the WLC. If helpful, I am willing to discuss the CARB and SCAQMD letters about the WLC FEIR with these UCR academics in front of the Moreno Valley City Council and/or any other person(s) suggested by you.

Thank you very much for your consideration.

I have lived in Moreno Valley since 1969. I do not want this WLC to be approved for the following reasons, traffic, smog, no infrastructure to be paid by the developer, taking land basically that is owned by citizens that bought out on the east end of the city, as it was zoned residential. This project is not right for this area. NO TO THE WLC.

Subject: the unneeded world logistics center
To: [redacted]

Hi, I am writing this to voice my opinion about the huge logistics center that is projected for the East end of our city. We don't need another warehouse complex. Moreno Valley is already surrounded by warehouses. Many of which are either empty or near empty. What lobs? I haven't seen the promised jobs at the Sketchers warehouse materialize yet. Its been how many years now? Most of the jobs here were filled by people from the previous location. With the automated workings of warehouses now I don't believe for a minute that the stated amount of jobs will appear at all. Unless of course Iddo is counting the truck drivers as workers there. Iddo is only looking for another big tax write off for himself and his company. We don't need this warehouse complex. We don't need the intrusion of this man in our city functions either. Thank you for the chance to say something about this. Also the only jobs I've seen Iddo create are the people he has paid to go around our city and try to change our minds. I say No to his warehouse
project,No,No,No!!!!

Re: Real Property Located on Theodore St.
Approximately 17 Acres
APN: 422-040-010-7

Dear Ms. Halstead,

We are the owners of approximately 17 acres which are proposed to be rezoned as part of the project referred to as the World Logistics Center. Our property is identified on the attached map as "Pauw" and referred to herein as the "Pauw Property" (See Exhibit A).

The purpose of this letter is to request that the City add a sentence to the Logistics Development zoning definition on page 26 of the Final EIR or provide assurances that it will grant an administrative variance in the future when an application for development is submitted to the City. Given that the Pauw Property is on the fringe of the World Logistics Center Specific Plan ("Specific Plan"), coupled with the fact that Metropolitan Water District objects to the rezoning of its property which is also on the fringe of the Specific Plan, it would be relatively straightforward to make one of these two commitments to the Pauw Property.

Without such accommodation, we believe the rezoning of the Pauw Property would render it valueless and undevelopable and thus a taking requiring just compensation. The proposed rezoning would result in severe deleterious impacts on our property.

There are several elements contained in the proposed project which would render the Pauw Property valueless and undevelopable. First, the project intends to extend Eucalyptus Avenue to Gillman Springs Road by running Street B through our property. This road would cut our property into two, unusable sections based on the proposed rezoning. The planned zoning change for our property would be Logistics Development ("LD"). This zoning provides for buildings of 500,000 square feet or greater. The Pauw Property is approximately 750,000 square feet. **The proposed Street B and proposed zoning would leave us with two smaller pieces which are much smaller than required to build a 500,000 square foot building, meaning we would not be able to meet the required minimum square footage for a warehouse building**. In addition, even if we received some sort of variance from the LD requirement, the southern sliver is too small for any type of use even if relaxation of standards were granted. (See Exhibit A)

Another undesirable and damaging impact to the Pauw Property is the City's intended placement of a water pump station on our property. Exhibit B shows that the water pump station will be placed fronting Theodore Street interfering with our access to Theodore Street. This pump station and its proposed location will cause issues with the siting of any buildings on our property. The pump station does not need to be placed at that precise location within the Specific Plan. Therefore, we request that the City remove it from our property.

Yet another impact to the Pauw Property is that as a result of the bifurcation caused by Street B, our property will be in two different Planning Areas – 6 and 8 – which again will cause yet another issue with siting buildings on our property.

Moreover, as yet another adverse impact as a result of the proposed project is that the Pauw Property is slated for Phase 2, which does not propose any construction until 2023 at the earliest. Such a delayed build-out prevents our property from being developed earlier which undisputedly leaves our property valueless and undevelopable for *at least* the next 8 years.

We note that the City has made accommodations to other property owners: the smaller-lot owners received the designation, Light Logistics; the Jindal and TDA properties were included in the draft EIR but removed from the final EIR; and the water district property's zoning retains utility usage. We do not believe the City's intent regarding the proposed project was to have such a disastrous effect on the Pauw Property.

In addition to removing the water pump station from our property, we propose either of two remedies:

1. Add the following sentence to page the Logistics Development zoning definition on page 26 of the final EIR: "If a property has a road proposed for a portion of it such that the remaining portion of the property cannot support a 500,000 square foot building or has a water pump station proposed for it, then additional permitted uses shall include, the activities described in the light logistics zoning, commercial, light industrial, business park multi tenant property, high tech service, repair high tech equipment, in addition to a fueling station as described in the 'Special Uses' paragraph of Section 3.4.6.1, a truck rest stop and regular service station."
2. Provide assurances that an administrative variance will be granted.

If the City is unwilling to change the zoning for the Pauw Property, at the very least, the City should provide assurances that development of our property will be allowed pursuant an administrative variance identified in Section 11.3.3.1 of the Specific Plan.

If no such assurances are provided consistent with the above, we will vehemently oppose the project given that our property would be left with little or no value. We expect the City to work with us to allow us some functional usage for our property or compensate us for the diminution in value.

We don't know of any other property owners within the Specific Plan which are burdened to such an extent that their property is rendered useless such that they cannot even participate in the proposed project if they wanted to.

We would like to have a meeting with the proper City representatives in advance of the City Council's consideration of the Specific Plan to discuss these issues.

Please contact us at [redacted] at your early convenience.

Sincerely,

Robert Pauw, Trustee

Sincerely,

John Pauw, Trustee

Re: Public Notice of Public Hearing for World Logistics Center PA12-0010 General Plan Amendment (PA12-0010), Development Agreement (PA12-0011), Change of Zone (PA12-0012), Specific Plan (PA12-0013), Annexation (PA12-0014), Tentative Parcel Map No. 36457 (PA12-0015), Environmental Impact Report (P12-016)

To Mayor Molina and Councilmembers:

The public hearing for the World Logistics Center Project at the June 11, 2015 Planning Commission meeting was not properly noticed under Moreno Valley Municipal Code section 9.02.200 C.2 and, as such, the Planning Commission should hold a properly noticed rehearing of the Project.

Specifically, Moreno Valley Municipal Code section 9.02.200 C.2 requires notice to all owners of property within a radius of three hundred (300) feet from the exterior boundaries of the property involved in the application at least ten (10) calendar days before the hearing. The Project includes an amendment to the Circulation Element to the General Plan, which extends existing Cactus Avenue to Alessandro Boulevard and Street E. (Planning Commission Resolution 2015-14 Change of Zone Attachment: The World Logistics Center Specific Plan p. 3-7 (September 2014), attached.) However, the Notice of Public Hearing and Environmental Determination omits the area of the Cactus Avenue Extension from the project limits and noticing boundaries. (*See* Notice of Public Hearing and Environmental Determination.) The Notice for the July 15, 2015 City Council hearing is similarly flawed.

The World Logistics Center Specific Plan Boundary should include the area of the Cactus Avenue Extension and notice should be sent to all owners of property within a radius of three hundred (300) feet from the exterior boundaries of the Project property including the Cactus Avenue Extension.

A Planning Commission rehearing for the Project is required pursuant to Moreno Valley Municipal Code sections 9.02.040 E.1.a, 9.02.200 C.2 and California Government Code sections 65353, 65091(a)(4). For this reason, I respectfully ask you to hold a properly noticed Planning Commission meeting to vote on recommendation of the Project to the City Council.

Thank you for your consideration of these comments.

Sincerely,

Raymond Johnson, Esq., AICP, LEED GA
JOHNSON & SEDLACK

Attachment 1

Planning Commission Resolution 2015-14 Change of Zone Attachment: The World Logistics Center Specific Plan p. 3-7 (September 2014)

Street F

Street F is a two-lane internal collector road providing direct access to development areas in the central portion of the project. It intersects with Street A (Theodore Street) at its northerly end and with Alessandro Boulevard at its southerly end. Both of these intersections will be roundabouts. Specific design details of this roadway will be determined by subsequent subdivision and site development approvals.

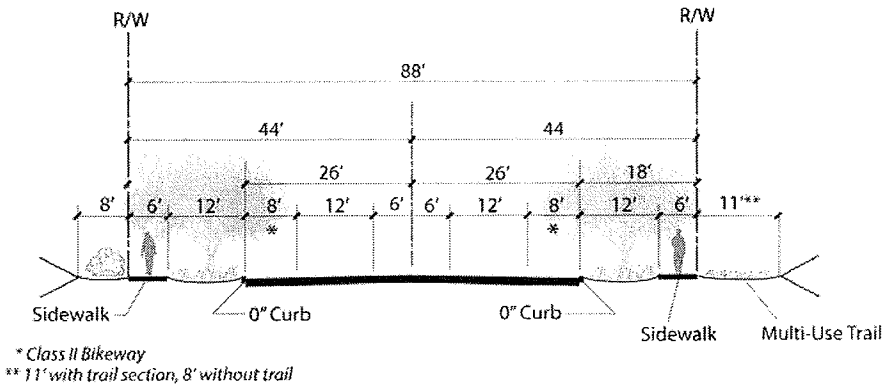

Exhibit 3-9 **Street F**

Cactus Avenue (Extension)

The extension of Cactus Avenue will be a 4-lane undivided minor arterial roadway connecting existing Cactus Avenue with Alessandro Boulevard and Street E. Heavy trucks will be prohibited from using Cactus Avenue to enter and exit the WLC. Special design (where possible) and signage will reinforce this restriction as established by the City.

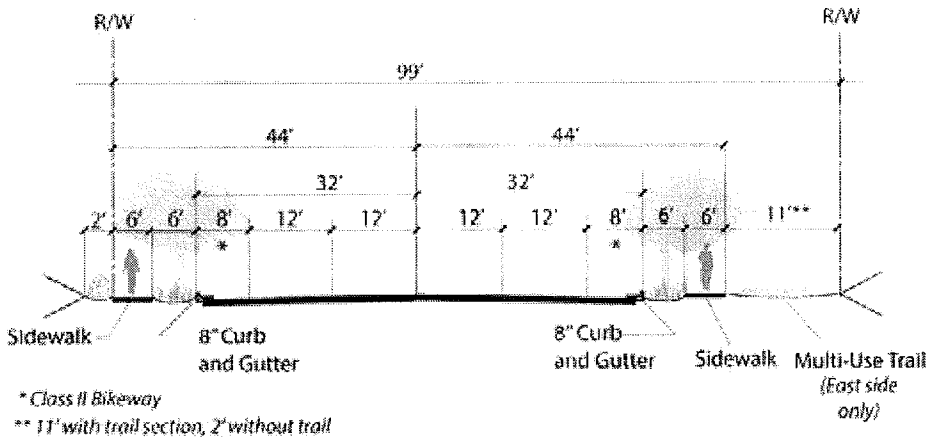

Exhibit 3-10 **Cactus Avenue (Extension)**

Final Programmatic EIR for the proposed World Logistics Center

Dear Mr. Gross:

The California Department of Transportation (Caltrans) appreciates being provided a copy of the Final Programmatic EIR – Revised Draft Environmental Impact Report (FEIR) prepared for the World Logistics Center. As the owner and operator of the State Highway System (SHS), Caltrans has the responsibility to coordinate and consult with local jurisdictions and Tribal Governments when proposed local land use planning and development may impact these facilities.

Caltrans advocates community design (e.g., urban infill, mixed use, transit oriented development) that promotes an efficient transportation system and healthy communities. Caltrans seeks to reduce vehicle trips associated with proposed new local development and recommends appropriate mitigation measures that address the remaining transportation impacts of such development. Caltrans supports local development that is consistent with state planning priorities "intended to promote equity, strengthen the economy, protect the environment and promote public health and safety…" (Government Code [GC] 65401.1).

In consideration of both the scale of development that is proposed and the Level of Significance conclusions provided on Page 4.15-253 of the FEIR, the Department requests a Condition of Approval be placed on the World Logistics Center project to fund fair share improvements to the State Highway that are impacted by this development. Even with implementation of the Mitigation Measures 4.15.7.4.A through 4.15.7.4G, and implementation of all the improvements identified in Tables 4.15 ATV through 4.15 BAB, direct and cumulative impacts on study area roadway segments, intersections and freeway facilities would not be reduced to less than significant levels, including all improvement locations outside the City of Moreno Valley.

The FEIR repeatedly discusses, with some wording variations, in the Traffic and Circulation Section 4.15 on Pages 203, 207-208, 223-233, 242 and 243 that because the Freeway is outside the jurisdiction of the City of Moreno Valley and no mechanism is in place for ensuring the availability of the non-project portion of the needed funds that the City cannot ensure that the

identified improvements would be made. Therefore, the project's impacts must be considered significant and unavoidable. However, the City can still ensure that fair share fees are collected related to this development of regional significance which could only be later used to mitigate this project's impacts.

This future fee should be the responsibility of the City of Moreno Valley to collect and should apply to situations where the project contributes to degraded safety, air quality and congestion.

The Freeway segments specifically identified in the Traffic and Circulation portion of the FEIR that are expected to experience worsening conditions are as follows:

- Eastbound SR-60 from Euclid Avenue to Grove Avenue
- Eastbound SR-60 from Martin Luther King to Central Avenue
- Westbound SR-60 from I-215 to Day Street
- Westbound SR-91 from Pierce Street to Magnolia Avenue
- Westbound SR-91 from Magnolia Avenue to La Sierra
- Eastbound SR-91 from Central to 14th Street
- Northbound I-215 from SR-74/Case Road to Redlands Boulevard
- Southbound I-215 from Case Road to Redlands Boulevard
- Southbound I-215 from Baseline Road to Highland Avenue
- Eastbound SR-60 from SR-91 to W. Blaine Street/3rd Street
- Eastbound SR-60 from W. Blaine Street/3rd Street to University Avenue
- Eastbound SR-60 from Central Avenue to Fair Isle Drive/Box Springs Road
- Eastbound SR-91 from Arlington Avenue to Central Avenue
- Westbound SR-91 from 14th Street to University Avenue

In addition to Freeway Mainline impacts, we request that fair share fees be provided to address the following other State facilities as well:

- SR-60/Gilman Springs Interchange
- SR-79 and Gilman Springs Interchange

For the reasons above, we request a Condition of Approval be placed on the World Logistics Center such as following:

"The developer shall fund a study that will be participated in by the City of Moreno Valley, Riverside County Transportation Commission and Caltrans to develop a fair share contribution to making mainline improvements to Freeway segments and interchanges that are expected to be significantly impacted by the World Logistics Center (such as SR-60, I-215, SR-91 and Gilman

Springs Road Interchanges). The plan should include fair share contributions that would be based on the nexus requirements contained in the Mitigation Fee Act (Govt. Code Section 66000, et seq.) and 14 Cal. Code Regulations. Section 15126.4(a) (4). The plan would also be compliant with Government Code Section 66001(g) and other applicable provisions of law. The plan would set forth a time line and other agreed upon relevant criteria for implementation of the improvements recommended in this FEIR. Once the plan is approved, the City shall impose the fair share fees on each project that is developed under the World Logistics Center as part of the individual review of each development project. Prior to adoption of the Study, the City shall impose a fair share payment requirement on each development project within the World Logistics Center Specific Plan in accordance with the requirement of the Mitigation Fee Act. Required fair share payments shall be made prior to the issuance of Occupancy Permits for each requested development."

In regard to the FEIR's discussion of measures to address significant traffic impacts we request that the content regarding Eastbound SR-60 from Gilman Springs Road to Jack Rabbit Trail (F-36) on page 4.15-242 of the FEIR) and the content regarding Eastbound SR-60 from Jack Rabbit Trail to Potrero Road (F-37) on Page 4.15-243 of the FERI) be revised to clearly explain that neither of the two projects were developed to address traffic impacts from the proposed World Logistics Center. As explained in the respective Environmental Documents prepared for the SR-60 Truck Climbing Lane and the State Route SR-60 Potrero new interchange, these projects were developed to address different needs (safety and local access).

Caltrans also recommends that the City in coordination with the Riverside Transit Agency locate conceptual transit stops within the specific plan due to the expected employment of 20,000 people within the project area. To reduce Vehicle Miles Traveled (VMT) and Greenhouse Gases, which are the primary goals of the 2040 California Transportation Plan (2040 CTP), we also recommend that things like preferential parking for vanpools and carpools be addressed in both the Specific Plan and the future site plan approvals. Bicycle and pedestrian facilities should also be provided both conceptually in the specific plan and through the site plan approval process.

Please feel free to contact me concerning this information at (909) 383-4557.

Sincerely,

JOHN BULINSKI
Interim District 8 Director

Subject: World Logistics Center

Dear Mayor Molina,

We have been watching with great interest as the plans for the World Logistics Center have been developing over the last several years. I want to commend the City of Moreno Valley and Highland Fairview for their visionary leadership in bringing forth this extraordinary project.

The project's innovative design and state-of-the-art sustainable features sets a new industry standard and provides the leadership necessary to move the entire industry to its next level. Partnering with Highland Fairview, one of the most innovative and leading development firms will give Moreno Valley the competitive edge it needs to succeed. The phenomenal success of Highland Fairview's Skechers building is known nationally which also set a new standard for logistics facilities, and I am sure, the World Logistics Center project will do the same.

As one of the leading sectors in the U.S. and global economies, the logistics industry represents a historic opportunity for Moreno Valley. Demand for logistic facilities is at an all-time high. Development grew 100% in 2014 with 115 million square feet delivered and the market is now projected to grow another 40% in 2015. Over the last 15 years the Inland Empire industrial market alone has grown by over 215 million square feet, which is an unprecedented 91.75% increase of sustained growth. We expect this trend to continue for many years to come. In addition, E-commerce will be an enormous driver of demand for large logistics facilities with over 50 million square feet of E-commerce users currently seeking facilities in the market. Many of these companies may also provide an exceptional opportunity for the city of Moreno Valley to generate additional tax revenues from ecommerce sales.

Therefore, we believe that the unique Master Plan for the World Logistics Center combined with the type of buildings envisioned will enable Moreno Valley to attract top global companies, establishing its leadership as a prominent business center in Southern California.

As the world's leading real estate brokerage firm, CBRE has been responsible for leasing over $108 billion of industrial space and completing over 60,000 transactions, we recognize the significance of this important project in the market. The World Logistics Center is not just important for Moreno Valley; it is significant for California and is poised to become one of the preeminent business centers nationally and globally. We know it will be a great success.

This is the moment for bold action on the part of the Moreno Valley City Council. You have an opportunity to build a logistics center unique among the world's business centers, a center that can truly be a world-class, state-of-the-art International Trade complex unsurpassed in its locational advantages and unexcelled design. This vision, prompted by the City of Moreno Valley who has the imagination, drive and commitment to be leaders in the 21st century, can set in motion development and employment opportunities that will shape the future for the whole region. It also represents a momentous opportunity for Moreno Valley to secure its place amongst Southern California's leading business centers.

You have an unparalleled opportunity in front of you. Great achievements are made by leaders of vision. This unique project is entrusted to you and we challenge you to use it well. We look forward to seeing this vision become a reality.

Sincerely,

Darla Longo | Vice Chairman / Managing Director | Lic. 00639911

Ref: Final Programmatic Environmental Impact Report, (World Logistics Center Project)

Having received and reviewed the above mentioned report I was amazed to find out that the already significant proposed impacts to my property were increased by 25%. The purpose of an environmental report is to attempt to minimize the project impacts to adjoining properties, not to increase the impacts. I am speaking specifically about the building height limitations being increased along Gilman Springs Road from a "Draft EIR" height of 60 feet to 80 feet high in the Final Programmatic EIR, (Aesthetics, Section, 4.1-63 middle of last paragraph). This change will block the already proposed impacted views from my house on Gilman Springs Road and those of the other homes in the Moreno Knolls Homeowners Association.

Just because these properties are outside of the limits of Moreno Valley does not give the City or developer the right to ignore our rights or the impacts to our properties with no attempts of mitigation. The City ignoring the rights of those outside of the City by not treating them equally to those properties within the city limits is a clear violation of **EPA's Environmental Justice**, "**EPA's goal is to provide an environment where all people enjoy the same degree of protection from environmental and health hazards and equal access to the decision-making process to maintain a healthy environment in which to live, learn, and work.**" This is only location where the perimeter height is above 60 feet. Even the adjoining San Jacinto Wildlife Area has limits of 60 foot building heights plus a 400 foot landscaped setback. I would like to have the same consideration as the other species adjoining this proposed project.

My house, **(14670 Gilman Springs Road)** is closer to the proposed project than any other property on Gilman Springs Road yet no noise impact study was performed on that location for this project. I also wrote two letters, one on March 13, 2012 and another on April 5, 2013. Only the first letter appears in the report and the responses to both letters were nonexistent or sketchy at the best; not addressing the issues.

This also is a significant impact to the designated "Scenic" Gilman Springs Road and increases this impact. The EIR writers are aware that this is the case, yet there is also no mention of increased impacts to the adjoining Moreno Knolls neighbors are mentioned, (like we don't exist).

This project is in the wrong location and has significant cumulative failures in so many areas that I am unable to adequately respond to them all. Placing a project of this size with the truck traffic that comes with it should have been located along an Interstate Highway not a State Highway. Federal funding for such things as freeway widening, interchanges and maintenance, flow easier to the Interstate System than the State Highway System.

More than 70 percent of the commuters from Moreno Valley use Route 60 not the I-215. Why do we want this here and not East of I-215 as outlined in the existing general plan?

Please enter this letter into the public records of both meetings of the City Planning Commission and the City Council.

Respectfully Submitted,

Duncan Bush

Subject: comments on WLC

Mark Gross, Moreno Valley Planner
City of Moreno Valley

Dear Sir: Please include the following comments in the public record for the public review of the World Logistics Center project (WLC).

I oppose the proposed World Logistics Center project (WLC) and urge you to deny its approval. I present some of my reasons for opposition below.

I am a long time resident of Riverside and have watched as Moreno Valley evolved from the small rural and agricultural communities of Edgemont and Sunnymead to the sprawling bedroom community (largely for Orange County) it is today. While most major cities grow up around sources of primary economic activity, most Moreno Valley residents have always (at least since incorporation) depended on job centers many miles away. As the population has grown, the commuter transportation capacity has always lagged behind demand and is already essentially maxed out, at least during the morning and afternoon "rush hour" periods. And, of course, traffic congestion is so much worse when traffic collisions occur in and around the SR-60/I-215 and SR-91/I-215 interchanges; I note that such collisions seem to be getting ever more frequent .Prospects of increases in truck and commuter traffic (and inevitable highway collisions) associated with the WLC project should give local residents nightmares. It gives me nightmares, and I would be affected less than Moreno Valley residents.

Traffic congestion would worsen

Any notion that increased jobs provided by the WLC may reduce local commuter traffic in and around Moreno Valley is unrealistic. Even if the wildly optimistic projections of jobs associated with the WLC were to occur, that would not decrease long-distance commuter traffic. It is reasonable to assume that jobs in Orange and Los Angeles County, which may be vacated by Moreno Valley residents to work nearer their homes in Moreno Valley, will be filled quickly by others, who are also likely to seek more affordable housing in Moreno Valley. The end result is ever more commuter traffic, not less.

Economic uncertainty

In considering the proposed World Logistics Center project, it would be wise to consider the implications to the city's economic future. The commitment of such a large portion of remaining space (almost 41 million sq-ft) available for development in the City of Moreno Valley to a single industry sector (warehouses), whose economic success in turn depends on the expansion of trans-Pacific trade indefinitely into the future, is a risky

gamble. Post World War II trans-Pacific trade has grown more-or-less steadily as first Japan and Taiwan, then Korea, followed by China, and now Viet Nam, Cambodia, and Bangladesh have succeeded each other in hosting the production of consumer goods once produced in the USA. But, as those Third World countries have benefitted from the overseas flow of US dollars, they have continued to develop, with consequent increased labor costs and factories moving to ever cheaper labor sources.

Considering the economics of production, and the proclivity of manufacturers to seek ever cheaper labor, it is only a matter of time before factories leave Asia and head for the last frontier of cheap labor: Africa. Chinese entrepreneurs are already heading in that direction. And when the majority of consumer trade shifts to Africa, trans-Pacific trade will decrease, and all that local warehouse space may be unneeded, like a stranded whale on the beach. Perhaps it would be wise to plan ahead for that eventuality and adopt a sound and prudent strategy to plan for a more diversified economy.

Sincerely, Greg Ballmer

Subject: Fwd: World Logistics Center

Ms. Macduff,

I just wanted to say that I think you are right about going slow about making the decision on the World Logistics Center. It bothers me that the Moreno Valley city council has moved the vote forward to the middle of July; the rush smacks too much of jerking the rug out from underneath the public and the organizations that advise the region on air quality, transportation, and the environment.

It is true that development of almost any kind will adversely affect all three of these aspects of life in Moreno Valley (and probably the rest of the region), but I would argue that very few proposals would adversely affect things as much as one that puts 14,000 trucks on the freeway a day. An overturned big rig on the 60 freeway on June 30 backed up traffic on that freeway and the 91 for hours (see my letter to councilman Giba, below)--and that was just *one* truck!

I can think of two reasons why the city council would want to rush the decision: (1) to get out of the hot water the city council currently finds itself in, and (2) to advance the project to the point where those who object to it give up. But the hot water is a red flag--a sign that something is wrong--and starting the project before the issues connected with it are resolved smacks of bully-boy tactics pure and simple. If this vote takes place in mid-July, I think it will be fair to say that Moreno Valley is not being well served by its city council, and that it has a right to expect better.

Sincerely,
Marian Bailey

To: "Jeffrey J. Giba" <jeffg@moval.org>
Subject: Fwd: World Logistics Center

Dear Mr. Giba,

The paper doesn't say whether or not the planning commission voted in favor of the World Logistics Center last night, but regardless of its decision, I hope you will consider voting against the project. It seems to me that many Moreno Valley residents are concerned about the additional noise, air pollution, and traffic

congestion the project will create, and that project supporters talk about the jobs the project will create and rely on trivializing these difficulties.

Well, as if on cue yesterday morning, we got a sample of what Moreno Valley is in for if the project is approved: at 5:12 a.m., a big rig overturned at the Box Springs Mountain offramp from the 215 south, and at about 8 a.m., when I traveled through there going the other way, the southbound traffic was jammed. Then, on my way home at about 9 a.m., I decided against using the overpass from the 91 south to the 215 south, because the backup had just reached the bottom of the overpass.

Instead, I continued on the 91 south (eventually exiting at Central) ... and traffic was also backed up on the 91 north, because it was impossible to make the transition onto the 215 south!

I fear this accident is only one of others like it, and it raises a question: What will the World Logistics Center big rig drivers do, if they are caught in a humongous traffic tie-up like that one? Will they sit patiently for hours on the freeway while traffic filters through? They'll be on a delivery schedule! Or will they exit onto surface streets like Canyon Crest Drive near my house, which is not constructed for big rigs?

I fear that the impact of this project will be felt throughout the region: Not only will people on surface streets have to contend occasionally with big rigs, but also, the roads the big rigs are on (in addition to the freeways) will break down.

Moreno Valley is largely a bedroom community; many of its residents commute. Let's make life easier for them instead of harder; please vote No on the World Logistics Center.

Sincerely,

Marian Bailey

On Jun 18, 2015, at 10:44 AM, Marian Bailey <[redacted] wrote:

Dear Mr. Giba,

I am writing to you because the district map shows that you represent the part of Moreno Valley closest to my home in Riverside, which is near Sycamore Canyon Park, about a mile away from the 60 freeway.

I am writing to say that I think Moreno Valley can do better than approve the World Logistics Center (WLC). Right now, the east end of the Moreno Valley is attractive, with its open land and rural aspect; I can imagine that it would appeal to many

other developers, some of whom would be likely to want to situate business parks there. The WLC, with its square miles of warehouses, would eradicate that appeal. Simultaneously, the WLC would make Moreno Valley more vulnerable to the downturns in the economy that rely on the sale of material goods.

The WLC would also make the eastern end of the valley less appealing to migrating birds, some of which now settle in and around Mystic Lake to rest and recoup.

The addition of big rigs to the 60 freeway would be unwelcome too. I drive that freeway myself, as do many commuters, and the part of the route that travels downhill from about Day Street to University Avenue is already very dangerous; adding huge trucks with heavy loads would make things even worse. Noise would be a problem too; trucks going downhill often chortle and snort, and since I can hear this from my house, hundreds of other people will be affected by that noise as well.

Please vote against this development, Mr. Giba. Moreno Valley has the luxury of time, because its population is steadily increasing. Better, more attractive development proposals than this one will be forthcoming in the years to come, and I think that will be the time to vote yes.

Sincerely,

Marian Bailey

Re: World Logistics Center

Dear Mr. Lowell

I wish to state my opposition to the proposed Edo Benzeevi project that will impact so many of us. As so many of us believe, the pollution and traffic problems this WLC will cause is unbelievably understated and we who are no experts can plainly see this. So why can't you in the planning department see this so clearly. You must take into consideration the residents that will be impacted along with the San Jacinto Wildlife Area.

I'm beginning to think that no one in the planning department lives in Moreno Valley or Beaumont or Banning or Hemet or Riverside etc. Nor do you have children or grandchildren who will in the future be impacted.

So many of us laugh at the projected 20,000 jobs, really?

I hope you will take the time to consider my request.

Subject: Letter from a Concerned Citizen!!!

Dear City Council Members,

I am writing this letter in regards to the upcoming vote for the World Logistic Center. I live very close to the desired location of the center (Redlands and Cottonwood) and have been struggling with the fact that you are even considering the rezoning. If someone would have told me this would be happening before I moved in I would have not moved here. I have always seen the eastern portion of Moreno Valley as a quiet and family friendly neighborhood ***the ideal of what Moreno Valley should be***. People often commented on how beautiful and quiet this side of Moreno valley is. I have always been proud of the fact that this side is the "nicer part" of the city and people want to move here. But lately I have seen more for sale signs and people afraid of what is to come to our beautiful neighborhood.

With the planned rezoning I don't see how you are looking out for our kids and our neighborhood. I understand we need more jobs, yet you are only offering one type of job that is will only be degrading our city. What has Moreno Valley become? I ask myself so much lately. Are streets are littered with trash are homes are suffering in decay. Instead of focusing on the plan of bringing down our city with the WLC, Highland Fairview and its owner (who love the city very much!) should bring more jobs by constructing a better library, more parks more retail stores and the likes. Things that will bring our home values up instead of sacrificing our health and drama that the Center will bring. I moved to Moreno Valley with the hopes of better school district a quiet neighborhood where I could raise my kids without the traffic and drama of a big city. I am afraid of what this is going to do to my neighborhood. I already see people fleeing away from the city because of the mere thought of a huge warehouses consuming our city.
I pray that you see beyond the dollar signs and see this project for what it is a money hunger company that has no interest in the betterment of our city only the money it will bring into their pockets. This is not the city I moved into and I have already seen the downfall that warehouses has brought and it makes me very sad. I want Moreno Valley to flourish for its beautiful and family friendly environment not for the amount of warehouses it has. We need more jobs but not at the cost of our city. I plead with you to think about our city!!!! Not the benefits it will bring you. I do not want to see my streets filled with trucks and smog. I don't want my child's health to suffer for what,...more jobs. I don't want my city to become another Mira Loma… period. Our neighborhood in the East side is the best part of the city and now what is it becoming a warehouse invested zone. I want you to look out for our city and see that this is the worst thing that could happen to it. I am terrible afraid of what consequences my neighbors and I have to endure for the sake of jobs. Jobs with no guarantee to be filled with Moreno valley residents.

I beg that you consider the consequences of trucks in our streets and highways. We have two warehouse and I already see the traffic and congestion this has brought to our streets. I want to raise my son in a great up and coming city not a mediocre one which values dollar signs more than family. Please vote no to the proposed

rezoning and say yes to a better family oriented Moreno valley. We deserve more!!! Let's not settle for a less just because someone says that is all we can have. I Want my city to prosper. I want Moreno valley to become the place where families want to move because of safety and progress. I want my city to be a Temecula and Murrieta. A vibrant and prosperous city were people want to move to and NOT move out of!!!!
PLEASE VOTE NO!!! And show your city who you are really working for!!!

Thank you very much.
A **VERY** concerned citizen!!!

Regina Brockmueller, Moreno (West)

Mr. Iddo Benzene is an envisionary person who has taken an amazing time with our city to develop our town. Emperor Norton had a great idea that built onto one of our great cities and declared it back in 1872, of course, people weren't pleased with his envision and almost 60 years later, walla, the Golden State Gate Bridge was developed in a little more than 5 years. Naturally, Mr. Benzeevi can look into our bedroom community, which is not anymore a bedroom community with our population of over 190,000, and thought like; me and others of our community , he bought and invested to a lot of land. I think along with our planning committee who voted 6-1; in favor of his project. The worlds largest logistics which I know that I agree with you about the emissions from the Semi trucks. However, I will have to say that the EPA is the best possible experience to deal with the problems, not our intentional pet peeves and being knit picking . Mr. Iddo Benzene is hosting his own project several times to get to understand the importance of this project, even got attention in the papers outside of our Press - Enterprises Ltd. Which always been a beaut. He could have invested into other cities but he didn't. So I am behind his vision of all time, with you can make it easier for his work to go forward but without you makes no difference to me.

Subject: RE: Comments on proposed World Logistics Center

From: Robert[redacted]
Sent: Saturday, July 04, 2015 9:06 PM
To: Mark Gross
Subject: Comments on proposed World Logistics Center

Dear Mr. Gross,

Thank you for this opportunity to express my views on the proposed World Logistics Center.

I am very concerned that the Center, with its enormous size equivalent to 700 football fields of high-cube warehousing, will deeply degrade the quality of our environment in Moreno Valley and, particularly, of the air that we all must breathe. According to the Final Environmental Impact Report, the WLC will be visited by at least 14,000 truck trips and thousands of other vehicle trips *per day.* While the quality of our air has improved in recent years (thanks in large part to governmental regulations), we still have some of the worst air quality in the nation during warm weather periods. We frequently exceed federal standards for ozone and particulates. The diesel particulates that would be emitted by the enormous number of trucks have been shown in many studies to cause cancer, heart, and other health problems.

As a teacher in the Moreno Valley Unified School District for 16 years, I have seen many cases of asthma among my students. I am deeply concerned about the effects of the degraded air quality on the health of students who live on the East side of Moreno Valley and near our freeways, many of whom enjoy playing outside during the summers. The MVUSD has expressed its concerns about the environmental effects of the project. Elderly residents and those with a variety of health problems could also be subject to a worsening of their conditions by having to breathe more polluted air. Comments from experts at the South Coast Air Quality Management District express their view that the FEIR unduly minimizes the effects of the emissions from so many diesel trucks.

As we all know, the developer is attempting to sell the project on the basis of projected major economic benefits to our community. Given the high degree of automation and frequent reliance on part-time and low-wage workers in the logistics industry, there is substantial justification for viewing the job-creation and economic-benefit claims with considerable skepticism. The number of local jobs created by the Skechers plant has been very small. If many warehouses brought so large economic benefits, then Mira Loma and Fontana should be models of prosperity (which they aren't). The proponents of the WLC can promise enormous rewards, but, if those don't materialize, what then? We will be stuck with all of the problems but without the promised benefits.

There are already many warehouses on the South side of our city and along the 215. Do we need to additionally have this massive development on our East edge, making us the warehouse capital of inland Southern California?

The WLC also raises serious issues about traffic congestion, with so many additional truck trips and visits by other vehicles to that location. These trucks will be clogging our freeways through Riverside and other neighboring communities. This becomes a regional issue, not just a local one. Also, what about effects on transitions on and off of the freeway near the WLC? In addition, with so many additional truck trips there will be inevitable spillover of drivers directing their rigs through streets that aren't designated truck routes.

The argument doesn't have to come down to a choice between a growing local economy and the quality of our air and environment. We can have both, if we aggressively work to attract and develop employers that provide local jobs without further endangering out health. Opportunities in health care, renewable energies, and manufacturing could be examples of fields that would generate employment without all of the problems of warehouses. We should have a community dialogue about the future of Moreno Valley, its economy, and what types of businesses and industries we want here. We could examine the approaches of other California cities that have been successful in growing their economies in an environmentally healthy manner.

Sincerely,

Robert Willson

Re: World Logistics Center Final Programmatic Environmental Impact Report (SCH #2012021045) and Related Approvals

Dear Mayor Molina and Councilmembers:

We submit this letter on behalf of the San Gorgonio chapter of the Sierra Club to provide comments on the Final Environmental Impact Report ("FEIR") for the World Logistics Center Project ("Project"). After reviewing the FEIR, it is our position that it fails to remedy the deficiencies in the Draft Environmental Impact Report ("DEIR") and introduces new deficiencies of its own. For example, the FEIR's project description remains legally inadequate under the California Environmental Quality Act ("CEQA"), Public Resources Code § 21000 et seq. and the CEQA Guidelines, California Code of Regulations, title 14, § 15000 et seq. ("CEQA Guidelines"). The FEIR also fails to analyze the significant environmental impacts of the Project or propose adequate mitigation measures to address those impacts. Moreover, the FEIR introduces new, significant information requiring recirculation of the EIR. For these and other reasons detailed herein, the EIR is inadequate under CEQA.[1]

In addition, the Project demonstrates a disturbing disregard for the City of Moreno Valley General Plan's provisions developed to protect the environment and human health and well-being. Although the applicant proposes to amend the General Plan, these amendments would only serve to undermine the integrity of the City's

[1] The DEIR and the FEIR are sometimes referred to collectively as the "EIR."

planning efforts. Thus, because the Project conflicts with fundamental General Plan provisions so as to result in significant environmental impacts, and because the City has failed to adequately identify these conflicts in the EIR, approval of the Project would violate not just CEQA, but also the California Planning and Zoning Law, Government Code § 65000 et seq., and the Subdivision Map Act, Government Code §§ 66473.5, 66474 et seq.

To ensure that the public, as well as the City decision makers, have adequate information to consider the effects of the proposed Project—as well as to comply with the law—the City must prepare and recirculate a revised DEIR that properly describes the Project, analyzes its impacts, and considers meaningful alternatives and mitigation measures that would help ameliorate those impacts.

I. Introduction

Hundreds of members of the public, including the Sierra Club, submitted extensive comments to the City on the DEIR for the Project, identifying scores of legal inadequacies. These comments expressed grave concern about the failure of the EIR to adequately analyze or mitigate the Project's significant adverse impacts on traffic, biological resources, air quality, visual resources, community character, drainage facilities, and public safety. The United States Fish and Wildlife Service, the California Department of Fish and Wildlife, the California Air Resources Board, and numerous environmental and community organizations echoed these concerns.

The FEIR's response to these comments is, lamentably, denial. The vast majority of the public's concerns about the impacts of the Project are rejected out of hand. The FEIR neither adequately responds to comments previously raised nor cures the legal inadequacies identified by those comments. Rather than revise the DEIR to comprehensively analyze and mitigate the far-ranging environmental implications of the proposed Project, the FEIR merely seeks to defend the erroneous assertions and conclusions of the prior document. Additionally, the FEIR fails to adopt feasible mitigation measures identified by commenters. Thus, the FEIR perpetuates the failings of the DEIR. Below, we identify examples of these legal inadequacies, as well as flaws with the City's analysis.

II. The EIR Fails to Comply with CEQA.

A. The City's Continued Reliance on a Programmatic EIR Is Unlawful Because the Project Includes Vested Rights to Develop.

The FEIR continues to rely on a programmatic EIR claiming that specific project information is not yet available. For this reason the EIR repeatedly defers analysis of environmental impacts and the development of mitigation and alternatives to a later time. The FEIR asserts that more detailed CEQA documentation will be prepared in the future, when specific project information is available, to determine if the development would have new or more extensive impacts than those outlined in this programmatic EIR. FEIR Responses to Comments at 758.

CEQA requires that environmental impacts be specifically identified and mitigated at the earliest possible date in order to "inform the public and responsible officials of the environmental consequences of their decisions before they are made." *Citizens of Goleta Valley v. Board of Supervisors* (1990) 52 Cal. 3d 553, 564. That time is now. CEQA requires that the environmental consequences of a development of this magnitude be "considered before, not after, [the decision to approve the project] is made." *Stanislaus Natural Heritage Project v. County of Stanislaus* (1996) 48 Cal. App. 4th 182, 196.

As explained in SMW's comments on the DEIR, the EIR cannot rely on a programmatic EIR because the Development Agreement (DA) proposed as part of the project grants the applicant a vested right to proceed with the project consistent with the "existing approvals." Draft DA dated June 3, 2015 at 10. In this case, the "existing approvals" include a general plan amendment, rezoning, and a tentative map. These approvals, once granted, cannot be changed and any other applicable local laws that currently apply to the project site are also not changeable.

The FEIR acknowledges these facts. FEIR Responses to Comments at 760. However, the FEIR continues to assert that program-level analysis is appropriate because "there are no current of [sic] future approvals which will allow any physical development of the WLC site without the submittal of discretionary applications" subject to review and approval by the City. FEIR Responses to Comments at 760. This assertion is misleading.

Real environmental analysis is especially important now, because it is clear that meaningful, in-depth environmental review in the future is highly unlikely. The DA

makes this conclusion unavoidable. When the City considers any future approvals to facilitate the development (e.g., grading and building permits), it will have little, if any, discretion to consider an alternative to the project. Features such as building height and size, which will be determined by the new zoning, will be set in stone by the DA, such that they cannot be changed by a new City Council or by initiative. By signing the DA the City would give up any phasing control, freeze in place the mitigation fees, and leave design of the project in the hands of the developer. Draft DA dated June 3, 2015 at 10, 11, or 12.

Therefore, while the project level environmental document might evaluate the project's impacts in a greater level of detail, the City's hands will be tied. Under the DA, the landowner has a "vested right to develop the Subject Property in accordance with the Existing Regulations." *Id*. Thus, the City will not be able to consider a reduced-size project or a different location, rendering any project-level documentation prepared in the future essentially an empty exercise.

In sum the City must not rely on a program EIR for the present approvals. The program EIR does not specifically address all impacts that could occur and any later environmental review would be meaningless. Deferring important environmental considerations until after project approval is not only irresponsible, but a violation of CEQA.

B. The Unstable Project Description Renders the EIR's Impact Analysis Inadequate.

As discussed in SMW's previous comments on the DEIR, the EIR does not come close to meeting clearly established legal standards regarding the project description necessary to support an EIR because it fails to provide a stable and finite description with respect to key components of the proposed Project. These components have the potential to result in significant environmental impacts not analyzed in the EIR.

The FEIR dismisses SMW's comments on the DEIR regarding the flawed project description, asserting that the information provided is adequate. FEIR Response to Comments at 762. However, the FEIR still fails to include an adequate description of the full scope of the project. For example, the FEIR lacks any substantive description of the construction phasing. The DEIR assumed that construction of the Project would be completed by 2022. However, the FEIR makes clear that "market conditions will determine the actual development timeline" making it impossible to identify with

specificity the exact year in which various phases will be initiated or completed. FEIR Responses to Comments at 762.

In some cases, the FEIR includes information that is contradictory or inaccurate. For example, the FEIR states it will be the developer's burden to ensure that infrastructure is in place prior to or concurrent with project development. FEIR Response to Comments at 762. Yet, this statement is contrary to the DA, which expressly states that "[t]he City shall provide the public infrastructure and services which are not the Owner's responsibility in a timely fashion." Draft DA dated June 3, 2015 at 13. The FEIR must make clear which party is responsible for infrastructure development and on what timeline.

Moreover, the FEIR fails to describe in any detail the location or design of off-site infrastructure improvements, including three reservoirs, using the programmatic level analysis as an excuse. FEIR Response to Comments at 764. Instead, the description of needed infrastructure improvements provided by the FEIR is inconsistent and confusing. For example, the FEIR states that the Project will not require the construction of new storm water drainage facilities or expansion of existing storm water drainage facilities, yet also states that five new drainage systems will be constructed to accommodate additional runoff that will result from the Project. FEIR at 4.16-24 and 4.16-25.

Given that the City intends to use this EIR to support subdivision maps and a DA the DEIR cannot put off analysis of necessary infrastructure. The City is obliged to disclose now whether it is possible to develop infrastructure able to accommodate the entitlements the City intends to guarantee to the applicant, and at what environmental cost. The revised EIR must contain a description and analysis of these critical aspects of the Project.

C. The FEIR's Analysis of and Mitigation for the Impacts of the Proposed Project Are Inadequate.

1. The FEIR's Analysis of the Project's Incompatibility with the City's General Plan Remains Inadequate.

The FEIR, like the DEIR, glosses over a number of the Project's glaring inconsistencies with the General Plan. As discussed in SMW's comments on the DEIR, the EIR provides clear evidence that the Project is inconsistent with the General Plan. The FEIR refutes the obvious inconsistencies and responds only that "the project will not

be inconsistent with the General Plan since specific development in the future will be evaluated against the indicated General Plan policy…." FEIR Responses to Comments at 775. This deferral of analysis is not acceptable under CEQA.

It is clear that the Project remains inconsistent with myriad General Plan policies as enumerated in our DEIR comment letter. The FEIR claims that the EIR analyzes the Project's consistency with applicable policies in each chapter according to issue area. FEIR Responses to Comments at 778. However, this is not the case. For instance, the FEIR's noise section fails to evaluate consistency with Policy 6.3.1 and Objective 6.5, both requiring mitigation of noise to comply with applicable standards. The Project will result in significant and unavoidable construction period and operational noise impacts, and will therefore be inconsistent with these policies.

In another example, the City's General Plan "require[s] development along scenic roadways [including State Route 60] . . . to allow for scenic views of the surrounding mountains and Mystic Lake." Moreno Valley General Plan Policy 7.7.5. The EIR clearly indicates that the Project would block scenic views. FEIR at 4.1-55. Yet, despite evidence to the contrary, the EIR continues to assert that the Project's visual changes are generally consistent with the City's General Plan. FEIR at 4.1-71. The FEIR response again relies on "the programmatic nature of the EIR" to justify its failure to adequately analyze these impacts and the apparent contradiction of its conclusion. It states that "it is not possible to definitively conclude visual impacts from SR-60 will be significant without knowing the exact sizes and locations of buildings…." FEIR Responses to Comments at 773. Thus, the FEIR reiterates the flawed analysis of the DEIR and again defers analysis to a future date, after approval of the Project and the DA.

Similarly, the FEIR responses assert that the EIR evaluates the Project's consistency with relevant General Plan policies related to traffic impacts. *Id.* While the DEIR provides an extensive list of relevant General Plan policies, it fails to actually analyze the Project's consistency with them. FEIR at 4.15-34 to 4.15-39. A revised EIR must identify these, and other inconsistencies, as significant impacts and must identify feasible mitigation or alternatives to avoid or mitigate these impacts.

2. The FEIR Continues to Defer Analysis and Mitigation for Significant Impacts Related to Geology

As explained in our previous comment letters, the EIR's approach of deferring the fault investigation violates the Alquist-Priolo Act. The Act is applicable to

any project "which is located within a delineated earthquake fault zone." Pub. Res. Code § 2621.5(b). Pursuant to the Act,

> cities and counties shall require, *prior to the approval of a project*, a geologic report defining and delineating any hazard of surface fault rupture. If the city or county finds that no undue hazard of that kind exists, the geologic report on the hazard may be waived, with the approval of the State Geologist.

Pub. Res. Code § 2623(a) (emphasis added).

The FEIR acknowledges that the Act is applicable to the proposed project. FEIR at 4.6-3. Yet, the document fails to require the appropriate geologic report "prior to approval of the project" as required by the Alquist-Priolo Act. The City has also failed to secure the approval of the State Geologist for any waiver of the Act's requirements and, in any event, lacks the evidence necessary to support such a request.

The FEIR also fails to analyze and mitigate for geologic impacts to major utilities proposed onsite. The FEIR acknowledges that the on-site Claremont Segment of the San Jacinto Fault Zone is an Alquist-Priolo zoned "active fault[]" and that other fault lines are located in close proximity to the site. *Id*. The Project proposes water and sewer lines in the vicinity these faults. On-site and off-site utilities may be heavily damaged in the event of surface fault rupture, an impact that the EIR completely ignores.

3. The FEIR Continues to Defer Mitigation for Significant Impacts Related to Hazards and Hazardous Materials

The FEIR continues to defer mitigation of potentially significant impacts related to hazardous materials. Specifically, the FEIR includes mitigation measures (4.8.6.1B and 4.8.6.1C) requiring the applicant to prepare risk assessment reports analyzing safety conditions relative to the proposed fueling facility and the existing compressor plant, and planned development. FEIR at 4.8-22. However, the requirement that an applicant analyze safety impacts and adopt mitigation measures recommended in a future study fails to comply with CEQA. *Sundstrom v. County of Mendocino* (1988) 202 Cal.App.3d 296, 306-07 ("A study conducted after approval of a project…is analogous to the sort of post hoc rationalization of agency actions that has been repeatedly condemned in decisions construing CEQA."). Despite the dearth of site-specific investigation, the EIR boldly concludes that impacts related to hazards and

hazardous material will be mitigated to a less-than-significant level. FEIR at 4.8-23. This conclusion cannot be sustained.

Inasmuch as this Project proposes a development that may pose significant safety risks, it is of the utmost importance that the site's existing hazards be characterized and that anticipated safety risks be analyzed. The City must conduct this analysis prior to Project approval when it still has the authority to require changes in the Project design to reduce potential hazards.

4. **The FEIR's Analysis of Impacts Relating to Population, Housing and Employment Remains Inadequate**

The EIR makes conclusory statements and unsupported conclusions regarding the Project-related jobs being filled by local residents. FEIR Responses to Comments at 784. SMW's previous comments pointed out that the DEIR omits information and analysis of skills and/or educational characteristics of the local labor force. The FEIR's responses to comments fail to correct these flaws.

Rather than performing the omitted analysis, the FEIR revises the City's earlier claim that Project-related jobs would be filled by "workers, who for the most part, already reside in the project area." DEIR at 4.13-13. Instead, the FEIR states that "it is expected that many project employees will be commuting to the Project from other locations in the Inland Empire and may eventually move to the City to live closer to work, thereby increasing the population and ultimately the demand for homes within the City…." FEIR Responses to Comments at 784. But this statement too lacks evidentiary support. The EIR continues to omit a discussion of the types of jobs created by the Project and of the skills and education levels of local workers. Without this information, it is not possible to make a reasonable evaluation of whether the jobs created will serve local workers, nor whether a jobs-to housing match will occur.

5. **The FEIR's Analysis of the Project's Cumulative Impacts is Inadequate.**

Not surprisingly, the FEIR also fails to correct the DEIR's failures with regard to analysis of cumulative impacts. The FEIR identifies potentially significant cumulative impacts to aesthetics, agriculture, air quality, noise and transportation. FEIR at 5-1 to 5-3 and FEIR Responses to Comments at 786. However, the FEIR fails to adequately analyze and disclose the extent and severity of cumulative impacts identified

as significant and unavoidable and fails to identify feasible measures to minimize those impacts.

For example, the mitigation proposed for these significant cumulative impact amounts to nothing more than a promise that Highland Fairview Operating Company operations comply with existing law. FEIR Table 1B beginning at 1-25. This approach fails to comply with CEQA on two fronts. First, the FEIR provides no quantitative evidence that compliance with existing regulations would ensure that either project-level or cumulative noise impacts would be less than significant. Without substantial evidence supporting the conclusion that mitigation would be effective, the EIR remains inadequate.

Second, the FEIR concludes that if the Project and the other contributing projects each mitigate their individual environmental impacts to water quality and storm water, there would result no cumulative impacts. FEIR Responses to Comments at 785. Specifically, the FEIR explains that, because all future development in the City and surrounding region will be required to comply with existing regulations (i.e., NPDES permit program), and because they will all be required to implement BMPs [best management practices] and other avoidance, minimization, and/or mitigation measures, a less-than-significant cumulative impact to water quality will occur. FEIR at 4.9-63. This statement defies common sense and is incorrect. If every project that were ever developed fully mitigated water quality impacts with BMPs, the quality of water in Riverside County would be pristine.

Yet, as the FEIR explains, receiving waters downstream of the Project are impaired with, among other things, nutrients, organic enrichment/low dissolved oxygen, polychlorinated biphenyls (PCBs), and unknown toxicity. These same pollutants are associated with the Project. FEIR at 4.9-21. Clearly BMPs and other mitigation measures may incrementally reduce some pollutants, but they are not sufficient to avoid surface water pollution altogether. The purpose of analyzing cumulative impacts is to determine whether a collection of less-than-significant impacts may combine to be cumulatively considerable.

If the City approves the Project, it will permit additional traffic and air and water pollution in an area already burdened by significant environmental problems. Under the “trust us” approach favored by the EIR, neither decision makers nor the public would know the severity of the impacts until after Project approval. In order to assess impacts intelligently, the EIR must adequately disclose the Project’s cumulative contribution to environmental impacts over the long-term.

6. The FEIR Fails to Address the Project's Growth-Inducing Impacts.

CEQA requires that an EIR analyze the environmental impacts caused by growth induced by the Project. Pub. Res. Code § 21100(b)(5); *City of Antioch v. City Council of Pittsburg* (1986) 187 Cal. App. 3d 1325, 1337. The EIR, echoed in the recitals of the DA, claims that the Project will provide new employment opportunities and increases in demand for goods and services. The FEIR clearly states that the Project could induce additional business and job growth by removing an impediment to growth, such as a lack of basic infrastructure or services. FEIR at 5-6. As discussed above, it also states that project employees "will be commuting to the site from other locations in the Inland Empire and may eventually move to the City to live closer to work, thereby increasing the population and ultimately the demand for homes within the City…." FEIR Responses to Comments at 784.

As explained in our previous comments, the DEIR fails to meet CEQA's requirements for analysis of the Project's growth inducing effects. Specifically, the DEIR fails to analyze the growth fostered by new employment opportunities, speculation/removal of barriers, and economic stimulus. The FEIR's is non-responsive to our comments and merely repeats the arguments in the DEIR. It states that "it would be overly speculative" to try to evaluate the environmental impacts of the potential growth induced by the Project. FEIR Response to Comments at 786.

The City's inappropriate decision to label this EIR a "programmatic" document does not render the growth-inducing effect of the Project too "speculative" to evaluate. As stated by the court in *Napa Citizens for Honest Government v. Napa County Bd. of Supervisors* (2001) 91 Cal. App. 4th 342, 368-69, "[t]he fact that the exact extent and location of such growth cannot now be determined does not excuse the County from preparation of an EIR…. [R]eview of the likely effects of the proposed [project] cannot be postponed until such effects have already manifested themselves…."

The FEIR thus fails to adequately address growth inducing factors such as the addition of new infrastructure and the removal of barriers to growth. Additionally, the responses to comments and the FEIR fail to address the gross underestimation of direct and indirect population growth generated by the Project and the likely demand for housing in the surrounding area.

Without these details, the EIR fails in its fundamental purpose of "alert[ing] the public and its responsible officials to environmental changes *before* they have reached

ecological points of no return." *Village Laguna of Laguna Beach, Inc. v. Board of Supervisors* (1982) 134 Cal. App. 3d 1022, 1027 (emphasis added). The EIR's failure to alert the public to the amount of development that would be induced by this expansion of infrastructure violates CEQA. A revised EIR must either provide evidence that the Project's removal of barriers/expansion of infrastructure will not induce growth or include a revised analysis of growth induced by the Project. Finally a recirculated EIR should include a discussion of potential mitigation for growth inducing impacts, such as limiting the excess capacity of infrastructure development for the Project.

7. The EIR's Analysis of Climate Change Impacts Is Inadequate.

The WLC, if constructed, will add 400,000 metric tons CO_2e per year to the atmosphere. To put the magnitude of this pollution in perspective, ***the entire city*** of Moreno Valley generated 900,000 metric tons CO_2e in 2010 (FEIR at 4.7-11); approving the Project would increase city-wide greenhouse gas ("GHG") emissions by 44 percent in one fell swoop. Yet rather than analyze this massive increase in GHG pollution and confront the daunting task of crafting mitigation measures or project alternatives to reduce or avoid the associated impacts, the FEIR brushes aside project impacts and in doing so, fails to comply with CEQA.

a. The EIR Fails to Compare the Project's GHG Emissions to the Existing Environmental Setting.

The existing GHG emissions from the Project site are zero, as the property is largely vacant. FEIR at 4.7-11. Consequently, it is clear that adding the massive new logistics facility will significantly increase GHG emissions. Yet rather than evaluate the Project's significance by comparing the proposed Project to existing environmental setting, the City's thresholds of significance completely ignore this fundamental CEQA tool. FEIR at 4.7-32 to -34 (establishing thresholds of significance based only on SQACMD's 10,000 mt threshold and compliance with applicable plans and policies).

Section 15064.4 of the CEQA Guidelines explain how a lead agency should evaluate GHG emissions: (1) by comparing project emissions to the "existing environmental setting"; (2) by comparing project emissions to an established threshold of significance; and (3) by assessing project compliance with existing regulations or requirements adopted to implement a statewide, regional, or local plan to combat GHG pollution.

The City's methodology, however, eliminates the first threshold altogether. FEIR at 4.7-32. While lead agencies are granted some discretion in selecting thresholds of significance, they are not permitted to choose thresholds that foreclose consideration of other evidence tending to show the environmental effect may be significant. *Protect The Historic Amador Waterways v. Amador Water Agency* (2004) 116 Cal.App.4th 1099, 1109 ("[T]hreshold[s] of significance cannot be applied in a way that [] foreclose the consideration of other substantial evidence tending to show the environmental effect to which the threshold relates might be significant."). The WLC increases the City's GHG emissions by 44 percent – the City cannot craft its thresholds of significance in such a way that glosses over this massive increase.

b. **The Elimination of the "Capped" Emissions Violated CEQA.**

The EIR estimates that at full buildout in 2031, the operation of the Project will cause GHG emissions of almost 400,000 mt of CO_2e annually, including 270,000 mt from mobile sources and 100,000 mt from electricity usage. FEIR at 4.7-49. Both mobile sources and electricity usage are included under the AB 32 cap and trade program. The EIR reasons that because these two categories are already "capped," they should be excluded from the analysis of Project emissions. FEIR at 4.7-37. Consequently, the EIR only compares the Project's uncapped emissions to the SCAQMD threshold of significance, and treats the capped emissions as though they will not occur. *Id.*

This approach violates CEQA. As a preliminary matter, AB 32's cap and trade program currently extends to 2020; it does not cover emissions occurring later. Even if the presence of the cap and trade program somehow excused mobile source and electricity emissions from CEQA analysis, the EIR utterly fails to analyze or mitigate for the impact of the 370,000 mt of CO_2e pollution that will occur annually from 2020 throughout the life of the project. As the courts have recently held, failure to consider the pollution a project will generate over its entire lifespan renders an EIR invalid.

In addition, the EIR's exclusion of capped emissions cannot be squared with CEQA's requirements or purpose. The emissions generated by the Project's mobile sources and electricity use will still occur, regardless of whether the upstream producers of transportation fuel and electricity obtain permits under AB 32's cap and trade program. And these emissions will still contribute to climate change, even if other entities in California reduce their emissions as a result of cap and trade permits. Consequently, under CEQA, the City must consider all of the Project's GHG emissions in evaluating whether the Project will have a significant effect on the environment.

The EIR's exclusion of capped emissions also conflicts with CEQA's core purposes. AB 32's cap and trade program is wide-ranging; most of the state's GHG emissions come within its scope. If a lead agency could complete a CEQA "analysis" of GHG emissions by stating that project emissions are covered by the cap and trade program, climate change—the single largest environmental threat facing California—would be largely ignored by lead agencies in their CEQA analyses. The state and the public would miss out on the benefits that could be accrued by forcing lead agencies to consider additional mechanisms for mitigating or avoiding greenhouse gas emissions.

In addition, the recent amendments to the CEQA Guidelines regarding GHG analysis and mitigation (e.g., CEQA Guidelines §§ 15064.4, 15126.4(c)) would be rendered largely superfluous. And local agencies—arguably the best positioned to address the serious land use decisions necessary to fight climate change—would be excused from conducting any analysis of feasible project alternatives or mitigation measures in approving land use decisions. Moving forward, environmental review documents would fail to give decisionmakers and the public accurate information about the Project's significant impacts on climate change. The proponents of AB 32 did not intend to eviscerate CEQA's power to require disclosure and mitigation of environmental harms by setting up a cap and trade program.

Finally, the EIR's conclusions regarding the cap and trade program fail to acknowledge the uncertainties inherent in the cap and trade program. The EIR provides no explanation for why compliance with the cap and trade program by fuel manufacturers and electricity generators will reduce the Project's capped emissions to a level of insignificance. The reduction in GHG emissions attributable to the cap and trade program's application to fuel and electricity is particularly attenuated, because the Project is not required to comply with the cap and trade program directly. Because the amount of reduction to be achieved remains unclear, the EIR cannot adequately support its conclusion that impacts will be mitigated to insignificance.

The EIR must be revised to include the capped emissions as part of its evaluation of the Project's significant environmental impacts.

c. **The Project Conflicts with Climate Change Policy and Plans.**

Despite *increasing* the City's GHG emissions by 44 percent, the EIR concludes that the project is consistent with applicable climate change policies and plans.

FEIR at 4.7-59. This conclusion is not supported by the record before the City. For example:

- Although the Project will generate a huge increase in GHG emissions, the EIR concludes that the Project is consistent with strategies to *reduce* emissions to levels proposed in Executive Order S-3-05. The Project is also inconsistent with the new Executive Order B-30-15, which calls for the further reduction of GHG emissions to 40 percent of 1990 levels by 2030. By disregarding the state climate policy's overarching goal of emission reductions, the EIR makes it falsely appear as if the project is furthering state climate policy, when in fact the trajectory established by the Project directly contravenes it.

- The Air Resources Board's 2014 Update to the Climate Change Scoping Plan recognizes that local and state agencies must use local land use planning tools to reduce travel demand and improve goods movements. "Coordinated, comprehensive planning is critical to achieving deep emission reductions in the transportation sector." Scoping Plan Update at 49. The proposed Project, however, would approve local land use plans that result in a dramatic increase in vehicle miles traveled and GHG emissions when compared to existing conditions. The EIR does not address how the increased VMT and emissions resulting from poor land use planning can be squared with the Scoping Plan.

- The EIR also erroneously claims that certain policies are not applicable in order to avoid reaching the obvious conclusion that the Project is simply inconsistent with such policies. For example, the EIR identifies regional transportation-related greenhouse gas targets that require local governments to "directly influence both the siting and design of new residential and commercial developments in a way that reduces GHGs associated with vehicle travel." FEIR at 4.7-53. The EIR concludes that these reductions are "outside the scope of this project." However, it is clear that the Project is simply not consistent with a strategy to use local government's siting decisions to reduce GHG emissions.

d. **The EIR Fails to Evaluate All Feasible Mitigation to Address GHG Impacts.**

Finally, the proposed mitigation measures are woefully inadequate for a Project of this magnitude. First, many of the measures proposed are already required by existing standards. The mitigation measure requiring trucks to meet 2010 engine standards is required by ARB's truck and bus rule (Cal. Code Regs., tit. 13, section 2025). The measure requiring waste diversion of 50 percent is already mandated by AB 939. And the measure requiring buildings to exceed the Green Building Standards in Title 24 by 10 percent is already required by the City's Climate Action Strategy. FEIR at 4.7-57. The "double-dipping" artificially skews the Project's ability to curtail emissions.

Second, the EIR fails to include all feasible mitigation measures to reduce the Project's massive contribution to climate change. The City should consider the feasibility of the following mitigation measures:

- Requiring zero or near zero emission trucks or compliance with the EPA's proposed Phase 2 Greenhouse Gas Emissions Standards and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines and Vehicles (http://www.epa.gov/oms/climate/regs-heavy-duty.htm).

- Requiring that off-road diesel-powered vehicles used for construction be new low-emission vehicles or use retrofit emission control devices such as diesel oxidation catalysts and diesel particulate filters verified by CARB.

- Further requiring the Project to generate all or a portion of its own power through alternative means, such as photovoltaic arrays (current mitigation measures require alternative generation for "ancillary office uses" only).

- Requiring use of a catalyzed diesel particulate filter on both new and existing diesel engines (because black carbon is a component of diesel particulate matter, strategies that reduce particulate matter will also reduce black carbon).

- Further minimizing and recycling construction-related waste.

- Using salvaged and recycled-content materials for hard surfaces and non-plant landscaping materials.

- Landscaping to preserve natural vegetation and maintain watershed integrity.

- Utilizing the combination of construction materials with the lowest carbon footprint.

All of these measures would result in direct reductions in GHG emissions that would otherwise be attributable to the Project. In addition, through a combination of other on-site and off-site measures, the agencies could require all aspects of the Project to be "carbon neutral." An important aspect of such mitigation would be the adoption of an off-set requirement for any reductions that could not be achieved directly. CEQA specifically envision such offsets for the mitigation of GHG emissions. CEQA Guidelines § 15126.4(c)(3) ("Measures to mitigate the significant effects of greenhouse gas emissions may include . . . [o]ff-site measures, including offsets that are not otherwise required"). Emissions could be offset either through financial contributions to sustainable energy projects or through the purchase of carbon credits. Such programs are increasingly common and thus raise no issue of infeasibility. Moreover, locating certain off-site mitigation measures either near the San Jacinto Wildlife Area or in the Inland Empire could have valuable co-benefits.

Without further consideration of non-duplicative and feasible mitigation measures, the EIR's analysis will remain inadequate.

III. The Project Violates the State Planning and Zoning Law and The Subdivision Map Act.

As explained in SMW's comments on the DEIR, the State Planning and Zoning Law and the Subdivision Map Act both require that the Project be consistent with the General Plan and Zoning for the site. This Project remains inconsistent with applicable plans and policies such that approval of it would violate state law.

The question of consistency between the Project and the applicable plans and ordinances plays three distinct roles in this environmental review and project approval process. First, a conflict between a plan or ordinance and the Project is a significant impact that must be disclosed and analyzed in the EIR. *See Pocket Protectors v. City of Sacramento* (2005) 124 Cal. App. 4th 903, 929-36. The FEIR acknowledges this by establishing unequivocally that the Project would have a significant impact if it would "[c]onflict with any applicable land use plan, policy or regulation." FEIR at 4.10-

12. The EIR's conclusions regarding these impacts, like those for any other impact, must be supported by substantial evidence.

Second, under separate provisions of State Planning and Zoning Law and local law, the Project may not be approved in the face of such inconsistencies. The Project requires approval of a Specific Plan, tentative parcel map and a DA. State law clearly requires these approvals to be consistent with the City's General Plan. "The propriety of virtually any local decision affecting land use and development depends upon consistency with the applicable general plan and its elements." *Citizens of Goleta Valley v. Board of Supervisors* (1990) 52 Cal. 3d 553, 570. As discussed extensively in SMW's comments on the DEIR, and in Section II.C.1, *supra*, the proposed Project is clearly inconsistent with the City's General Plan. The FEIR does nothing to correct these deficiencies. Thus, the City cannot legally grant the necessary approvals for this Project or any iteration of the Project unless it is revised to comply with the General Plan.

In sum, the City's processing of the Project suffers from two serious flaws related to the City's General Plan: (1) the Project is inconsistent with the applicable plans and ordinances; and (2) the EIR's analysis of these inconsistencies is deeply inadequate. It is important to keep in mind the distinction between these flaws. One of the CEQA issues may potentially be resolved if, for example, the City recognizes that the conflicts constitute a significant and unavoidable impact and finds, based on substantial evidence, that the Project's benefits outweigh that impact. *See* Public Resources Code § 21081. Such a finding, however, would do nothing to overcome the actual conflicts between the Project and the plans. These conflicts mean that the City cannot approve the Project as a matter of law and a Statement of Overriding Considerations cannot remedy this problem.

IV. The EIR Must Be Recirculated

Under California law, the present EIR cannot properly form the basis of a final EIR. CEQA requires recirculation of an EIR when significant new information is added to the document after notice was provided but prior to certification. Pub. Res. Code § 21092.1; CEQA Guidelines § 15088.5. "Significant new information" includes: (1) information showing a new, substantial environmental impact resulting either from the project or from a mitigation measure; (2) information showing a substantial increase in the severity of an environmental impact not mitigated to a level of insignificance; (3) information showing a feasible alternative or mitigation measure that clearly would lessen the environmental impacts of a project and the project proponent declines to adopt the mitigation measure; or (4) instances where the draft EIR was so fundamentally and basically inadequate and conclusory in nature that public comment on the draft EIR was

essentially meaningless. *Laurel Heights Improvements Ass'n v. Regents of the University of California* (1993) 6 Cal. 4th 1112, 1130; CEQA Guidelines § 15088.5(a).

Here, recirculation is triggered for multiple reasons. First, the FEIR presents significant, new information showing new, substantial environmental impacts and substantial increases in the severity of significant environmental impacts. For example, the FEIR includes: changes to the project description; new data, new methodologies, and/or substantial new analysis related to biological resources, traffic, air quality, greenhouse gas emissions, hydrology and noise; and new or revised mitigation measures for multiple issue areas.

Second, the FEIR fails to implement proposed feasible mitigation measures that would clearly lessen the Project's environmental impacts. In one glaring example, the Air Resources Board commented that feasible mitigation for the Project's significant impacts on air quality should include a requirement of zero-emission vehicles where feasible. ARB comment letter at 4. Rather than implementing this measure, the FEIR ignores the Air Resources Board's comments and fails to implement the agency's recommendation.

Third, the FEIR fails to acknowledge the serious implications associated with the Project's impacts. Throughout this letter and in our prior comments, and throughout hundreds of comment letters from agencies, environmental and community organizations, commenters have pointed out several issue areas where the EIR analysis is inadequate and conclusory in nature. For instance, the FEIR fails to recognize the Project's clear inconsistency with General Plan policies protecting scenic views, substantially understates the Project's impacts on biological resources, and fails to recognize the threat to public health posed by Project-related increases in air pollution. *See* Moreno Valley General Plan Policy 7.7.5; United States Fish and Wildlife Service comment letter dated April 22, 2013; California Department of Fish and Wildlife letters dated April 8, 2013 and June 11, 2015; and Air Resources Board comment letters dated April 16, 2013 and June 8, 2015. Not only must the analysis be greatly expanded and corrected, but the EIR must be recirculated.

The City cannot make a responsible decision's about this Project without further environmental review. An EIR serves to inform the public of the environmental consequences of a project to promote the accountability of decision makers. The public cannot come to its own conclusions; nor can it determine whether officials made the right decisions, without accurate, up-to-date information about the Project's environmental consequences. In light of the issues identified above, the EIR for the Project provides

information that is neither accurate nor up-to date. In order to resolve these issues, the new EIR would necessarily include substantial new information that triggers CEQA's recirculation request. Thus any decision to approve the proposed Project without recirculating a new EIR would violate CEQA.

In order to assess the City's efforts to comply with CEQA and State Planning and Zoning laws, we request a copy of any written response from the City be provided to Rachel Hooper (hooper@smwlaw.com).

Very truly yours,

SHUTE, MIHALY & WEINBERGER LLP

Subject: World Logistics Center

As a resident of Moreno Valley for 10 years, I ask that for the sake of our city and its residents, DO NOT approve the World Logistics Center.

A lot of money has been thrown around to push this through, but Moreno Valley is not for sale.

My home address is [redacted] and the prospect of this center being less than a few miles away, deeply concerns me let alone the traffic and pollution to come with it.

I implore you NOT TO approve this project.

Thank you.

Dear: City Council members of Moreno Valley City
my name is Iris Mitchell I'm a Moreno Valley resident I've been in this city for about five years now, my whole family moved with me from Los Angeles because we found this to be a better city, my husband still works in Woodland Hills which is far away from Moreno Valley the traveling back and forward from one city to and other one has affect us because my husband doesn't get to spend much time with us and can't be present during special events at our kids schools like awards ceremonies, father daugther dances, etc.

When we found out World Logistic C. Projects were doing things for our city and were bringing new projects to offer people local jobs and making our community look better we got so exited because that means our family's going to benefit from this we totally support all of the projects tha World Logistic C. has to offer for this city. we really appreciate the fact, tha our voice count. Sincerely Iris Mitchell [redacted] Moreno Valley CA 92551

Dear Council Members my name is Crystal Reza. I have lived in this beautiful growing city since I was a child, 1994 to be exact. Over the years I have seen plenty of changes, good and bad. There has been a lot of improvement in housing but a lack of Local Job opportunities in our city. This didnt become noticeable to me until I started looking for employment for myself. My father commuted for 18 years to the city of Mira Loma when one day he got fed up with the drive he decided to relocate to the city of San Diego where he has been working close to his home for the past 8 years now. On the other hand I had been seeking a job for myself for a while when I stumbled upon a company that was hiring a property manager and in order for me to get this position it required me to relocate to the city of Corona, I took the position, packed my belongings and moved in a heart beat because it had been almost 1 year of searching for a good Local job. I spent close to 3 years traveling back and forth to Moreno Valley coming to Church and social events. I decided to move my family back to our hometown where luckily I found a part time position,

I would like to see the "World Logistics Center" approved so that our community can benefit from it. I know WLC will be very beneficial to our schools, Parks, fire department and most importantly our contracted police department. I am absolutely thrilled to know that WLC will be bringing in millions of dollars in tax revenue that will hopefully Allow us to have our own station and not have a contract with the city of Riverside Lastly, I would like to see that the whole council stops being bullied, by the small group of haters that dont want to see our city grow because they are envious of Iddo Benzeevi and all his hard work and dedication These people are agressive and very impolite when it comes to the WLC and these are the people that are running your employment. They claim to know the future and the "harm" the WLC will bring based on Lies and not facts that the EIR states.

Thank You for your time
God bless
Chystal R

I have been a resident of Moreno Valley for over 26 years. I am married and have 4 children. Now voting age adult children.

While I was employed, I worked for the Social Security Administration which was located in Pomona, CA.

I have been involved with the community with Church and youth sports. I have or was the Commander of The V.F.W. (Veterans of Foreign Wars) post here in Moreno Valley. Where we did outreach program for our homeless Veterans, and homeless individuals. Because apparently the City of Moreno Valley does not have the funds to support such programs.

I am also a member of the Memorial Honor Detail in Riverside National Cemetary. Where we honor our fallen veterans.

While I was working I commuted approximately 48 miles daily to my work location. This was for 26 years living in Moreno Valley.

How did this affect me? Freeway driving effected me in many ways. Emotionally, Physically in many ways. Now that I am retired I no longer have to go through that hellish experience. I children are not that fortunate. They still have to commute to

other cities in order to find employment. While I traveled to and from Moreno Valley to Pomona CA, my travel time would vary anywhere from 1 hour to 3 hours. Depending on Traffic and any accidents.

In my opinion, have an employer such as the World Logisitics Center would be a GREAT opportunity. Not just the employment, but the income. Being a bedroom community is nice, but we (Moreno Valley) has no income for improvement, or expansion. It would help us financially.

Income, employment is what this new facility to our City. The World Logistic Center is a plus for our community. It would allow us opportunity for growth.

Sincerely,
Rick Martinez

Moreno Valley, CA 92553

My name is Joseph Jones. I am a simi retired broadcast and advertising executive. My wife and I have 2 daughters that graduated from Moreno Valley High School before going on to graduate from UCLA. As a resident of Moreno Valley for the last 13 years I support the World Logistics Center project because the project will not only provide more jobs but also shorten our long commutes. The commutes to and from Los Angeles has become more and more difficult allowing less time to spend with family. These jobs, together with the millions of tax revenues generated from the project, will also provide much needed funds for city services such as police, fire and schools.

Moreno Valley can ill afford to miss another opportunity as was the case with the Coca Cola plant and Nordstrom. There is just too much competition for businesses not just between cities but also between states.

The $3 billion World Logistics Center project will not only be a tremendous boost to our local economy it will also generate millions in city fees. This money will help improve our public safety, build schools, streets, fire stations and other much needed public service facilities.

I believe the project will make Moreno Valley a much better place to live and work.

Sincerely,

Joseph Jones

Dear councilmembers;
I'm writting this letter to support the world logistics center. I hope this plan will really work because some people or parents have to work, really far, so they perfer some other jobs for the parents or people much more closerby where they hire. When I grow up to an adult, I will see how cool good and awesome the future you people have created new places or things in the world. In the Future people and parents will see how great and awesome this world has become. During the next few years or months people will come live here in Moreno valley to have awesome good jobs. This project will help many live good things for everyone. I hope this project to be approved. I hope you guys are glad you are proud to your new jobs.

Dear council member, Thanks for the World Logistics Center for Coming and not only getting us a possibilty to have more Jobs open but for bringing all of us together. When people work together for the better of all of us. Things always go in a good way. I am a young kid im about to turn 17 in august. I already want to start to work. Bringing all these new Jobs want Just help me but a lot a lot of other people who live in Moreno valley. It fills my heart that there are people like you all that care about Small Cities like ours. That now you guys are giving money to recreation parks, fire men, police men, and other Jobs. The Jobs that keep moreno valley out there. The Jobs that are going to make us a better place. A better place for all the people that come live hear. Also those whom already live here. It gives us the chance to live here and not go out for to work. Thanks for helping us out overall and appricate the help and care of unity that we will all have thank to you.

Estimada:
Council DLaDonna Jempson

Yo he vivido por 13 años en Moreno Valley, y me gusta esta ciudad porque la gente se interesa por lo que acontece, pero me he dado cuenta durante este tiempo que mucha gente llega y se mueve a otro lado por las pocas oportunidades de trabajo que existen aquí. mi esposo y yo llegamos en el 2002 y el estuvo trabajando para la compañía que esta en Torrance pero ya se canzo y hace dos años se movio a otra compañía que esta en Corona, pero aún sigue saliendo a trabajar.

Estoy apoyando el proyecto World Logistic Center porque considero que traerá los trabajos que se necesitan en Moreno Valley, para las nuevas generaciones y para que no tengan que salir a hacerlo y que los padres puedan estar más tiempo con sus hijos esto evitara que los jovenes anden en pandillas y también que halla menos delincuencia. Yo tengo 3 niños y quiero un ciudad tranquila. Quiero pedirle que no tarden más tiempo en apoyar el proyecto pues es necesario que esta ciudad tenga trabajos suficientes, no es justo que esta comunidad no tenga los suficientes trabajos como otras ciudades, y esta es nuestra oportunidad.

Dear Councilmembers:

My name is Warren Montelh and I lived in Moreno Valley since 1985. I'm a retired truck driver from the United States Postal Service. 23 Years commuting was more than enough driving. We need business out here to save on driving these large distance. The commute was so bad I went through 2 Divorces.

I strongly support the World Logistic Business Park due to the fact that it will bring thousands of "JOBS" to the Community which I was not afforded that opportunity.

Why are all city officials not residents of the "CITY"???

I feel this Project will build on leaps + Bounds to create revenue. Moreno Valley will be on the "Large Pic. MAP" on generating great jobs and ~~[illegible]~~ lots of Cash instead of Crime, drug use + Killing People. The reason why I'm addressing this letter to you is because I'm "DEMANDING" that you ~~All~~ do your JOB and allow the necessary "PERMITS" for the World Logistic Center.

Why are you NOT Supporting this Project that is So beneficial for our city???

(1) Is it RACISM?
(2) IGNORANCE?
(3) STUPIDITY?

Looking Forward to our "PROJECT"

Dear Council members:

Many teenagers in Moreno Valley Run Away From Home and End up on The Streets. It's Not Always kids just trying to party, some kids are trying to "escape" things such as bad homes // unsafe places. I believe that Moreno Valley can help these teenagers by creating a place of teens to escape the problems. I strongly suggest this because Moreno Valley thinks our generation is the reason why Moreno Valley is destroyed but teens have problems too. Once this building is created, there will be a less percentage of Run away teens as well as Missing kid reports

DEAR COUNCIL MEMBERS,
GEORGE E. PRICE DIST. #3

I AM WRITING THIS LETTER TO DRAW YOUR ATTENTION TO THE DEVELOPMENT OF THE WORLD LOGISTICS CENTER. THOUGH RETIRE, DURING ~~THE~~ MY 13 YR. RESIDENCE IN MORENO VALLEY, I HAD TO COMMUTE MANY MILES PER DAY, AS THERE WERE VERY LIMITED PROFESSIONAL OPENINGS IN THIS AREA. I LOST ~~VA~~ PRICELESS TIME WITH MY HUSBAND AND CHILDREN WHICH CAN NEVER BE REPLACED.

YOUNGER FAMILIES CONTAINING ADULTS ARE BEING TRAINED FOR THE POSITIONS WHICH THE WORLD LOGISTICS CENTER WILL OFFER. WHAT A PERFECT SITUATION FOR A FAMILY THAT IS READY AND TRAINED

TO BE LOYAL TO A POSITION FOR THEIR ENTIRE CAREER; ~~AND~~ IT IS ~~HEARD~~ HARD ON THE FAMILY STRUCTURE TO HAVE TO MOVE FROM CITY TO CITY WHEN A JOB SITUATION CHANGES. I ONLY WISH THIS CENTER WAS IN PLACE WHEN I WAS LOOKING TO SUPPORT MY CHILDREN. -

PLEASE SEE THE GOOD IN THIS EFFORT AND MAKE MORENO VALLEY NOT ONLY A GOOD PLACE TO LIVE, BUT TO WORK AS WELL.

THANK YOU FOR YOUR CONSIDERATION IN THIS MATTER.

SINCERELY

D.A. SEEK

Dear Councilmembers;

I am honored to be able to write this letter addressing the fact that you guys are wanting to make an impact in the city of Moreno Valley, the city that I currently live in. I am pleased to hear that there is progress being made in the city that I live in, much needs to be done and it's still currently being worked on. The fact that there are jobs being created is an amazing progress to this place because many people in this city alone need and desire room for improvement, and not just in the constructing area but in the economical sense as well. Due to the fact that we have made progress by providing people with the opportunity to work and improve themselves economically, does not mean that we should stop! When I moved into this city the first impression wasn't the best and the review that I got from people that had already lived here were not so comforting, it was an automatic red flag! But as the years have passed by I've come to realize that the city isn't bad, and that the people were not as others implied but that all this city needed was a little push in the right direction to get it back on its feet on the road of improvement. So, I would like to thank you for all that you've done and all that you will do to improve this city, my city! And would like you to know that you have my support regarding city construction, the building of more jobs and the improvement regarding education. I write this letter because I care about my city, my home and the people that surround me and I believe that World Logistic Center does too.

Thank you for making this city improve, and I still have hopes that you will continue helping us on the road to further our improvement to a better and stable economical city.

Sincerely,

Brenda Hernandez

Dear Councilmembers;

My names is Darrel Stone, I have lived in Moreno Valley for many years. I believe the World Logistic Center is a great opportunity for Moreno Valley and the generations to come. I think it's time for our city to make a change and do this by approving The World Logistics Center project. The project will bring 20,000 job opportunities that we need here, and more money in tax revenue to make our city progress. Many residents go and commute out of the city for work.

I don't believe this is fair and I believe you can change that for many families. I ask for your support in approving this project. Please be a part of making this city a better place. Thank you for your time.

Sincerely,

Darrel Stone

Moreno Valley, California 92553

Dear councilmembers;

I've have lived in moreno valley. for over 35 yrs. worked in Los Angeles, Corona, Due to not enough companies for work. Now that my children are all grown up. they also have to commute out off moreno valley. To Orange county. Los Angeles, Irwindale. I'm insupport for closer work. tired of the communiting over 3 hours stuck in traffic Day and night. Spend on gas and metrolink.
I Love my city. this is the city where. I decided to have a family. now looking forward. for my grandchildren to also grow up here. But we need more companies. I support Highland fairview in bringing more companies. jobs, jobs, jobs. and also it would help our city and schools. improve schools that are in need of rehabelitation.

Sincerely,
Lorena Escobar

Dear Councilmembers:

I would Love for Moreno Valley to expand and grow into an economically functional city. We have so much potential to become a thriving city that is financially secure. With the development of the WLC, the city could become self sufficient. Without it, we will continue to go down like San Bernardino, and go bankrupt.

Sincerely,

Milly Bailey

I have lived in Moreno Valley for 13 years. I don't have any I just have sibilings. I go to school during week days. I used to play soccer about one year ago and I go to church too. My dad has commuted for 10 years. It has not affected us at all. I think it something that would help out alot and if its a succes then it will benefit the community.

Sincerely

Roberto Lopez

Dear Council members

I have lived in Moreno Valley since 1973, 12 years prior to the city's corporation in 1985. A lot of growth has occured since then. However, the Job's have not met the city's residence needs.

I support the World Logistics Center. I am asking that you also support it. Because we need local Jobs so our Residents do not have to comute to other cities

I believe this huge project will benifit the entire city. This will also benifit our children.

I am an active member of a local church.

Please pass the permits to O.K. this Project

IN 1973, THE AIR FORCE BASE SEEMED TO KEEP SUNNY MEADOW LOCAL BUSINESS ALIVE AND WELL.
THERE WERE TWO ELECT SIGNALS WHEN WE MOVED HERE
COME ON, WE NEED THIS PROJECT TO PASS. THE WORLD LOGISTICS CENTER. PLEASE PASS.

THANKING YOU IN ADVANCE FOR YOUR SUPPORT.

SINCERELY

Dear Councilmembers;

I support this proyect of World Logistic Center, we need more jobs in Moreno Valley, I have to go out of the town to go to my job. I commute everyday to my work, driving for hours in traffic that noone pays me for those hours. More Jobs to Moreno Valley will benefit everyone in our city. Also this proyect is very modern and it will be using ecofriendy energy. I wish this proyect to be approved and become a reality for an economic growth for our city.

Sincerely

Re: Letter in Support of World Logistics Center

May 21, 2015

I write to you as a citizen of Moreno Valley since the late 1950's. My profession is hospital chaplain at St. Bernardine Medical Center. My Father owned the 25 rental houses on Sunnymead Blvd. behind the old fire station, back when those houses were new in the 1950's through the 70's. I still have P.O Box # 1 at the old post office on postal. Having been here that long, I am not one who is against growth.

I've seen some changes. In the 1950's there was no high school, no sidewalks, no freeway, or supermarket, we had to go out of town to buy a pair of underwear or socks, or eat at a good restaurant. I appreciate the changes that have come to our city and thank the city council members through the years and the developers for doing all they could to bring new growth to our city. The World Logistics Center, is one of those valuable projects that we should not let slip away.

I am in support of Iddo Benzeevi's World Logistics Center. It makes sense to me for several reasons. One, being that the United States has become a service oriented country. It is no longer profitable to manufacture goods in our country. That is not going to change. Therefore, the logistics center is needed for our nation and changing times. Why not build it here? The plan puts it out of town, and with freeway access that will keep the trucks out of town as well. It will create many jobs. It will draw some other related businesses and those jobs will help support the city, the citizens and business's that we already have as all things work together for good. It is on land that has really been un-useful until this project. As an American, I also believe that citizens in general have a very strong right to build on property that they own.

I believe it will be a win win for our city. I have no business dealings with Iddo Benzeevi's organization, however I see Benzeevi as a man of vision and action and I see our counsel members in that same light.

It's good to remember that in the 1850's the whole of Los Angeles was one person's ranch. Who could say that the ranch should have remained, when millions of people now have their lives there in that city? We must move forward as well. This project will be a boost for the progress of our beautiful valley.

City Council of Moreno Valley
c/o City Hall / Clerk's Office
14177 Frederick Street,
Moreno Valley, CA 92553

Attention Council members

I'm writing this letter to express my support of the World Logistic Center project. I support this project because of the desperate need for good paying jobs to help our citizens in the community, many who have to travel many miles to work and are away from the community most of the day, like myself. We have a good city, but it could be much better if our responsible citizens who commute everyday to work could support our city as many other cities have benefited from.

I'm a Moreno Valley resident for 27 years. I work in the LA area and commute over 140 miles - for 27 years! I spend nearly six hours commuting and come

home tired and sometimes exhausted - not wanting to participate in local events or volunteering because of this commute. I don't want this for my four kids - who are all degreed and about to launch their careers elsewhere because there are no jobs here. They love their community but cannot afford to live here.

We need a community that is self sustaining, where the community can live work and support their city - make This project will allow this - ~~bring~~ a healthy tax base to support our police, fire dep't and to keep our local roads well paved.

I'm an engineer and I'm convinced that the environmental issues and concerns are effectively being address. I don't believe our air quality would be effected by this project any more than the people who haul to be and stay on these roads because they commute.

The World Logistic Center is a start of providing a better life for my family, your family and the community. Please, I urge you to vote for this project - it would be a travesty to let this opportunity slip away.

Thank you

Steve Mellington

Dear Councilmembers

I am writing you to express my Support for the World Logistics center gets approval here in moreno Valley. I enJoy living in Moreno Valley and want the best for the Community and our family. The World Logistics Center will Provide Moreno Valley with the opportunity to make huge and very needed Changes to the city for living + work.

I have lived here for 15yrs. I Know that Moreno Valley needs improvement + a boost in certain areas. The project will bring a tow of Jobs. We have a ton of land and eager residents Just waiting to work. The Logistics Center will help generate millions in fees giving the city more flexibility to fix the Problems in the Community.

When you consider how many people communitue in this city. the people here need jobs in the World Logistics Center. It. Just makes sense to support this project.

I want the future residents for years to come to have a better life style. The next generation needs stable, career opportunities in town after they finish their education.

Thank you for your time regarding this World Logistics Center Project.

Sincerely,

Rose L. Watson

A LITTLE ABOUT MY FAMILY

MY NAME IS LEO TAFOYA MY WIFE IS BARBARA TAFOYA, WE ARE BOTH RESIDENTS SINCE 1988. WE HAVE 2 DAUGHTERS AGED 38 AND 34 THEY BOTH GRADUATED FROM VALLEY VIEW H.S. THEY ARE BOTH MARRIED NOW AND MY OLDEST DAUGHTER LIVES HERE IN M.V. AND HAS 3 CHILDREN. THE OLDEST IS 8 YRS OLD AND ATTENDS SUN VALLEY IN 3RD GRADE. MY DAUGHTER WORKS AS A TEACHERS SPECIAL NEEDS AIDE WITH THE MVUSD, 1 YR NOW. MY WIFE ALSO WORKS FOR THE MVUSD IN FOOD SERVICE, SHE WILL RETIRE NEXT YEAR AFTER 26 YEARS. I AM RETIRED, DISABLED FROM THE AIR FORCE AND MOTOR SERVICE.

OUR CITY LIKE MANY OTHERS IS IN DESPERATE NEED OF REVENUE TO BE ABLE TO FUND OUR NEED FOR NECESSARY SERVICES LIKE LAW ENFORCEMENT, PUBLIC SAFETY, MORE OFFICERS, FIRE PROTECTION MORE FIREFIGHTERS AND STATIONS, MORE AFTERSCHOOL PROGRAMS VOCATIONAL TRAINING, HEALTH CARE, ROAD REPAIRS AND MANY OTHER NEEDED CITY SERVICES THAT NEED MORE CITY TAX DOLLARS TO FUND, BEFORE THE RECESSION THESE SERVICES WERE FUNDED WITH LICENSE, BUILDER FEES FROM MANY DEVELOPMENTS, MOSTLY HOUSING, WE HAVE GROWN TO BE THE 2ND LARGEST CITY IN RIVERSIDE COUNTY, WE NEED MORE REVENUE JUST TO MAINTAIN THE LEVEL OF SERVICES THAT WE HAD YEARS AGO

ONE CAN ACHIEVE THESE GOALS WITHOUT TAXING THE CITIZENS MORE BY. RECRUITING, PROMOTING A BUSINESS FRIENDLY ENVIRONMENT, ACTIVELY SEEKING BUSINESSES TO MOVE TO OUR CITY BY WHATEVER MEANS AVAILABLE TO THE CITY, SUCH AS DISCOUNTS IN TAXES, UTILITIES INFRASTRUCTURE. WE SUPPORT THE PROPOSED "WLC" DEVELOPEMENT, AS WELL AS THE SO CALLED "MERICAL CORRIDOR" IN THE CENTER OF THE CITY, THESE THINGS TAKE TIME FROM CONCEPTION TO ACTUALLY BUILDING AND WE NEED TO SHORTEN THAT TIME PROCESS AS MUCH AS POSSIBLE AND STOP POINTING FINGERS AND DO WHAT IS BEST FOR THE CITIZENS OF M.V. MOVE NOW!

THE LARGEST PENDING PROJECT, WLC HAS BEEN DELAYED BY DIFFERENT, CITY "NO VIEWS" ACTIVIST WHO OFFER NO POSITIVE IDEAS, OR SUPPORT FOR THE CITY'S GOOD. LOGISTICS IS THE LARGEST GROWING INDUSTY IN SOUTHERN CALIFORNIA AND SOMEONE IS GOING TO ~~[illegible]~~, ATTRACT THOSE COMPANIES TO THEIR CITY'S AND WE HAVE THE LOCATION, THE NEED, AM A LONG TIME RESIDENT, NEVER WILLING TO PUT HIS MONEY WHERE HIS MOUTH IS. A PAST RECORD OF ENVIRONMENTAL RESPONSIBITY, SPEECHES, A LEED CERT. NATIONAL WE MUST TAKE ADVANTAGE OF THIS OPPORTUNITY FOR THE FUTURE OF OUR CHILDREN, OUR GRANDCHILDREN, OUR CITY. WE CAN BE THE LEADER, ~~NOT AN ALLAGIST, DISTANT~~ FOLLOWER IN THIS INDUSTRY. OR MISS THE BOAT AND DROWN IN DEBT.

LET'S NOT WASTE THIS GOLDEN OPPORTUNITY

TO MOVE OUR CITY AHEAD, TO BE, ~~THE~~ ENVY OF
SO CAL "WHERE DREAMS SOAR."
~~BE THE BEST JOB OPPORTUNITY~~
~~"SOARING HIGH" ABOVE THE REST~~

Dear city councilmembers,
I am writing this letter to express my support to the World Logistic Center project because I think this will bring more jobs to our city. I have been living for 17 years in Moreno Valley, I have five sons and they had to move to Los Angeles area because lack of jobs in Moreno Valley, so I stayed in Moreno Valley with just one of my daughter. My first job I got it was at Corona, and since I don't drive I had to get buses to get to my job, I did it during nine years. I had struggled to find a job in Moreno Valley, I think we need more opportunities to get a better life. We deserve better!

Sincerely
Natividad Sandoval.

Dear city councilmembers,
I am writing this letter to express my support to the World Logistic Center project, I truly believe that this project it will unified many families by providing them with local jobs, that way they don't have to commute everyday and spend hours in traffic very tired after work. I am very blessed to have my three sons working locally in this city, but my neighbor was not, his son was commuting six day from Moreno Valley to Anaheim, he used to wake up really early to leave before traffic and one night on his way back home to Moreno Valley he was very tired and felt asleep, he got into a car accident and lost his life. This was devastating for his family and I wish this doesn't happen to another family, thats why we need local jobs.

Dear councilmember;

My name is Jesus Cervantes, I have been a Moreno valley resident for 23 years, I moved to this city in 1992 from Norwalk because his Job moved to Miraloma, so he bought a house. He and his brother in law were working in this company driving everyday from Norwalk to Miraloma, his brother in law only commuted for a year and decide to quit his job and ~~not~~ commute no more. They decide to move to Moreno Valley because they have relatives living in this city that they move after couple years commuting to Anaheim.

Moreno Valley, California 92553

Dear councilmembers;
I'm writing to you to express my support for THE WORLD LOGISTICS CENTER PROJECT, I believe that MORENO VALLEY needs to grow up.

I was driving for almost 9 years from here to Ontario spending time in the freeway everyday and living my son with 3 months old, taking care of the babysitter. The only day that I can spending with him it was on sunday, do you think that was good for us ??

What is the reason that you are not supporting this project?

The World logistics Center would be a huge step to better our Community. We have missed this opportunity in Moreno Valley; please don't let this opportunity get away from us.

Dear Council Members,

I have lived in Moreno Valley since 1999. When I first Moved here I, like Most residents, had to Commute to work. With that said, I would hope and ask that you work to Support the World Logistics Center.

Like I stated earlier, I commuted to Diamond Bar / Brea to work when I first Moved to Moreno Valley. Trying to raise 3 Kids while Commuting in traffic 3-4 hrs a day was difficult. Having them in day care and School was logistically Chanllenging for My Wife & I. Trying to be involved with My children we were also involved in Scouting & youth Sports. Imagine trying to do this while working out of town Bringing industry to our city, our region will bring Prosperity to our area, and families Can have time to be family because

(more)

CITY COUNCIL
MORENO VALLEY
RECEIVED
15 JUL -7 PM 4:50

Mom & dad will be home. Home to help with homework, home to cook dinner, & home to play with the kids. Less commuting means traffic on the roads & freeways.

Working where you live means more tax revenue as people will shop where they work and live. In the end this means more money for city services and schools. Parents won't be sending their children to out of district schools. Children are not having to be up at 4:00 or 5:00 AM because parents have to commute so far.

Moreno Valley needs this! We need to have manufacturing & industry in our city and region to bring jobs to our unemployed because when ~~we~~ individuals prosper our community then prospers.

Thank you,

Dan Dean

Mi Nombre es Beatriz Garcia, llebo viviendo en esta Ciudad de Moreno Valley, 21 años, soy una madre de familia de 3 Jovenes, que estan estudiando, preparandose para vivir una vida futura mejor desgraciadamente, ellos han estado en escuelas, deficientes, por falta de recursos que la comunidad no cuenta con dinero suficiente para materiales. No existen trabajos para poder ayudarles a nuestros hijos, los unicos trabajos se encuentran lejos. y ellos no pueden seguir sus estudios y trabajar.

Yo como residente, les comunico, que se necesitan más trabajos, se necesitan más recursos, por lo que pregunto ¿Porqué no quieren que World Logistics Center se llebe a Cabo? En las reuniones que se han presentado, se muestran proyectos de bienestar, no de mal.

A quien lea esta Carta, les suplicamos que den su voto para que este proyecto se llebe a cabo.

Existen mucha gente que quiere un mejor progreso de la Ciudad, es hora de apoyar y ver lo más grande por nuestros hijos, y Juventud.

Por fabor tomen encuenta esta palabra, que una

Att'n miembros del Concilio:

Somos una familia residente de Moreno Valley por 15 años y siempre hemos visto la necesidad de trabajo en esta area, ya que tenemos que trasladarnos hasta 30 millas para ir a trabajar y durar en el trafico hasta 2 horas, mis hijos han tenido que salir fuera para estudiar en otras universidades ya que las mas cercanas estan muy saturadas, y al terminar sus estudios creo que tendran que viajar muy lejos a trabajar ya que aqui en nuestra ciudad no tenemos nada; Escuche de este proyecto World Logistics Center, y estoy muy contenta al saber que traera miles de trabajos a nuestra ciudad, que ayudara a cuidar el medio ambiente y proveera muchisimo dinero para la ciudad de

moreno valley y para el Estado de California, Por Favor Sr. Jeffrey J. Giba da los permisos necesarios para este proyecto, ya que yo creo que beneficiara a muchisima gente de nuestra comunidad.

Gracias poro su atención a la presente carta y esperamos ver un mejor futuro para nuestra familia y todas las comunidades, vecinas.

I have been in Moreno Valley with my 4 children and 12 Grandchildren for 23 years Even Thou I am retired I'm still involved in the community.

C.A.S.A. Court Appointed Special Advocate for the Riverside Juvenile Courts, Senior Citizens Board, Chamber of commerce, Toastmasters, Champions of Honor Mens group. Inland Empire Poets, Riverside Renaissance Writers group. Livingway Christian Fellowship Church. Teach Creative Writing at the Library, Community Senior Center and R.C.C.

I spent to much Time commuting to LA. and Pomona which affected my Family drastically. The World Logistics Center by bringing Jobs & Revenue here will keep this from happening to many of our children and others will also help support our children, Police, Fire dept, utilities and local businesses.

The Logistics Center will not have any Negative Enviromental impact or health issues.

also very little Traffic impact since Trucks do not need to travel during peak hours.

The World Logistics Center will bring Moreno Valley into the Modern World by providing Training in our local schools and construction Jobs To Jump start our economy. Logistics is not restricted to any one Area it gets income From all over The World. Please Join me in supporting The world Logistics Center

Thank You.

Dear George E Price - City Council Moreno Valley
c/o City Clerk's Office
14177 Federick Street,
Moreno Valley California 92553

Greetings,

My name is Anami Gonzalez, I am 16 years old and a residence of Moreno Valley. I been living here since 2008 and since I moved here there has not been any jobs made, and there werent many jobs when I first moved here. I always wondered where ~~am~~ I grow up where am I going to work without having to leave my own city. Growing up my mom has always been a single mother. When we moved to Moreno Valley she would always have to drive to Los Angeles about 4 times a week to work. Having four siblings older then me was a plus specially for that situation. There has been times Ive been at school and needed to get picked up, but my mom happend to be in Los Angeles working. It's not a good feeling not having your mother in an emergency. Thank god my siblings were able to come and make sure I was okay. Having to drive out your city for a job is one big reason I support the World Legistics center.

Another reason is my future, and my familys future. Bringing jobs to moreno Valley can eliminate having to wake up at 2, 3, 4, o'clock in the morning just to make it on time for work. I have friends now in highschool and collage that have to drive out of Moreno Valley for work. Its very stressful for a teenager and young adult, even for a grown up its is ~~hard~~ harsh on the body. It is very un healthy to drive on the road for hours, and takes a lot of time of your life that can be spent on family or self activities. Another reason is so when I get a family of my own I can stay in my city to provide for my family. As a youth this project is my future and I would like you to help me support mine and all the other residents of Moreno Valley.

Sinsierely,

Anami Gonzalez - Anami Gonzalez

Dear Councilmen Price

My name is Pastor Gabe Celangelo. I am currently head pastor at Sovereign Grace Community Church. I have lived in Moreno Valley since 1980. I grew up on the East side of town on Redlands Blvd and was part of the first graduating class at Valley View High School. In 2003 I moved to the Northern side of town off of Pigeon Pass. Growing up on the Eastside of Moreno Valley (what's now Rancho Bellago) was always a chore growing up as a young person. Not having anything near you made life boring and frustrating as a young person. Part of the reason I moved to the other side of town was because there was simply more stuff to do and more businesses around. I grew up seeing most of my friends move out of the city because Moreno Valley was viewed as a "backwards" city. Because I planted a church in Moreno Valley in 2,000, I ended up staying here and being involved in the community. One of the biggest issues the younger members of my church face are lack of job opportunities. I would have loved to have this type of infrastructure growing up and I think we need it now more than

CITY COUNCIL

Dear Councilmembers;

My name is Ingrid Torres, I was born in Colombia South America, came to U.S.A in 2003 for better opportunity, met my husband Ulises Marin in 2010, had a daughter who is 3 years old now, and recently moved to Moreno Valley with my little family because we want to improve our life style and the community in Moreno Valley is a great match for our spectations.

Since I found out about the World logistics Center project I felt like it was my responsibility to support and to be an active member of this project. I am a supporter on the Idea of getting Moreno Valley economicly independent and to get our community at a lable where sustainability is provided within the city's own regions. That is the main reason why I woke up this morning to be here.

To conclude this letter I would like to spress my support towards the World loggistic center who's members are doing a eseptional job at pushing through to make Moreno Valley a better place. Plese Make these efforts worth something for a better tomorrow in the Moreno Valley Community.

Thank you So mush.

Sincerely, Ingrid Torres.

My name is Lorna Reed. I have been a resident of Moreno Valley for 37 years. I am proud to live in Moreno Valley. However, I believe one thing that Moreno Valley lacks is high paying, mid level and entry level jobs.

I have five children. My step son does not live in Moreno Valley but my other four children were raised in Moreno Valley.

I am a member of the Moreno Valley Black Chamber and past member of the Moreno Valley Black Chamber. I plan to join the Moreno Valley Chamber again in Jan 2016.

I am an insurance agent. I work in Moreno Valley to be close to my family. I commuted for college, university and work for 10 years. Commuting kept me away from my children and family.

I think the World Logistic Center is a wonderful project which will help Moreno Valley and attract other businesses and industries.

More jobs will reduce crime and attrition, and separation of families.
Please call me at (951) 567-4944 if you need more information about this letter or my feelings.

Dear Council Member:
George E. Price,

I am writing this letter regarding the World Logistic Center. I am a resident that is very concerned about approving the project for our city. As you know, Moreno Valley is in great need of jobs, economic development and tax revenue streams in order for our city to not only survive, but also to thrive. We would not only be making sure that the future of our communities youth will have opportunities, but we will also be a part of decreasing the emissions that are released into the environment from all of the traffic that travels west bound for work. The World Logistic Project is also the type of development that we need for commercial businesses in order to maintain a cleaner environment & resources of sustainability. Please support and vote for the World Logistic Project for a better future in Moreno Valley and progress which is eco-friendly. I hope and pray that your eyes & mind

Will open to what our city needs in order to survive and succeed.

Sincerely,

Marisa González - District 3

Dear Councilmembers;

I'am writing this letter to express my support to the World Logistic Center. I have been a Moreno Valley resident for almost twelve years and since I first moved to Moreno Valley I haven't see much change neither an sustancial economic growth in our city. I am a mother of four and a housewife whom has strygled a lot to find a Job close to home and be able to keep attending my home, wife and mother duties. When I first moved to Moreno Valley my daughters were little children, now they are older and ready to enter the labor field which it doen't look to promising. I do worry about my daughters future because it looks like they will be doing what everybody else in Moreno Valley is doing for years: commuting to other cities to find a Job.

My husband has been commuting to Fontana every day. I don't want that for our children; they deserve more Job opportunities

So, please consider us, Moreno Valley residents as priotity before taking a decision. Say yes to more Job opportunities, tax revenue and an economic growth for our city, we deserve it! Say Yes! to the World Logistic Center.

Dear Councilmembers;

I am writing to you today to ask that you work to make sure the World Logistics Center gets approval here in Moreno Valley. I enjoy living in Moreno Valley and want the best for the Community and my family. I Support the World Logistics Center because it will bring tons of jobs to our city. Allowing us to have a job close to home and close to our own shopping centers and restaurants.

I have been living in Moreno Valley for 19 years and am still struggling to find a decent job. Alot of my friends have good work experience and clean records, but still have no jobs. We have available land and our community is willing to work. Instead I see that land being used for building new houses, yet the commonity has no jobs.

Hence, The World Logistics Center would be a great addition to Moreno Valley. Providing more jobs, Creating more money, and no longer being a "ghost town". Please Approve This Project.

To whom It May Concern:
Moreno Valley Council Members.

CITY COUNCIL
MORENO VALLEY
RECEIVED
15 JUL -6 PM 5:20

My Name is Miguel Gutierrez
I have been a resident of Moreno Valley for approx. 7 years
We Moved to this City in late 2008.

I was informed about a project that would bring New work/job opportunitys to this area... of town.

I personaly have to travel outside of Moreno Valley y Riverside County to get to L.A. y L.A. County, Cities (Monrovia, Pasadena) to get to my work or place of employement.

As I have been traveling to L.A. County for approx. 7 years.

I have seen & experience how thousands of people have to commute every day from were I live to L.A. County! everyday of the working week.. and live that commute which takes one approx. One hour and a half (1½ Hrs) just to get to work and. One hour and a half to get back home, that is if there is not a lot of traffic. that adds up to 3 Hrs. of commute per day. plus approx. $25-30 dollars for gasoline for one days trip. which adds up to 125-150 per week on gasoline money.. plus wear and tear on my ~~[illegible]~~ vehicle and the stress and physicle exhaustion on my ~~[illegible]~~ physicle & emotional life.

This I see on Many of my fellow Commuter, Partners... and my self.

The other Situation with Commuting Outside of this City is that we don't get to rest & enjoy Quality time with, Our family's..

I'm Not that Informed with the details of this project that's being proposed, In this City. but I personaly know that it would benefit Many people, family's & the Economy of this City...

The world is changing and I believe that we need to prepare

for the future.

We look forward for New Opportunities
In the City of Moreno Valley.

Thank you.

Sincerely.

A. Resident of Moreno Valley.

Dear Counsel Members,

My name is Reverend Ellen Corchio and I have lived in Moreno Valley for the last 22 years. We used to own a business called "I do weddings" we were the only business of this nature in the area. My husband and I were both ordained ministers to perform wedding ceremonies and authorized to issue marriage licence. Bussiness was great untill the 2007-8 years. The real estate market and the bad economy forced us to close out our business and eventually our house was lost. The "WLC" is a project that will benefit not only the city revenue, but the overall economy in the Inland empire but especially here in Moreno Valley. It's very simple math. Where there is jobs there is good economy. The people of Moreno Valley needs this project for obvious reasons, We beg you

Please approve this asap! we (moreno valley) have been waiting for this opportunity for the last 20+ years.

P.S. We lost our house in MV Ranch in 2013 due to the lack of business (no jobs in moreno valley). lets move on and prosper!

Generally,

Rev. Ethan A. Cordero

Hello, my name is Vanessa Nelsen. I have been living in Moreno Valley for 5 years. I'am a Young Professional who does Property Managment and Real Estate. I have no kids. I enjoy the outdoors and staying in-touch and actively involved with my community. I have commuted for 5 years now. I enjoy my drive in and out of work I always give myself enough time so Im never stuck in traffic. Commuting has not effected my life in anyway. I would never think twice about living in Moreno Valley and Commuting.

The World Logistics Center would be one if not the best thing that could happen to Moreno Valley. This Project will bring more Jobs, Money, and City awareness. All not only helping the City of Moreno Valley itself but having a rippling effect across our State and expanding eventualy to our economic Balance as a nation.

As a citizen of Moreno Valley since September of 1988, I am concerned for the betterment of the job situation in this city. Therefore, I am in support of Highland Fairview and the development of the World Logistics Center.

My involvement is the Spiritual Development of our city. I am the Senior Pastor of Faith Baptist Church located at Perris at Eucalyptus. We have the Faith Bible and Book Center, the only Christian Bookstore in the city. People need employment and wages to be enabled to support their families in Spiritual Development and Bible and Book purchases.

I believe that Economic Development is vital to keep our lovely city stable. Thus World Logistics is a good endeavor and the citizens of this city needs to support its development.

Dear Counsil Members:

Hello I am a Moreno Valley resident, and I am a father of 5. I believe in the best for my kids and I believe the World Logistics center is the best. I want my children to have unlimited possibilities.

This World Logistics Center will hopefully provide jobs to those who are dedicated and hard working.

Again please approve this project now, so that we can begin to build our City back up. Thank you for taking out the time to read our concerns about our amazing City

My name is Joseph Cordie and I am written this letter to advise you to approve this "WLC" project asap. My wife and I are retired and dont see any benefit for us but we would like to see this city prospere and see the new generations flourish will success. Financially this city needs jobs and this is the time to make it happen. Its a "no brainer" Highland Fairview is the organization that is giving us the opportunity to do this, dont waste the chance to do so and make the right decision..

Dear Council Members;

I'm writting this letter to show my support for the World Logisticts Center project, I support this project because bringing jobs to the city of Moreno Valley is an important thing that I would like to address. I belive this is very important because this is my future and I would like to get a good job once I grow up. Right now, my father commutes to a different city to go to his job, and he gets home around 5 o'clock or 6 o'clock and around that time I am getting ready to go to bed but before that I shower. When he gets home he doesn't help me with my homework or anything but only sometimes. If there were better and more jobs here he would not have to go to a differnt city to work. As has been said this is my futere and in a few years I will be going to college and I don't want to have to commute all the way to a differnt city just for a job. I would like to stay home and there be a good job for

me and for my older sister and brother. So I ask, from the bottom of my heart, to please support the World Logisticts Center project.

Sincerely,

Abigail Lepeda : Age : 12 :)

DEAR COUNCIL MEMBERS.

MY NAME IS LEO TAFOYA. I HAVE LIVED IN MORENO VALLEY SINCE 1988. MY WIFES NAME IS BARBARA TAFOYA. WE HAVE 2 DAUGHTERS, AGED 34 AND 38. WE ALSO HAVE 7 GRANCHILDREN AGED BETWEEN 1 AND 13. MY OLDEST DAUGHTER LIVES HERE IN MORENO VALLEY WITH HER HUSBAND AND 3 CHILDREN. THE OLDEST ATTENDS "BEAR VALLEY ELEMENTARY," HER OTHER 2 CHILDREN, TWINS AGED 5, WILL START SCHOOL IN AUGUST. MY WIFE WORKS FOR THE MVUSD IN THE CENTRAL KITCHEN, FOOD SERVICE. SHE HAS WORKED FOR THE SCHOOL DISTRICT FOR 24 YRS. MY OLDEST DAUGHTER, HEATHER, HAS WORKED FOR THE MVUSD FOR 1 YEAR AS A SPECIAL NEEDS/TEACHERS ASSIT. BOTH OF MY DAUGHTERS GRADUATED FROM VALLEY VIEW. MY OLDEST DAUGHTER ALSO ATTENDS NIGHT SCHOOL AT MORENO VALLEY COLLEGE. THE REASON FOR THIS BIO IS TO GIVE YOU SOME BACKROUND OF MY FAMILY'S M.V. HISTORY.

WHEN WE MOVED HERE, HOUSING WAS BOOMING. MARCH WAS STILL AN ACTIVE AFB WITH THOUSANDS OF SERVICEMEN LIVING AND SPENDING HERE IN OUR CITY. WELL, AS WE KNOW THE HOUSING BOOM ENDED, MARCH WAS REDUCED TO A RESERVE BASE. SUDDENLY, MUCH OF THE CITY'S REVENUE STREAM ENDED. BUSINESS WHO MOVED HERE IN ANTICIPATION OF A GROWING MARKET STARTED CLOSING AND LEAVING OUR CITY FURTHER REDUCING CITY REVENUES.

FAST FORWARD TO THE PRESENT. APPROX 200,000 RESIDENTS, HIGH UNEMPLOYMENT RATE. UNABLE TO FULLY FUND LAW ENFORCEMENT, RESULTING INCREASE IN CRIME. FIRE DEPT - MORE FIRE HOUSES AND FIREMEN, EMERGENCY RESPONSE TIME - LENGTHENED RESULTING IN INCREASE LOSS OF LIFE, PROPERY DAMAGE. STREET MAINTENANCE POT HOLES, ETC. DAMAGE TO VEHICLES, INCREASED ACCIDENTS, PROPERY DAMAGE. PARKS AND SERVICES, FUND MORE AFTERSCHOOL AND SUMMER PROGRAMS TO ENCOURAGE YOUTH PARTICIPATION, INSTEAD OF JOINING GANGS ETC. VOCATIONAL TRAINING, HEALTHCARE AND MUCH MORE. THE CITY IS FAILING ITS DUTY TO PROVIDE THESE SERVICES TO ITS CITIZENS. THE CITY NEEDS LESS TALK AND MORE ACTION IT TAKES YEARS FROM PLANNING TO ACTUALLY BUILDING, WE NEED TO CUT THAT TIME ASAP. WE NEED REVENUE NOW. OUR PEOPLE NEED ACTION NOW. WE HAVE A GOLDEN OPPORTUNITY STARING US IN THE FACE. THE COMPANY IS HIGHLAND FAIRVIEW, ITS CEO IS IDDO BENZEEVI. WHO IS HE? A LONG TIME RESIDENT OF THIS CITY. FOR 30 YEARS HE HAS BEEN IN THE BACKGROUND PROVIDING FUNDS AND SUPPORT FOR VARIOUS CITY NEEDS AND PROGRAMS AND NOT ASKING FOR ANY RECOGNITION. HE JUST DOES THE RIGHT THING. HE PUT HIS MONEY WHERE HIS MOUTH IS. HIS MOST VISIBLE PROJECT WAS SKECHERS, 1.82 MILLION SQFT, LEED-GOLD CERTIFIED, CERTAINLY NOT A DEVELOPER WHOS ONLY INTEREST IS TO BUILD AND LEAVE TOWN. HE HAS THE MEANS, THE DRIVE, THE EXPERTISE THE PRIDE, TO BUILD, DEVELOPE MANY DIFFERENT PROJECTS IN OUR CITY, HIS CITY.

IT IS SO EASY TO SAY NO. FOR YEARS THE SAME PEOPLE WHO HAVE SOMEHOW TAKEN IT UPON THEMSELVES TO SAVE US FROM ALL THE WOES OF THE WORLD, HAVE DONE NOTHING POSITIVE OR CONSTRUCTIVE TO HELP OUR CITY. WE HAVE A CHECKS + BALANCES TYPE OF CITY GOVERNMENT. THERE ARE MANY, MANY STEPS BETWEEN TE EIR AND THE FINAL INSPECTIONS. WE HAVE THE OPPORTUNITY TO VOICE OURSELVES AT EACH STEP. H/F HAS SHOWN VERY HIGH STANDARDS OF ENVIRONMENTAL RESPONSIBILITY, AND THERE IS NO REASON TO BELIEVE IT WOULD NOT BE THE STANDARD FOR THE REST OF THE DEVELOPEMENT. IT WILL TAKE SEVERAL YEARS FOR BUILDOUT AND WE NEED TO MOVE NOW. NONE OF THE DOOM AN GLOOM PEOPLES PROPHESIES ABOUT THE SKECHER'S PROJECT CAME TO PASS.

LETS BE HONEST, THE HOUSING BOOM WILL NOT HAPPEN AGAIN THE BASE WILL NOT EXPAND, THE HORSE PROPERTY PEOPLE ARE NOT GOING TO DEVELOPE THE EASTEND. IT HAS BEEN VACANT FOR YEARS WE HAVE A PROPOSED PROJECT THAT IS A WIN FOR THE CITY, MORE TAX REVENUE IMPROVED SERVICES A WIN FOR THE PEOPLE - MORE JOBS, A WIN FOR THE ENVIRONMENT, VACANT DIRT - RESPONSIBLY DEVELOPED.

DO WE WANT TO MOVE AHEAD?
THERE ARE PLENTY OF OTHER CITIES READY TO SAY YES TO THESE SAME COMPANY'S BUILDING IN THEIR CITIES. WE HAVE THE OPPORTUNITY TO BE THE LEADER AND THE ENVY OF SO. CALS LOGISTICS BUSINESS. 2015 IS THE LARGEST YEAR YET IN LOGISTICS BUILDING IN S.O. CA.

SINCERLY

Dear Council Members

I am writing this letter in support of the World Logistics Center in Moreno valley. I believe Moreno Valley has great potential to develop in many ways, by creating more jobs, and less traffic to orange County and Los Angeles. In my own experience, I have dealt with traffic for several years because the larger pool of job opportunities are outside of Moreno Valley. As a result of creating more jobs in Moreno Valley, we as a city can help build our future generations. Commuting in Moreno valley would make our city grow and have a positive impact on our unemployement rate.

Sincerely,
Erika Mendoza

I had lived in Moreno Valley 6 years ago.
I have 2 children.
I am a haosewife, I'm active in church
Zion centro de Adoracion. I Communuted 7
years ago.

I think the world Logistics proyect. is
good for the Future of my children beause
I think we need to espeend more time
together, When the parents go to their
jobs. they spend too much time driving
to the other cities. I know it is important to
generate more jobs.

15 JUL -6 PM 5:15

Dear councilmembers,

I am writing to you today to ask that you work to make sure the World Logistics Center gets approval here in Moreno Valley. I support this project because I believe that ~~the project~~ the entire community will benefit in one way or another from the project. For one thing, this project will bring a ton of jobs to the area for all sorts of people. For another, this logistics center will help generate more millions in fees, giving the city more flexibility to fix the problems in the community.

I have ~~been~~ been living in Moreno Valley for nine months with my host parents as an exchange student from China. I wish that the city is going to develop at the fast speed like China. I love the city and enjoy the life in the city. I wish the city will be much more beautiful than today in future. therefore if the project set forth benefit the residents in the city, definitely, we must back this ~~project~~ proposal and approval.

Sincerely,

Kevin (China)

Dear council members,

It is a pleasure to be able to communicate this letter to you in regards to the world logistics center. We have overall seen the benefit of its project. All citizens in one way or another will benefit from it, such as schools, workers, college graduates, the safety of the city such as police, firefighters, etc. This involves STEM which is being taught at schools for the future to come. Overall, this project will benefit in growth, not only economicly, but in success

Dear Council Members

I support the World Logistics Center because I would like to see my city prosper and have the opportunity for jobs here in my city. as for my experience I have had to commut for jobs to Orange county and Los Angeles that has taken many hours away from my family, finances because of all that I spend on gas and wear and tear of my cars. I would like other families to have this opportunity and that they would not have to commute to LA for years as we did

Dear council members,
I am a resident of Moreno Valley, I have been living here about 10 years. I'm a mother of two boys and I have a husband too. I have been always looking for a job in Moreno Valley but I never have any luck. At the momment I am working in Riverside.

I know that its not far but I always have to leave about an hour early to be there in time. My boys have to always wake up earlier because I leave edrly to work. Most importantly i'm looking out to my kids future. I dont want them to be like me and my husband having to travel far to find the right job. It would be much better and easier to have alot of opportunities for my kids. Most importantly its for our kids future. Please consider our petition we would really love to have these opportunities in Moreno Valley for us and our family. thank you for taking your time to read my letter and considering this project in Moreno Valley.

CITY COUNCIL
MORENO VALLEY
RECEIVED
15 JUL -1 PM 3:01

I am writing to you today to ask that you work to make sure the World Logistics Center gets approval here in Moreno Valley. Please back this project. I have lived in Moreno Valley for my entire life, 21 years. I don't have any children, & unfortunately I am still looking for a job. This is why I support the World Logistics Center, because I along with many other young adults struggle to begin their adult life because there is little opportunity for us here in this City. I am involved in this community through church activities allow me to have many opportunities to see how needy this community is. I want to believe that you have this area's best interests in mind, so I ask for your support of this logistics project. The World Logistics Center provides Moreno Valley with the opportunity to make huge and very needed changes to the City, making it a better place to live & work. I have not had to travel for for work, however the only jobs I have been able to get were jobs that did <u>not</u> allow me to get better occupational opportunities or even better myself. There is such little benefits Moreno Valley can bring a person in the condition it is now in. This project will bring a ton of jobs to the area for all sorts of people. We have the land available & our community is more than willing to work. We want more for ourselves! We can no longer allow our residents a decreased quality of life because of ~~community~~ commuting or unemployment. We can no longer allow our residents to spend their hard earned money in order to benefit a city that is not their

CITY COUNCIL
MORENO VALLEY
RECEIVED
15 JUL -7 PM 5:01

own.

Our economy has been ~~stagnating~~ stagnating as a result of too few jobs & not enough effort to bring more to our city. If we keep building houses without creating more jobs in this city then we will be compounding existing problems. Our people matter! This logistics center will help generate more millions in fees, giving the city more flexibility to fix the problems in the community. When you consider how many people have long commutes in this city, the people of Moreno Valley need the new jobs that the World Logistics Center will create. Spending hours everyday trying to get to work is no way to spend a life. I have not had a job since the summer of 2014. I go to school (Vanguard University) in Costa Mesa. So I don't want to travel for for work also. How can I pay for school? Many many more people are in the same situations as I am.

I am tired of the condition that my City is in! I am jelous of the prosperity of the cities around me, and I am ready to change it.

The next generation deserves more. Believe that this community is fed up and will fight for what they want. We want the change that World Logistics Center will bring us!

Sincerly,

Stephanie Torres

City Council of Moreno Valley
c/o City Hall / Clerks office
14177 Frederick Street,
Moreno Valley CA 92553

To whom it may concern,

I was asked to write a letter in support of Highland Fairview Project. Rather than do that, I want to write a letter in support of sustainable of industrial development in Moreno Valley. For too long the city has built housing without concern for job development and that is a bad thing. The city needs new jobs and it needs an industrial base. I have no idea if the Highland Fairview project is a good project, I as a resident, rely on you the city officials to determine that. I do know that the city needs development of industrial areas with a high-tech focus. We cannot afford continued failure to develop so that a few people can maintain "a rural view". The City needs jobs not rural views.

The form letter asks me to give you this info: I have lived in Moreno Valley since 1986. I am a single unmarried man with no children. I am an Attorney. I am not active in the community except that I am a member

CITY COUNCIL
MORENO VALLEY

of the Stampede of the valley Church, I do shop locally when I can, but with the poverty in the community, there are not many stores, shops, or restaurants to choose from.

I no longer commute. Commuting is a horrible life draining experience. It kills the soul and makes you hate the people around you. Several people I know commute. They ~~take~~ ride to downtown Los Angeles Union Station. On a good day it means 3-4 hours on the train. On a bad day its much worse. I miss Monday through Friday completely dedicated to work & travel.

As I stated before. The City <u>needs</u> <u>Local</u> <u>Jobs</u>. I want to encourage you to support job growth related development. If Highland Fairview Logistics Center is the best project on the table, seize it and make it happen. If not then make a better project, but dont block development of the eastside. Its time to put job growth first. We dont need empty fields, or new houses, <u>we</u> <u>need</u> <u>Jobs</u>.

Sincerely Thomas Wozka

I have been a resident in Moreno Valley for about 24 years. My family as well. My Occupation is Graphic Designer / Entrepeneur I have never been active in the community until now with this project.

I have always had to commute with all my past jobs; about 8 years total. Commuting is something you have to get used to and that is not easy, waking up early, driving far, spending extra time in traffic Etc. making it hard for me to have extra time to spend with family and friends. Due to lack of jobs in Moreno Valley I moved to Riverside.

I believe that The World Logistics Center Project would be a great opportunity for our community because it will bring many jobs, boost our economy, It will also bring more money to our city that will go back into local businesses. With World Logistics Center Our community will have local jobs, help income for those in need and so those having to commute

Moreno Valley, CA. 92553

Dear Council Members of Moreno Valley:

I have lived in Moreno Valley for 20 years. I am now married and have my family. I am writing this letter to express my support for the World Logistics Center. I am fortunate, only a few can say this, to work here in the city. I work in the Moreno Valley Unified School District. I have witnessed how all of my brothers, friends, and many others have to commute to other cities. I have seen how many of the students I work with, only get to spend a few minutes with their dad or mom because they come home late from ~~dri~~ their job. The lack of opportunities and jobs in our city ~~are~~ is affecting our families ~~to~~ in a profound way. I urge you to please approve this project.

I am amazed at the creativity and investment that is put forth into the World Logistic Center. The numerous benefits that it will bring to our city are just impressive and exactly what our city needs. I don't understand why there are opponents to this project. I am ~~in~~ confident, however, that all

Dear Councilmembers:

I am a resident of Moreno Valley for the Last 25 years. I have been commuting for 20 years, and for the past 5 years I have been looking for a good job. I have been working in the accounting field, I have an excellent clean record. Nothing should stop me from getting a good job. But the problem that we have locaty is the lack of employment in the city. So I am writing this letter to the City Council members to demand the Approval of the World Logistics Center. because like me there is thousands of people looking for job opportunities, people that have long commutes out of the city because there is absolutely nothing here.

For many people like me it has been a big burden and a horrible nightmare to have moved to this city. We all moved to Moreno Valley because we saw the Housing was affordable and we thought it was a good place to raise our families. But we soon realize that the sacrifice is greater than the benefit. I was away from my family from 12 - 14 hours a day. I have to get

June 4,2015

Dear Council Members:

Iam a resident of the City of Moreno Valley and Iam a currently a Pastor at the Church of MCA, for the last five Years.

Prior to joining the Church of MCA, Iworked for 17 Years in the city of Orange , and I had to drive more than 100 miles a day, get up very early to avoid the traffic , losing hours of the rest and sleep, and accumulated amounts of stress and despair due to road accidents and danger. Limiting myself to have little to no time with my family or myself.

I have analyzed the proyect presented by Mr. Iddo Benzeeve, and I am convincedthat this proyect can:

Alleviate and help and different way a large eighpart of the community of the Moreno Valley and neighboring cities.

This proyect could help to alleviate traffic on the 215Fwy,60's,and 91.

Giving the residents of Moreno Valley more job opportunities and more time to epend with their families .

This would generate more sales and stores , wich generate taxes for the benefit of the City . A better economy for Moreno Valley , would give us better public services.

I firmly believe that this project would impact positively the socioeconomic and industrial development in our city and surroundings.

This proyect is considering a blessing to Moreno Valley , Irecommend it should be approved.

I don't want this investor to go to another Country or city to realize his project thus missing our opportunity to grow , and the benefits that it would bring our families in the City of Moreno Valley .

Sincerely

Pastor Raul Leal Vazquez

Moreno Valley Resident

Dear Counsil Members:

Hello I am disgusted by what the opposition is saying about Iddo and the World Logistic Center. If you don't like him that is one thing, but if you don't like the progression of your city and more jobs and money, then please step down and leave Moreno Valley. Iddo is a great man who wants to help a city that is not his hometown. That should speak volumes. Instead people are saying he's buying Moreno Valley, when in reality he is only trying to help the residents since no one else is.

Sincerely, Ashley Burns

City Council of Moreno Valley
c/o City Hall/Clerk's Office
14177 Frederick Street,
Moreno Valley, California 92553

Dear Councilmembers;

I am writing to you today to ask that you work to make sure the World Logistics Center gets approval here in Moreno Valley. I enjoy living in Moreno Valley and want the best for the Community and my family. I Support the World Logistics Center because it will bring tons of jobs to our city. Allowing us to have a job close to home and close to our own shopping centers and restaurants.

I have been living in Moreno Valley for 19 years and am still struggling to find a decent job. Alot of my friends have good work experience and clean records, but still have no jobs. We have available land and our community is willing to work. Instead I see that land being used for building new houses, yet the community has no jobs.

Hence, The World Logistics Center would be a great addition to Moreno Valley. Providing more jobs, Creating more money, and no longer being a "ghost town". Please Approve This Project.

Sincerely,

Selina Contreras, [redacted]

As a College student, it is Already difficult to find jobs. I believe with this project it could open a Vast amount of job opperturnitties. When people have jobs they get money, they will spend More Money. That will improve the buisness around and increase the amount of tax coming into the city. Then that money Could be used to improve the city, which Will Make people want to live out here. Then that cycle will continue in a Posite slope. The reasons people sell their houses and leave is because there is no jobs. Everyone I ask works towards Los Angeles, Where all the jobs are at. I May be Young but I Understand how things work. I am a Buisness Major after all This is a good thing and I hope it gets passed.

Dear Counsil Members:

I am in complete and total agreeance with the World Logistics Center. I do not understand why it has taken so long to approve a building that would benefit Moreno Valley as a whole. The World Logistics Center will bring in a steady flow of traffic that will benefit small mom and pop shops. With increased traffic there will be an increase in revenue for the city. This city is close to bankruptcy just as San Bernadino. We can and will do better, especially with the completion of the World Logistics Center Next year 2016.

Thank you!

Sincerely,

Joe Muniz

Dear Counsil Members:

As a woman in a male dominant world, I have always fought for what I believed in. Not matter what the opposition may say, I have never swayed my mind on how the World Logistics Center will be beneficial. There are many doubters that say Iddo is only in it for the money, but how can that be true if he is contributing more than he would receive. I only want progress and what is best for the City as a whole, not just myself. Please approve this project so that we can thrive as a City, and Dominate our competing cities. This World Logistics Center will provide the City with extra revenue that can be used for repairs to our once beautiful city. If we work together we can do it.

Again, Please think of the benefits and the long run future of benefits from the World Logistics Center (WLC).

Dear Planning Commission:

I am a Resident of Moreno Valley and I want change! The WLC brings change. Is there a way we can ~~potential~~ petition the Districts and elect NEW members with NEW & Improved Ideas to help Moreno Valley? We need a change Now! There should be New members in any and all offices. People from '92 should no longer be on office. There's time for a change in staff, especially in the school district.

Sincerely,

Mildred Bailey

Moreno Valley Resident

Dear Council members:

Hello Council members, I am a 17 year old young man getting ready to head to college. As I approach my eighteenth birthday, I was recently told that I beat the statistics of not being shot. My mom raised me out here in the valley so that I can have a better environment. Living out here has taught me to become an independent young man who takes care of my mom.

When I graduate College I will have a masters in logistics, so that I have a higher stepping stone up than some of the other candidates. My mother always told me I can do anything and I know I will get a great logistics job and take care of her and the family.

Sincerely,

Kevante Browne

Dear Councilmembers;

My names is Amy Ledefma, I have lived in Moreno Valley for many years. I'm writing you to express my support for the World Logistic Center project. I want to believe that you have this area's best interest in mind, so I ask for your support of this logistics project. Everything that the World Logistic Center project is bringing is exactly what we need in our city. I think it's time for our city to make a change and do this by approving The World Logistics Center project. The project will bring 20,000 job opportunities that we need here, and more money in tax revenue to make our city progress. With this opportunity for money to benefit the city we can have better facilities in Moreno Valley.

The entire community will benefit in one way or another from the project. I would like to ask you to approve this project, so we can start benefitting as soon as possible. Thank you for your time

Sincerely,

Dear Councilmembers:

My name is Burt W. Ashens and I have lived in Moreno Valley for approximately 10 years and I have more than 40 years of experience in the Industrial Marketing field. I submit this letter as a supportive approval for the Highland Fairview World Logistics Center proposal with the following justifying points of interest.

1. The two World Logistics Center promotional brochures that I have received not only reflect professional, but exceptional "marketing knowledge" something that Moreno Valley has been short of.
2. Emphasis on providing jobs and career opportunities.
3. Major increase in property value, combined with lower upgrading expenses.
4. It will result in a community with more relaxed life attitudes.
5. More business competition and more customer service aptitude.
6. An opportunity to have a fully staffed city hall facility.

After Mr. Iddo Benzeevi's talk at the June 11, 2015 City Planning Commission meeting, he solidified the impressions of purpose, dedication, and a vision of how to!

Moreno Valley should feel blessed for this man's dreams and actions toward accomplishments.

Sincerely,

Burt W. Ashens

I have lived in Moreno Valley for 13 years. Yes, I am active in the community. I play soccer.

My dad has been commuted for 10 years driving to Irvine for work. This affects my life because I wanna spend more time with my dad. Yes, sometimes my dad has to work and can't be with us. I think that this project would be helpful with all the technology and the money being contributed to the Education and work forces. This project would benefit the community in a variety of ways. It would help it by the 2,000 jobs and less commutes so families can spend more time with your families together. the tax revenue ~~we~~ will also benefit by the tax revenue by cutting taxes in our community. It will also help in the education.

A quien corresponda:

El motivo de esta carta es para declarar mi apoyo al proyecto del World Logistic Center porque me gustaria que se abrieran mas empleos para que la ciudad tuviera mas presupuesto para que se realizaran mas actividades para la comunidad y principalmente para los niños y jovenes. Yo tengo 3 hijos y cuando trato de que tomen clases o que practiquen algun deporte son muy caros y ademas no puedo pagar porque no hay trabajos disponibles aca en Moreno Valley. Por eso yo apoyo el ~~trabajo~~. proyecto de World Logistic Center, y les pido porfavor que aprueben el proyecto y que aprueben los permisos.

Dear Council members June 4, 2015

My name is Damion Wade, and I am in full support of the continued construction of The World Logistics Center project. I have been a Moreno Valley resident for 32 years now and have held 5 jobs in this time, 4 out of the 5 jobs I have had to commute to Riverside or further, with only 1 fast food job being here in town. I am aware that with the construction of the World Logistics Center approximately 20,000 new jobs will be added to Moreno Valley and thats not counting the 13,000 or so construction jobs that will be fullfilled over the period of 15 years to build the project. And then, there's all of the tax-revenues that will go to the city of Moreno Valley and the state. With tax-revenues being allocated to our police, firefighters, parks etc. this is a win-win situation, and not to mention the addition of all the new jobs for Moreno Valley residents and others. I am

A third generation Wade in this town. And I wish to see my children have the option of living here and working here. So, please honor the requests being made so that the continued construction of this project can happen.

Sincerely yours,
Damen Wade

My name is Elmer Williamson and I am a father of a 5 year old girl. She looks up to me and everything that I do. She wants toys and clothes, and as my only child I try to give her what she wants and needs. I really want the World Logistics Center to hurry and be developed, so that I can apply for work and make life easier for me and my daughter. Thank you for your approval of the World Logistics Center.

Sincerely,

Elmer Williamson

Dear Counilmembers:

Hi my name is David, and I am a elementary school going into middle school. I want to be an engineer when I grow up and make lots and lots of money. The World Logistics Center will give jobs to Moreno Valley that pay very good. When I get a job there I can take care of my mom and my dad, also my little brothers and sisters.

Please build this, my family and I really want and need the World Logistics Center.

Sincerely, David Sosa

Dear Council members:

Hello my name is michael and I am for the world Logistics center. I think this building will help families of all races and denominations. I want to work in logistics when I get older, I am studying computers and termonology now, so that I will be Mentally and physically ready when it is my time to enter the work force. Please approve the blueprints of the world Logistics center. We as a city need this change as soon as possible. Again we can all benefit from the logistics Center, especially the City of Moreno Valleys Revenue. Thank you for taking time to read my letter.

Dear Counsil Members:

Hello my name is Melissa, and I am in support of the World Logistics Center. I completely am one hundred percent ready for this logistics Center to be developed. This development will allow Moreno Valley to economically rise higher than other cities. The tax revenue that would be generated from the W.L.C. (World Logistics Center) could be used to help benefit our City. Especially our school districts and police departments. The majority of the cities funds are used on things that will not regenerate income. Please invest in our future as a city and allow us to soare high without limits. I know this city can and will be great. We changed our Consil members, now its time for us to change our City completely for the best only. Again please approve this development of the World Logistics Center.

City Council of Moreno Valley
c/o City Hall/Clerk's office
14177 Frederick Street
Moreno Valley, California

I have been a resident of Moreno Valley since 1988, I am writing in support of the World Logistic Center project because our city desperately needs a variety of job opportunities in our area. For those who argue the jobs this project will bring are low paying jobs my response is this; we have hundreds of kids graduating high school every year who need entry level positions to learn job skills, develop a work ethic, and learn to appreciate the feeling of earning funds through their own efforts. Also many people including myself want a job, an opportunity for a new start after long periods of unemployment.

In all the time I've lived here commuting has been necessary in order to have a full time job. Currently I drive 42 miles round trip to my job in a real estate development office.

My five children all moved out of the area in order to secure employment. When my children were minors the time away from home was very challenging and I am sure young parents now are enduring the same difficulties time away from children meant to me. Last year my grandson moved out of the area for the same reason lack of job opportunity in the area.

The opportunities for employment, tax revenues, and potential improvements to our city from additional revenue would be wonderful. The family time added to parents no longer commuting would increase safety for children and perhaps lower juvenile problems in the area.

Some people complain about the pollution but you have several warehouse and distribution centers less than a mile from city hall and much closer to local residents than the World Logistic Center would be.

As a longtime resident of this community I offer my full support to this project.

Thank you for taking the time to read my letter, I can be reached at 951 201-1444 if you would like to contact me.

Sincerely,

Mary Ann Lerma

My name is Gema Garcia, and I believe the World Logistics Center project will only benefit our poor, sad community. When I grow up, I wouldn't want to live in a place like Moreno Valley, is today. This project will encourage me to stay here. Moreno Valley has some of the worst schools, and I'd like to change that. I want to be able to find a job, to pay for college, when I grow older. This project will improve how other cities look at the sad city of Moreno Valley. Our city is a joke to others, our schools have horrible teachers. The school system is rigged, I am an A student, but it's difficult to deal with teachers, who don't do their job. It's difficult as a young adult not to have amusement in a city, or any activities. There is nothing fun or exciting to do in this city. I hope this project is passed for the better of our community's lives. Thank you for your time and consideration. Have a nice day.

Sincerely
Gema Garcia

Querido Council Mèmbros

Porque no quieren apoyar este proyecto? Yo creo que este proyecto va a traer nuevos trabajos a esta ciudad. Esta ciudad necesita trabajos, trabajas de buena paga en la que se pueda una mantener, y yo creo que este proyecto va a ayudar a Moreno Valley. El World Logistic Center va ayudar a la ciudad. Den los permisos

Dear City Council of Moreno Valley,

My name is Jackie Reed and I have lived in Moreno Valley for 15 yrs I have three kids and 4 grandchildren 3 of whom live here in Moreno Valley as well. I am a manager and have had to commute to work since I moved here even after switching jobs. There are not many opportunities here for work or to start a career. This has resulted in me not being able to spend time with my family as I have to work 10 to 12 hours per day with an hour commute each way. My kids were "latch key" kids.

I am excited for the World Logistics Center because the would provide my kids an opportunity to work in the community they live and allow them more times to spend with my grandchildren, time I wasn't able to spend with my own kids. This will allow my grandchildren an opportunity to bond with their parents and will also benefit their education as well. I am excited to support the future of Moreno Valley.

Sincerely, Jackie Reed

Dear council members, I am a 12 year old girl and I wish to be a photographer when I get older. Even though I am only 12, still young, I support the World logistics center project. It will open doors for me and be easier for others also. In less than 6 or 7 years I can be able to participate with the project. I know we will succeed with this project as long as we all do our part and support this idea. Honestly, I don't know why people are against this amazing project! It will provide 20,000 jobs and help so many people. This is so generous and ~~Ido~~ is not asking for a penny! This will help everyone who is willing to get a good job in life. Like me.

Dear Councilmembers,

I have lived in Moreno Valley for 29 years. I have two children who have lived in Moreno Valley all of there Lives. I work in the retail bussiness in Riverside, CA. I have worked there for the past 18 years. I attend Church here in Moreno Valley.

I would like to ask you to approve the World Logistics Center project. It would bring Jobs to Moreno Valley and would help boost the economy in our City. I have watched this City grow with all the houses, but what good is that if our citizens have to commute to other cities for work.

I would hope that you as Councilmembers you also have the Citres best intrest in mind. The entire community would benfit from the World Logistics Center project to make our City a better place to live. I know several young people/my daughter included who have been looking for a job and have not been able to find them.

We need this project to get your approval

and pass the permits to get this project under way. We need to build this City up we don't want to be like other surrounding cities ~~w~~ that are dealing with ~~[illegible]~~ money troubles.

We need to look to the future not only for us but for the next generation. this will also help other local business in the area. We need to build more jobs to help out the economy. Please pass The World Logistics Center project.

Thanking you in advance for your support

Sincerely,

Dear Councilmembers,

my name is Francisco Serrano, I currently live in San Diego, CA, but I was a resident of Moreno Valley for 15 years before that. My wife and I both commuted for years outside the City because there wasn't any Job opportunity. We have two daughters that currently live in Moreno Valley, and we would like a different future for them, I hope we can see that in the near future. Our family supports the World Logistics Center Project because it will create a lot of opportunity for people in Moreno Valley. Hopefully putting the City on the map, like San Diego, a beautiful City that has tons of Job opportunity and businesses that are thriving, and a city with an economic base. We hope you make the right choice for the City of Moreno Valley. Thank You.

I'm writing to you today to ask that work to make sure the World Sports Center gets approval here in Moreno Valley.
I'm 67 yrs old and lived in Moreno Valley for for 31 yrs. I have seen the changes in this place. It's sad now days that we have so many people & no jobs in the city. But it's infested with gangs & crime, no place for people to have a good time. We have to go to Riv. L.A Orange County San Bdo. to spend our money.
We need the money to in the city to educate our young people keep them away from gangs & drugs, Parents aren't not around is very hard to keep an eye on their kids. Without jobs in the City is hard to keep Parent. Please consider that the project will pass

Sincerely yours

DEAR COUNCILMEMBERS,

I'M WRITING TO YOU TO EXPRESS MY SUPPORT FOR THE WORLD LOGISTIC CENTER. MY MAIN CONCERN IS PROVIDING JOBS FOR OUR COMMUNITY. SEVERAL STUDIES HAVE SHOWN THAT HIGH UNEMPLOYMENT RESULTS IN HIGHER CRIME RATES. I HAVE BEEN A RESIDENT OF MORENO VALLEY FOR FOUR YEARS, AND I PLAN TO STAY HERE. I WANT TO LIVE IN A PLACE WHERE WE ARE CONSTANTLY DOING WHATEVER WE CAN, TO REDUCE CRIME. LOWER CRIME MEANS SAFER COMMUNITY. I THINK ITS SAFE TO SAY WE ALL WANT TO LIVE IN A SAFE COMMUNITY. INVESTING IN OUR INFRASTRUCTURE IS SOMETHING I'M ALSO IN FAVOR OF. THE W.L.C. WILL GENERATE REVENUE FOR THE CITY, THAT CAN BE USED TO FIX OUR INFRASTRUCTURE. CREATING JOBS CLOSER TO HOME WILL ALLOW PARENTS TO SPEND MORE TIME WITH THEIR KIDS, WHICH WILL RESULT IN MORE PRODUCTIVE MEMBERS OF SOCIETY. FOCUSING OF THE FAMILY STRUCTURE WILL STRENGTHEN OUR COMMUNITY. REDUCING COMMUTE TIMES, BY CREATING JOBS CLOSE TO HOME WILL

ALLOW PARENT TO FOCUS ON THEIR FAMILY. REDUCING CRIME, CREATING ECONOMIC GROWTH, AND CREATING A BETTER COMMUNITY, WILL MAKE OUR CITY A PLACE WHERE PEOPLE WILL WANT TO LIVE AND DO BUSINESS WITH. MAKING OUR CITY INTO A PLACE WHERE OUTSIDER WANT TO DO BUSINESS WITH WILL RESULT IN MORE BUSINESS, MORE ECONOMIC GROWTH, AND A BETTER OVERALL COMMUNITY. THUS I ASK THAT YOU PLEASE SUPPORT THE WORLD LOGISTIC CENTER, AND MAKE OUR CITY THE BEST PLACE TO LIVE.

SINCERELY

Im writing to you today to ask that you. to approve the World Logistic CT.

I love Moreno Valley and want to see the future of this City + people thrive.

This project will bring alot of Job's.

This project will bring Huge Revanue to keep our City Afloat.

We have 3 thousand students graduating every year with no Job's for them here in M.V.

The thousand's of people that must commute to and from work can not spend much needed time with family + also do not have time to be involved in the City + school's.

The bottom line is the the benifit's are to great to pass up. Think about the people of this City and thire future.

Your's truly

Saludos a la mesa directiva de Consejales,

Quiero pediles que aprueben el projecto de World Logistic Center para que haya trabajos en nuestra comunidad.
Tengo muchos años viviendo en Moreno Valley, yo salia a trabajar a los Angeles por muchos años.
En esta ciudad no hubo trabajo para mi nimis hijos. Tengo 3 hijos 2 estan trabajando en los Angeles y uno lo perdí porque Moreno Valley no tenía nada que ofrecer a mi hijo. y tristemente murio en manos de una pandilla.

Por esto les suplico que den oportunidades al as nuevas generaciones y las familias no se dividan

Por eso les pido que den los permisos al projecto de World Logistic Center para q' haya suficientes trabajos para todos

Gracias Emma Cerda

CITY COUNCIL of MORENO VALLEY
C/O CITY HALL CLERKS OFFICE
14177 FREDERICK STREET
MORENO VALLEY, CALIFORNIA 92553

DEAR COUNCIL MEMBERS;
DEAR GEORGE PRICE - (DISTRICT 3)
I AM WRITING TO YOU TO REQUEST THAT YOU CONSIDER GIVING APPROVAL TO THE WORLD LOGISTICS CENTER.

WE ENJOY LIVING IN MORENO VALLEY AND HAVE LIVED HERE SINCE 2004, WHEN WE PURCHASED IN THE MOUNTAIN VIEW HOMES.

I WANT TO BELIEVE THAT YOU HAVE THE BEST INTERESTS IN THE GROWTH OF MORENO VALLEY

I WAS EMPLOYED IN LAW ENFORCEMENT AND RECOGNIZE THE NEED FOR STABLE FAMILIES IN OUR COMMUNITY, IT WAS A PROBLEM FOR FAMILIES DUE TO THE PARENTS HAVING TO TRAVEL 2 TO 4 HOURS GETTING TO AND FROM WORK WHICH LEFT THEIR CHILDREN WITHOUT SUPERVISION, THIS WOULD USUALLY BRING THEM INTO CONTACT WITH US DUE TO THAT LACK OF SUPERVISION.

(2)

I BELIEVE THE WORLD LOGISTICS CENTER WILL BE ABLE TO PROVIDE JOBS LOCALLY SO THAT THEY WILL BE ABLE TO SPEND MORE TIME WITH THEIR FAMILIES.

I AM 76 YEARS OLD AND RETIRED SO I DO NOT NEED A JOB BUT I KNOW THERE IS MANY IN OUR COMMUNITY WHO DO NEED A JOB.

I BELIEVE THE WORLD LOGISTICS CENTER WILL GENERATE RESOURCES FOR OUR CITY IN THE FORM OF FEES AND TAXES WHICH WOULD ENABLE THE CITY TO PROVIDE MORE SERVICES SUCH AS POLICE, PARKS AND RECREATION AND OTHER AGENCIES WITHIN THE COMMUNITY.

I BELIEVE OUR NEXT GENERATION OF OUR RESIDENTS NEED THE OPPORTUNITY TO HAVE STABLE JOBS WITHIN THE CITY.

AGAIN, I AM REQUESTING THAT YOU GIVE OBJECTIVE AND HONEST CONSIDERATION TO THIS WORLD LOGISTICS CENTER.

I ALSO BELIEVE AND APPRECIATE THE FACT THAT THIS PROJECT WILL BE DONE

(3)

BY SOMEONE WHO LIVES AND PAYS TAXES IN OUR COMMUNITY RATHER THAT SOME OUTSIDE GROUP COMING IN AND GETTING WHAT THEY CAN AND THEN MOVING ON TO SOME PLACE ELSE WITH NO CONCERN WHAT HAPPENS AFTER THE PROJECT.

SINCERELY,

Charles D Seek

I am writing today to my fellow council members with great concern I've always had. I'm 26 years old and lived I Moreno Valley for 16 years now. I'm concerned where Moreno Valley is heading towards. I know for any city to flourish or survive jobs are needed in the city so are revenue is going back into the city. The only plan of action that I've seen right now that can actually help is the World Logistics Center project.

Unemployment is too high and its effecting our way of life. The people here are more than wiling to work local jobs. All the jobs I've had over the year exception for one have been outside of Moreno Valley because there aren't any jobs or openings available in this city. The World Logistics Center is the only way to ensure economic growth to this city instead of revenue going elsewhere. Thank you for taking time to read my letter and hope you take this project into consideration.

Sincerely.

Pablo Hermosillo Jr

Dear Council members

I want to believe that you have the city's best interests in mind. Is the world logistic truly going to bring work to our city and keep in mind that this environment well be in mind as well.

Moreno Valley has no jobs to offer to our residents. The few jobs we do have are low paying. No livable wages.

Sincerely,

Sonia Lopez

Dear Councilmembers;

My name is Eleanor Salas Barajas, I've been living here for 31 years, I have seen it develop into a big city. It was once a great city, however that ended when the government closed it's military base which caused a huge domino effect on the economy. I don't believe it ever recovered. If the World Logistic Center delivers on what they promise to deliver to us; Job opportunities that we desperately need instead of working outside the city, commuting long hours, parents being away from their children, children not being well attended to, which can at times attribute to delinquency of a child. Jobs produced here can help produce income and sprout better and good quality stores and not the junky "made outside of the USA" type of products. The Tax income that will generate out of this venture for the City of Moreno Valley will hopefully beautify our Community, streets, Mall and overall make our city a place to be proud of. This Logistic Center should provide incentives for our teens to give them better options and opportunities to help in their goals and better themselves, to have decent jobs to pay for their college tuitions, buy homes. There are still so many foreclosed homes in this town. It will be great if the people of Moreno Valley gets first pick on those jobs. The young adults graduate and have no hopes of real, good paying jobs, because they are far from being available in this city. Hopefully, this will get addressed through these new jobs that are going to be created.

The only thing I am concerned is the beauty and nature's scenery east of Redlands Blvd that will be disturbed. The "Surrounding Landscape" of this center really needs to be taken into consideration so that it won't look like a sore eye and have a negative impact on the city and people that have to view it from their homes.

Aside from this concern, I support this Venture and I hope to see this city become the city that at some point people actually thought it would become – The next Lake Forest.

Thank you sincerely,

Eleanor Salas Barajas

Dears Council Members,
I have lived in the City of Moreno Valley for 25 years
I have 5 childrens.
I am retired.
I personally have not commuted out of the City but my children they all had to go out of Moreno Valley to work because there is no jobs in our city, and this affected they lives because they had to put their lives, because they had to put their live in danger every day on the Fwy, they had to get up very early in the morning and come back home late at night.
This commute is not a way of living.
I see my kids suffer leaving their kid's behind and only being able to spend a little bit of time with their kids on weekends only.
The WLC project will be fabulous project because it bring lot of jobs to our city and to the surrounding areas.
And Moreno Valley will become a a well known city for economic growth.
We have to be thankful that someone.
Wants and have the desire and the resources to help our city grow and be a great place to live.
The best thing that can happen to our city is to get this project approved immediately so I urge our council members to take immediate action and approved this project.

if approved our city will have the funds to get more public safety, funds for intersections and all that our city needs to be successful.

Do not delay approved this project now.

Sincerely,

Vilma Rostrepo

Dear Councilmembers;

I have been living in Moreno Valley for 30 years, my husband and I work outside Moreno Valley he works in San Diego, and I work in Cabazon we both have to commute long hours to work because we have been unable to find a job in Moreno Valley, we have no jobs in the City.
I am very tired of the long commutes every day, My husband and I hardly spend any time together, the only time we are together we are so tired we basically just want to rest. This is not a way to live a healthy life, something must be done.
The Solution to stop this long commutes is to approve the World Logistics Center and to better the lives of the Moreno Valley Community.
Council members the Decision is in your hands and you owe it to us to give us a better Moreno Valley, Say Yes to the World Logistic Center.
Sincerely,
Benita Palominos

Dear Council Members

I lived in Moreno Valley for 29 yrs. I have 2 children. I'm retired and this allows me to be very active in the community. I'm a volunteer for Discovery Christian Church, advocate for the Salvation Army, United Way and the MV school district.

I'm writing this letter in support for the World Logistics Center Project. Not living in Moreno Valley now, I see the value of this project. It will bring jobs not only jobs to Moreno Valley but to the surrounding cities as well.

The amount of tax dollars that Moreno Valley will receive from this project will benefit the city in many ways. It will give additional monies for Police & Fire Protections, street repairs, Park & Rec Budget, additional monies to be distributed to non-profit organizations. With the increase in employment, individuals will want to live closer to their jobs. This will create a housing need and higher home values.

Please consider voting YES to this project.

I have leaved in Moreno Valley for three months. I have one child. My occupation is a substitute clerical for Alvord Unified School District. I am active in sports with Inland United Soccer league Brasil U15 girls. I am the team manager.

I have been commuting to work for three months. Commuting does cause stress and it hurts affects my family in the commute.

The World Logistics Center project will will provide more local jobs.

The World Logistics Center project will provide more family to keep their money spend in this city Moreno Valley.

Dear Council Members,

It's a pleasure to write to you. I live in Riverside and I'm 13 yrs old I heard the 3 billion dollars that i' going to go to the project World Logistics Center. That money my city would take it for a projec Moreno Valley is lucky to have this oppurtunatiy don't miss it.

I like the project because it's for the next genero tion. It's high technology and it's going to bring alot of thousands of dollars for tax revenue for our stat of California and for the city of Moreno Valley. f

Be Kind and Helpful and approve this wonderful project

Sincerely,
Miroslava Quiroz

Dear Council members,

I am writing to you today to ask that you work to make sure the World Logistics Center gets approval here in Moreno Valley. We enjoy living in Moreno Valley, we have been living here for 11 years. We want the best for the community and our family. I support the World Logistics Center because it's a great opportunity to have a job where I can work locally, close to home and spend more time with my family. I want to believe that you have this area's best interests in mind, so I ask for your support of this logistics project. The World Logistic Center provides Moreno Valley with the opportunity to make huge and very needed changes to the city, making it a better place to live and work.

Sincerely,

Amadeo Medina

A mi me parece muy bien este proyecto, porque es un beneficio para esta ciudad. Yo trabajo en los Angeles, y paso 4 hrs en el Fwy, y asi como yo hay muchra gente, y con este proyecto, todo cambiaria, y asi tendriamos mas tiempo para pasar en familia, y tendriamos un poco mas de dinero, porque no gastariamos tanto en gasolina y ya no tendriamos que madrugar asi podiamos dormir un poco mas.

Yo estoy completamente de acuerdo en este proyecto.

Dear Counsil Members:

Please, Please, Please, approve the World Logistics Center. We as residents have to work more than one-two jobs, in order to supplement income. If I were to take logistic classes now, I would be able to qualify for open positions. Then I would only need one job to take care of my family.

Any extra time I could spend with my family is worth having. We really need close jobs near by and that would help eliminate traffic. Again please allow the residents the opportunity to apply and do better for themselves and their families.

Sincerely, Jacke Browne

Moreno Valley, California 92553

Dear Councilmember's;

I've lived in Moreno Valley for many years and made lots of close friends but it was hard finding work there so I had to drive out to find work with the rising cost of gas my best choice was to move closer to my work in doing so grew further away from my friends since there is no time to visit do to work. Bringing the world logistics center gives me hope I'll get to live in the city I grew up in

Sincerely,

Michael Lipton

Dear Councilmembers
My name is Hilda Garcia and I have 14 years living in Moreno Valley. My job is in a warehouse here in Moreno Valley but I know of many families that go out for work far away everyday. I believe The World Logistic Center would help many people here in the community to have jobs in the city and not travel elsewhere. I hope you approve (embrace) the project so it happens here in Moreno Valley.

Sincerely
Hilda Garcia

Dear Councilmembers;

I'm writing to you in support of the World Logistic Center and have been a proud resident of the City of Moreno Valley since 2007. Many friends and residents that I am acquainted with work out in Irvine California and commute daily along the traffic driven 91 freeway. The WLC is an excellent opportunity not just for the city but its residents because it brings more locals jobs as well as additional income for the city. I would be more than happy to take a work pay cut in lieu of a shorter commute and traffic. I am an active member of the community and have coached many youth teams. Many parents and I appreciate the parks and recreation the city has to offer and additional funds from the WLC could hopefully open up additional parks for our children to play and compete in. We are a fast growing city and seriously need to take advantage of this opportunity before it is taken from us. Hopefully the council strongly considers this as many residence I are in accordance with the development.

Sincerely,

Art Ursulo

I have lived in Moreno Valley for 15 years. Right now, I have no kids living in my present home. Presently my occupation is clerical for the last 29 years in Los Angeles County. I am active in my community going to church and I bowl on a league during the week.

My commute is 86 miles round trip every day 5 days a week. When I get home, I am tired, lack of energy, do not feel like doing anything at all. I have limit time with my family. The time I get home I must prepare myself for work the next day.

The World Logistics Center project is going to be great for our city. We need jobs in our city. This project would benefit as far as

jobs, benefit us as far as taxes. We need jobs in our city I cannot stress this enough. I support World Logistics Center project.

Yo tengo viviendo en Moreno Valley 9 años tengo tres hijos uno de 19 años, 14 y 8 años ahora no tengo un trabajo trabajaba en una tienda de autoservicio. pero por cuestión de atensión a mis hijos. y a mi esposo. estoy en mi casa en ocasiones cuido niños pero la economia en mi hogar no es muy favorable vivimos esforzandonos cada dia. asistimos a una Iglesia donde participamos en muchas actividades, asistimos a las reuniones escolares participamos en deportes con mi hijo. aveces me involuro en las reuniones del distrito Escolar.
A mi Esposo es al que le ha afectado directamente la distancia por los trabajos o por la economia ha padecido de streets tambien a afectado en la calidad de tiempo para su familia. en su autoestima. por lo tanto en nuestros hijos tambien afecta. Yo creo que el proyecto de world Logistics Center podria beneficiar a la comunidad por lo tanto a nuestras familias por que en verdad hay mucha necesidad de todo tipo financiero, Moral, Fisico como una nación libre pero atada por no haber apoyo, unidad y oportunidades
Solo pienso que lo que se plantea y se esta ofreciendo sea una verdad que por supuesto ayudaria.

Dear Counsil Members:

Hello I am disgusted by what the opposition is saying about Iddo and the World Logistic Center. If you don't like him that is one thing, but if you don't like the progression of your city and more jobs and money, then please step down and leave Moreno Valley. Iddo is a great man who wants to help a city that is not his hometown. That should speak volumes. Instead people are saying he's buying Moreno Valley, when in reality he is only trying to help the residents since no one else is.

Dear Councilman Jesse L. Molina

I'm a Moreno Valley resident. I have two children who are still young. I curently work in landscaping due to the lack of better Job opportunities. I do not want my children to end up in landscaping becouse Moreno Valley leaders don't make decisions that work for must residents. Therefore, I urge you to approve the World Logistic Center Project. I know it will benefit our entire Community. I have looked into the impact that the logistic industry represents. I want a better opportunity for our city, our residents and my own children. I, please urge to approve the project in its entirity

Respectfully,

[redacted]

Moreno Valley CA. 92553

Dear City Counsel,

I Monique Maldonado, am writting this in support for the passing and construction of the World logistic Center. I believe in all the benefits the Center will bring to the city. I've lived in Moreno valley for about 12 years, and believe the passing of this establishment could open so many opportunities for many Moreno Valley residents. Therefore I give my complete support to this company.

Sincerely,

Monique Maldonado

Dear councilmembers

My Name is Giovanni Diaz I have lived in Moreno Valley for 14 years. Two years ago I left to Las vegas because the lack of job opportunities in moreno valley. When I learned that there was a ~~pr~~ World logistics Center project that would bring opportunity and growth in the community I moved back to support the project. I believe that the project will greatly improve the quality of life in moreno valley by cutting the commuting time to a minimum allowing families to spend more time together. It is essential that our city become a pro ~~bussnes~~ bursness community rather than ~~a~~ crippling its citezens with a increased tax

I lived here 14 years, We need change!

Council member-
George E. Price,

This letter is regarding my support towards The World Logistics Center project I feel that this project will be a great way to open up so many doors for our city of Moreno Valley. It will bring so many job opportunities and we will actually be able to call this city a "City" not a ghost town or as we call it "the murda" because its so dead out here. there is nothing to look foward too. if we want to do something we travel outside town. or even to a job. most employement is outside Moreno Valley therefore we have to commute ~~more~~ and waste more of our time being stuck in traffic. I demand that you as council member and "the voice" of half of Moreno Valley I believe its for the better of your sake to please approve this project. It will benefit so many lives!

To council Member Jeffrey J. Giba

we have lived in Moreno valley 29 years. we have six children. They are all grown. three live in the local areas.

I am retired. I am active in church

I have commited to Riverside for a short time. It didnt effect my life much

I think the world Logistics center is a good idea.

I think it would help the community by bringing jobs, tax revenue and less commutes

I think the tax revenue would help to improve the schools also help public safety. I think it would help families if they have jobs in Moreno valley. It would improve the economy for the city. It will help the children in school, having their parents close by.

DEAR - Council Members:
ATTN: D. la DONNA Jempson

I am a Resident of Moreno Valley and I have 2 small children of ages 9 and 1 1/2 My present occupation is IN the logistics business where I work as a customer service representive IN recieving Department for Ryder logistics

I have been fortunate enough to have a job here in the city of Moreno Valley Honever My Husband commutes to Riverside for work. He has commuted for 3yrs Now. Because My Husband commutes so much it limits our time together as a family to do things such as sports with our children or just simple family time. The Work logistics center would benifit me and my family because My husband could find a job locally, cut the commute, and finally enjoy much needed family activities.

This project would benifit many familys and also help with the well educating and bringing up of our childenas Many family lack due to commuting out of the City and some time even causing us to neglect the well being of ~~of~~ our children leaving them in Hands of Baby sitters Family and Friends:

I am in sincere Favor of ~~p~~ the passing of permits to Allow to go Foward with this project as it would be convienent to me and many other Residents in Moreno Valley.

Again please pass the ~~permain~~ permits.

Thank you,

Sincerely - Veronica

Dear City Council Price

I am one of the many people in your district who are very interested in the future of Moreno Valley. We elected you to represent us, the people of your district, to do what you said you would do for us. Please do your job to approve the World Logistics project for the future of our city. All the informations, narrative and data has been provided to all of you to help you do your job to make a better decision.

Please be strong in doing your job and not be afraid of recall because we will back you up against those few people who do not want change. There are many, many more people who are interested to help change our city for the betterment of our community who are not able to come to voice out their opinions. You are our appointed representative to represent us. Let us not let this opportunity pass us.

The process is in place for this project to materialized and the only thing missing is yours and your peers approval. The decisions you make today will make a great difference in the future for our City. Your name will be there in the history of Moreno Valley and you could make a legacy for yourself in a great way because you are not just helping yourself, your family, your neighbors and the future generations of this city. Let us built this city better than our neighboring cities.

May God Bless you and overpower you to do what is align to His Will.

Dear City counsel

My name is Jorge Alvarado and I have been a resident of this city since 1993 I have been commuting ever since due to the lack of employment opportunities here. I am in full support of the "Ulile" because I believe this project will bring wealth and job opportunity to moreno Valley. In the 22 years I have lived here, nothing has ever changed as far as an employment rate going down. this project has shown numbers that will drastically reduce unemployment rates increase tax revenue for the city so that you as leaders have the option to reduce taxes or eliminate them such as the "utility tax".
Also or not to mention the future of the city the future generations will reap the benefits of this great project as a former truck driver my self I can attest that the pollutants for pollution are way more strict than ever and a regular joe in old pickup that is the maximum money can buy they need of the truck as updated to run on natural gas making it even more cleaner for these transport trucks

So in conclusion, I am a retired truck driver and a resident I am trying you to approve the world logistics center" Immediately and stop wasting more time.

Sincerely Jorge Alvarado

Bueno yo tengo viviendo en moreno valley 10 años me llamo Juan carlos Mendoza, yo apoyo este proyecto porque ayudaria a mis hijos y a muchos otros personas a poder tener un trabajo en su misma ciudad donde vivimos esto seria una gran ayuda para toda la comunidad que se generaran muchos trabajos para no tener que viajar a otras ciudades para ir trabajar mi ocupacion es camionero y talves seria una buena oportunidad para mi tambien porque podrian salir trabajos para mi tambien, Si gracias a Dios soy hijo de Templo De Milagros Internacional se llama mi iglesia. Yo e viajado toda mi vida lejos para poder ir a mi trabajo, bueno el viajar tanto a mi trabajo a limitado el dedicar mas tiempo con mi familia me quita el tiempo para ir a mi iglesia. ES un gran proyecto y una gran ayuda para toda la comunidad lo que esta haciendo the world logistics center, porque va a generar muchicimos trabajos. Con los impuestos anuales el proyecto beneficiaria escuelas, estacion de policias y muchos mas empleos, igualmente hasta podriamos tener nuestra propia estacion de policia y mas seguridad en toda nuestra ciudad.

ayudaria tambien a generar mas lugares Sanos como parques recreativos para que convivan toda la comunidad, gracias por toda esa ayuda que estan aportando para la comunidad y en lo que puede yo los apoyo y estaremos ahi para lo que se necesite.

Queridos Miembros de Consejo de Moreno Valley.
Mi nombre es, Laura Preciado, tengo nueve años viviendo en Moreno Valley, soy Mesera y tengo 2 hijos graduados de high School uno sale a trabajar a Los Angeles, Ca. y mi hija actualmente esta sin trabajo y yo estoy activa en una iglecia de Moreno Valley.

Yo pienso que el projecto de "The World Logistics Center Project" traeria muchos beneficios a nuestra comunidad y a nuestra ciudad, habria más empleos y no se perderia tanto tiempo en el trayecto de la casa al trabajo como es el caso de mi hijo por ejemplo mi hijo sale de la casa a las 4:00 AM. y regresa 5:45 PM para solo trabajar 8 hrs. al dia; este es solo un ejemplo de los muchos que existen en nuestra ciudad. Tambien nuestra ciudad tendria un crecimiento significativo para un beneficio colectivo. Las familias tendrian más tiempo y comunicacion con sus hijos,

eso seria una motivacion para continuar estudiando y preparandose y entre más preparada y educada esta la comunidad, disminulle la delincuencia eso seria una gran ayuda para las autoridades.

Espero habran su mente y su corazon y Dios guie la desicion que tomen.

Sinseramente:

Dear Councilmembers,

I'm writing to you to express my support for The World Logistics Center project. I support this project because my dad has always worked outside of Moreno Valley, he has always come home late, and he has had no time for family time, and asking about how schools going, because the next day he wakes up early, and he's home late its just a cycle going on and on. I feel like he is always stressed out about works and that he is tired all the time. I really want something good for him, a better job would be great. Then I heard about The World Logistics Center, It had a whole bunch of stuff, and basically a plan for the future that I have never heard of. I find outstanding at what The World Logistics Center is trying to do for the well-being of people who are struggling to find jobs close to where there from, or people who need jobs. We have missed this opportunity in Moreno Valley; please dont let this opportunity get away from us.

Sincerely,
Karime Zepeda, 14

Dear councilmembers;

I am writing to you today to ask that you work to make sure the World Logistics Center gets approval here in Moreno Valley.

I am 43 years old and have lived in Moreno Valley for 13 years. We our Moreno Valley will benefit in one way or another from the project. I believe that World Logistics Center will help generate more millions in fees, giving the city more flexibility to fix the problems in the community.

Councilmembers think in how many people have long commutes in this city, the people of Moreno Valley need the new jobs that the World Logistics Center will create, and please you can no longer allow our residents to spend their hard earned money in order to benefit a city that is not their own.

Sincerely,

Sorayma Medina.

CITY COUNCIL
MORENO VALLEY
RECEIVED
15 JUL -9 PM 2:14

Dear Council Members,

My name is Marisa González and I am writing to you regarding my support for The World Logistic Center project. I support this project because I know our city needs jobs and economic opportunity. That is one of the most important things that we can do for our city.

I see residents of our community driving to other communities for work which provides no benefits for their families nor the environment. It also lowers the quality time that parents spend with their children.

The World Logistic Center is a solution and opportunity to resolving some of these economic issues that burden our community!

I have lived in Moreno Valley since February 1, 2008. I moved from Los Angeles with my 5 children. I have been a full time mom and self-employed in order to be able to have

a hands on position in raising my children. I am in promotions and marketing, so I can work from home and have a flexible schedule for my children.

By bringing economic growth to our city, we would gain the benefits of tax revenue which our city is starving for and so much more. Including diversity.

So please hear the voices of the residents of Moreno Valley that are concerned and active in the community, to bring change, growth, and economic development. We pray that the World Logistic Center project will be approved and that the city, city council, and administrators will hear our voices and approve this plan and project.

I thank you for your time and attention regarding this matter.

Sincerely,
Marisa Gonzáles

Dear councilmembers;

I'm writing to you express my support for the World Logistics Center project. I support this project because I believe that bringing jobs and economic opportunity to our city is the most important thing we can do for our community. The project also directly responds to the city's adopted Economic Development Action Plan, which also adamantly support.

For the past 13 yrs my husband driving to Orange County, San Bernardino County. He wasted hours upon hours to get to work (hours belong to my family that never get back). It was not beneficial to me or my family to spend my time stuck in traffic at a great cost to my health and family.

The World Logistics Center would be a huge step

to better our community. We have missed this opportunity in Moreno Valley; please don't let this opportunity get away from us.

Sincerely,

Lorena Medina and
Marcos Zepeda.

Dear D. Ladonna Jempson,

I had lived in Moreno Valley for 6 years. I have 2 kids one of them is 13 the other one is 9. I'm the housewife. Yes I do active in the community and church. For 2 years I have commuted. It affect me because there is no close jobs. I think "The World Logistics Center project" is a great project because it's close from our house and also because there is not very much jobs for me to work. Also for the other people to get jobs. I thinck that the WLC project can bring jobs to people and bring money to the comunity. This can help pay for schools and extra things that we might need in the community.

Sincerly, Aurora Espinoza

I have lived in the City of Moreno Valley for 10 yrs.
I have two beautiful children ages 7 and 2 born and raised in moreno Valley.

I currently work for fresh & easy distribution as an administrative assistant.

I attend church in moreno Valley called Vida de las naciones. Before I started working for fresh & easy I had commuted for 1 year. It affed my life a lot I didnt have time to spend with my kids or family because I was always on the road.

I think the world logistic Center is a good thing for moreno Valley it will bring more jobs and less commuting.

I belive the tax revenue will help our city in many areas like our our public safety and education

Dear Councilmembers

I've lived in Moreno Valley since before it was a City. I always assumed jobs would come to Moreno Valley that really never happened. I am Retired now, My Commuting story is typical for most Moreno Valley residence. In the early years I could commute to Paramount in about an hours as the years went on the time increased to 2 hours plus one way. This was a horrible way to live.

Those families that have children in School frequently are left at home by themself to help with home work potential involved with gangs or even Drugs.

We need revenue to have a Sustainable Community to Support Public Safety Education and activities for children / Senior

I'm requesting that you Support the World Logistic Center.

The City is frequently looking to Create New Sources of Revenue (taxes and fees) the World Logistic Center will bring 5.7 Million to City funds and 2.5 Billion my Annual Benefit to Moreno Valley and the Region.

Sincerely
Robert Harris

I have been living in Moreno Valley for 15 years, I have 1 child, he is 4 years old. I work as landscaping, in different cities like Yucaipa, Beaumont, San Jacinto. I hardly work in the City of Moreno Valley because there are hardly any jobs here. I play soccer here in the city of Moreno Valley.

I have been working outside of Moreno Valley for 15 years. I waste alot of time driving, there's traffic. I spend alot of money in gas, the gas doesnt last since the gas goes up alot. I think World Logistics Center is very good for all those that live in Moreno Valley. It will benefit us in saving money, time, and have time with the family. It will benefit in having more money in schools and colleges.

For the council members,

I am writing this letter to express my support the world logistics center project company.

These are the best projects that a company can bring and even better to this city of Moreno Valley.

I have lived here for the last 9 years in this city and I think its the best to have more economic growth and opportunity. With this alot of benefits will follow such as again financial gain (Tax revenue).

The cities with job opportunities have less crime!

Sincerely,

Dear.- City Council members of Moreno Valley City.

My name is Ana L. Pozo Villaverde I'm a Moreno Valley resident I've been in this city for about six years now with my husband and two kids, my husband work in Ontario Ca and the traveling time from one city to an other is about one hours because of traffic so he gets back home late some times Our kids are already all sleep when he gets home and he does'nt get to spend enough time with them, he can't even be present during our kids sport practice.
When we heard of world logistic Projects we though it would help us with our issues and many other families that are going throught the same thing. We think this projects will help our city to offer many local jobs so people stop going to works to other cities.
We want to see our city to improve,

CITY COUNCIL

Myself and my family have lived in Moreno Valley for (26) twenty six years. I and my husband had 4 children that attended all levels of school Elementary to College.

My husband is retired from (Federal Govt) and Myself from (Sprint) I returned to the work force as a caregiver for disabled adults

We are both active in our church (MCA) our church does alot for the school as being Guards at Valley View High School. When our children were younger we were very involved in sport activities

My husband commuted to Pomona for 26 years and Myself I commuted to Rickland for 5 year, Temecula for 10 yr

This travel time took a ~~tol~~ on my husband that he retired earlier than we ~~planed~~ planned.

Now that our children and our friends children I think having local jobs would benefit our Community and our family as they start to raise a family will have more time to spend with their family than in the 91 or 60 freeway

Estimados consejales:

Soy residente de Moreno Valley por 9 años, soy madre de dos hijos y soy ama de casa. Me gustaria que el proyecto de ~~Wed~~ Centro de Logistica Mundial se aprobara porque yo quiero calidad de vida junto con su familia. Para tener empleos en esta ciudad. Mi esposo tiene que manejar a su trabajo en Santa Ana, CA, Todas las mañanas sale 2 horas antes y maneja 3 horas y media de regreso por el tráfico. Yo pasó la mayor parte del tiempo sola sin apoyo de mi esposo porque el trabaja 8 ~~horas~~ 9 horas diarias mas 5 1/2 de viaje en el tráfico lo cuál no me permite trabajar y atender nuestros hijos.

Estimados consejalos ustedes tienen un deber con los residentes de M. valley y votar Sí! al Centro Mundial de logística.

Dear Council Member: George E. Price

I have been a resident of Moreno Valley for the past 11 years, when we moved to Moreno Valley I had a 4 hour daily commute, waking up in the morning at 3:00 in order to be able to be at work on time I worked in Norwalk, CA It was very hard for me to drive 4 hours a day sometimes I will get home at 7 - 7:30 pm and I was very tired to even spend any time with my family, get home eat go to bed and same Routine over and over. This is no way of living a healthy life, my body was tired and not mention my car, the wear and tear of it. And very limited time spent with my family. The only time I was able to spend time with my family was during vacation.
I would loves this World Logistic Center be approved specially for my kids and grandkids, I have 23 grandkids and I don't want my family to have to go thru what I went thru.
the People of Moreno Valley needs new jobs that the World Logistic Center will create.
Spending hours every day trying to get to work every day is not way to spend a life.

Dear councilmembers;

I'm writing to you express my support for the World Logistics Center project. I support this project because I believe that bringing jobs and economic opportunity to our city.
My husband was a delivery driving for 10 year, he used to drive to Fontana, he was working from Monday trought Saturday. my kids always complaining because her father was living at 5am and come home 8 or 9 pm when my kids were already sleepy. What kind of live is this ??
We need locals job to be able to keep the family together, and I believe that the World Logistic Center Project is the answer to our prayers.
We want our city to grow for the benefict of our future generations, we wants our better world for our families.
Please listen to ours petitions, and approved this project, I wonder why is taking so long for you Council Member to approve this wonderful project
Is really wonderful and important for the economy our city and the promes our the city and is good for the benefict of every single citizen of Moreno Valley.

Hoping that you considered my petition, I am already thankful that this project already that.

Dear city council,

My name is Enrique Puente, and I been living in Moreno Valley for 10 years and I don't have no kids. I'am a student in Moreno Valley college and after college my goal is to dedicate to my sport. I have commute out of the city for couple of months and in those months, I had to waist my money to pay gas, food and other things that I will need in the way when I'm coming back home. It affect my life in so many ways because every second counts because our time is valuable and only if they bring more jobs to the city of moreno Valley to bring a better future. For example, the World logistic is a good future for the young kids or even adults because if theirs jobs here in this city, people won't have to travel far and also leave their family. it will benefit all of us and also the taxes to improve the city and to make this city grow as a family and together with the hard work and dedicating ourself, the city will become wonderful

Dear council Member,

I have been living in Moreno Valley for the past 8 years, my family is my wife and my 3 KIDS. My occupation is Dental Technician. I have been working in Santa Ana for the past 8 years, I commute every day Monday thru Friday and I commute 100 miles every day Round trip, I am very stressed out. But with the World Logistics Center project there will be benefit thousands of people to stay in our city and not have to commute to other cities.
the commute has affected my personal life because I no longer have time to spend with my family I am not a part of my children's daily activities.
this project will not only bring ~~pro~~ economic progress to our cities but it will keep the families united.
The WLC project will bring money to our city, better education, more neighborhood security, and definately more jobs and less traffic on the 60 Fwy and 91 Fwy
thank you very much to take immediate action to make this project happen. →

Dr. Yxstian Gutierrez (District 4)
City Hall / Clerk's office
14177 Frederick St.
Moreno Valley, Ca 92553

Dear Dr. Yxstian Gutierrez,

My name is Milly Baby, and I have lived here in Moreno Valley for 16 years. I have grown up and seen how much our city needs a change, and how much Moreno Valley is lacking behind other cities.

I am writing in support of the World Logistics Center and to ask for your support as well. The World Logistics Center guarantees jobs within our community and creates happy families that are thriving from living wages. By creating local jobs there should be a decrease in traffic on the freeways, an increase in the amount of spending quality family time (due to no commuting). The residents quality of life will also increase due to the ability to support themselves and their families. There are numerous benefits that will make Moreno Valley thrive as a city and community.

As an active member within the community and as a resident that must commute to work, I believe

the World Logistics Center will be very beneficial. I lose many hours of my day that I could have spent with my family on the freeway. I would love to be home quicker after work, so that I can properly take care of my household.

Again, Please support the building of the World Logistics Center and make Moreno Valley thrive once again. Approve this project for a better community and happier residents. This is our time to shine.

Sincerely,
Milly Baile,

Moreno Valley, CA 92553

Dear: Dr. Gutierrez

I have live in Moreno Valley for 12 years Now I Seen this City grow From when we First Come where it was very dark with No lights and more Home being built and No Schools.

Now we have a Chance to have the world logistics Center the our Children + our Children Children a place to work Stay without have to move away From our great City. I have Never ask our City for anything or any help but now i am begging you to please listen and bring the world logistics Center to Moreno Valley we Need more and better Jobs.

I do not want to keep
taking my money to other
citys; the crime rate, our
city will go down if we give
our kids a place to work.
Thank you.

Sincerely.....

Council, D. LaDonna Jempson
City Hall / Clerk's Office
14177 Frederick St.
Moreno Valley, Ca. 92553

Dear Ms Jempson,
Moreno Valley has been my home for nearly two years. I am the mother of three children. They attended community and two graduated from Moreno Valley High School.
I am a retired Registered nurse & served in Riverside County hospital for twenty five years as an employee and eight years as a volunteer.
I am highly involved in the community with girl scouts, my church, as a teacher and in my support the sports program when my children were involved.
My family enjoyed living here and we had many friends.
My commute to my job was just under the [illegible] years when [illegible] became [illegible].
My concern now is [illegible] my son and my three children to be able to live here in the city. I truly support the [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

families who spend hours traveling to jobs out of the City. I know valuable time needs to be spent with our children and community activities they are a part of.

I ask Commission & Council with you to approve this project. I really love this city and want to see improvements in many areas. It's not fair that we are not moving forward like other cities.

Praying that you make the people who elected the project.

Thank you.

Sincerely,

Eileen Nell Kelly

City Council George E. Price
City Hall Clerk Office
14177 Frederick Street
Moreno Valley CA 92553

Dear Mr. Councilman George E. Price,

I have lived for 11 years here in Moreno Valley. This City gave me peaceful life, together with my Church life. I love the rocky scenery and cleanliness of the City and the new houses and business around me.

I would like to ask you to please approve the project of Highland Logistic Center for our Community and the people who live here. It just make sense to me that someone cares enough to help build Moreno Valley. It will help to clean air here (less pollution) because we do not have to drive far away to get to our jobs if everything that I need are just a few miles around me.

From what I learned, this project will use less water, will be the future of young people, will help bring revenues to the City to support schools, public works and life of the families will be bearable. Less crime, children will stay in school because parents would be able to account for their children as to guide them to be a good citizens. There could be much, much more that I just think of them now.

(over)

I would appreciate it very much if this project can be a success for the good of all of us. May God have the support of I do. I have been praying for this day to materialize. May God Bless us all.

Sincerely,
Susan Lanzang

Moreno Valley, California 92553

Dear councilmembers;

My name is Nayeli Huitron, am currently going to school and I work as well. The reason for this letter is regarding there is no jobs here in Moreno Valley California. Why? Don't know the reason why when there should be more jobs here for the residents of Moreno Valley. For instance my father works in Corona which isn't that far compare to other people's situations. We don't spend a lot of time with him or see him as much because he works far. I lived in Moreno Valley for many years and I have heard about a better project than World Logistics Center Wouldn't it be outstanding of putting Moreno Valley out there on the map recognizing this amazing project that will benefit not only us Moreno Valley residents, but the city of Moreno Valley. This will bring many opportunities to many people that are unemployed and receiving money for unemployment, which benefits the state as well. Another great benefit will be for the generations that are to come think of the students who will be graduating from high school's who will be looking for jobs in there community. This project

is very amazing in many significant ways, to help our community to spread world wide and leave many outstanding results. Not only is man Iddo Benzeevi a man who truely cares about this community and see's future here in Moreno Valley California. This man will make a better place to live and work in and its a fact that he will make history and why not be part of it. Your not loosing nothing why not take a chance and give it a try like I said your not loosing anything. Hope this letter convices you council members and make you think of how many families will be thanful and their life's will change thank's to you. It can all start by you councilmembers to make history by a simple "Yes". Thank you for your time.

Sincerely,

Nayeli Huitron

Moreno, Valley, California 92553

Dear Council, Member,

I have been Living in Moreno valley for 23 years in The City and Since i been here I notice The Lack of Employment, and not see any oportunitys around

So I strongly support Jobs for The City, and when I heard about World Logistic center I thought It was The best for The future and will help all of us, I used to commute for 23 years and Lost my family because of not been around, please aproved This project we need this So bad, it is not fair not too approved LULC, I know that for Some people is not important because They already have There future Secured but for The majority, still commuting, and not only That, world logistic will bring good Revenue and Taxes our economy is Suffering for not enough Jobs!

not enough effort to bring
more jobs to the city
comuting every day, should not be
the way to spend our lives, our
lives should be spent with our
family
The next generetion of moreno valley
needs stable future and more opportuni
that we currently dont have available
right now

when I came to moreno valley 23 years
ago
It wass same like now, houses —
and more houses — more houses —

and I see no good vission from
city council, not all but some

So when I saw world logisti. center
I saw the answer to somany —
people the future is here not
tomorrow, but now, I urge you
to take action now thank you

And approved, world Logistic Center

It is in your hands to make it happen, do not be afraid to do what is right for Moreno valley community

Thank you very much

Sincerly,

Eduardo Gómez

15 JUL -9 PM 2:17

city of Moreno valley City counial and Mayor. I had lived here for 10 years now in Moreno Valley. My occupation is studying for I can have a good education for later on I will have a good job I support this because my uncle he works all the way to Los Angels in a hotel next to the beach. My Uncle took us there and it was a long way there. I felt bad for my Uncle (Gerado) going all the way there and coming back tiered. He comes at 3:00am or when I go to school at 7:30 am. And he is the only one working right now because our family had some promblems and he is the one who's dealing with the bills, taking care of us, buying food, taking us to places, and ~~may~~ taking me to school. My brother (Emmanuel) tried looking for a job and he did for he can help my Uncle and he was helping him but later on he had to stay up late like he comes at 1:00am or 2:00am and he strated getting tired and tired so ~~the~~ he had to retire. Later ~~on~~ on my brandma got a job in Avon but sometimes she had to pay it and she didn't have that much money to pay so she had to retire too and then my mom ~~she got a job~~ dicaided to sell in the swampmart and we earned money but it wasn't enough we only got like $30 ~~or~~ on $40. But

and this helped us. Our family heard about
t and it helped them too and we
tarted telling our friends, family and everyone
and started ~~joining~~ joining and joining and
't helped everyone. My Uncle got happy because
f this company he didn't have to go ~~the~~ all
the way to Las Angels because this company
helped him a lot. And now he can buy me
stuff for school now. Because when he had
to work all the way to Las Angels he
still bought me stuff because he was proud
of me everyday i got awards for being good in
class, paying attetion, ~~and~~ behaving, and getting
good grades and getting it right. But I didn't
get that much stuff but later on he got
me a bunch of stuff. So all I want
to say I support this company a lot
because this helped my family. I also
want to tell you guys thankyou very
much for helping people I hope you
guys can still have this company still
and like forever. I hope later on in
the future it will still be there and
incase it I need help I now who
to come and finaling at the end
don't worry, okay all I want to say
thank you very much for helping

Sorry still want to ~~right~~ write.
All right thankyou very much and I
hope all the people the work in the compa
and I really really suport this compa
because it can help anyone like ~~if~~
a homless people can use this company
because it can help ~~yo~~ them ~~and~~ get
a job and start their lifes again
If ~~they~~ made mistakes in their lifes.
Also Moreno Valley can have a lot of jobs
and Moreno Valley will start growing
and growing. I hope later on in the
future Moreno Valley will be a great place
and have a lot a jobs and it w
be a happy place and people start
coming and coming. And I hope your company
will be a great and best company ever made
and done. I hope you guys will have a great
day and the best company ever. ~~They~~ Okay
maybe almost to the end. Alright my Uncle
sayed when he heared about this company he
was very happy and so later on he
called and he was very happy and he
told his friends in Los Angels and
they started calling and they were starting
calling and they got happy and they
told their families and so finally at the
[illegible] I want to say thank you

very much and I support you guys.

I have lived in Moreno Valley for 23 years with my 4 children and 12 grandchildren I worked for the Southern Cal Gas Co. for 34 years driving to LA, Pomona, Upland Montclair & finally San Bernardino. This caused some hardship for the whole family, making it hard to participate in sports, tutoring and extra curricular activities. I am active in the community the Senior Citizens Board, the Black Chamber of Commerce toastmasters, Mentoring Groups and Church now that I am retired.

The Logistic Center that I support will help by bringing jobs and revenue to the area & CITY to fund our law enforcement, fire dept, utilities and schools. If people can work in Moreno Valley they will support our local business and stores
P.S. Zero Pollution and very little traffic

impact or negative environmental impact
Please support the World Logistics Center

I'm Living in Moreno Valley. For 30year I see the necesity to improve the quality life. our economy has been Stagnatin of a result of too few good Jobs not enought effor to bring more to our city.
We need changes to the city, making a BETTER PLACE TO LIVE AND WORK

When we Consider how many people have long commutes in this city The people of moreno Valley need the new jobs that this center will creat

The logistic center will help Generate ~~new~~ more millions in ~~taxes~~ Giving the city more FLEXIBILITY TO FIX THE PROBLEMS in THE COMMUNITY!

spending hours every day trying to Get to work is no way to Spend life.

I Have two nice children; Son and a doughter they don't live in moreno valley with me becouse is not opportunities. JOB opportunities to ~~who~~ build new ~~opportunity~~ stable ~~in there~~ carreers.

Dear Councilmember thank you for the opportunity to express ourselves and let you know our many concerns again thank you for your time to read these words I hope you considered our peticions. in GOD give you the Discriment in making your Desicion.

Moreno Valley, Ca 92553

Dear Council Members

I'm writing in support of the City's adopted Economic Development Action Plan and the World Logistic Center project to enhance the city of Moreno Valley in terms of employment, livelihood and the ability to generate revenue for the City. I'm tired of driving outside of the city to make purchases and support other cities.

I have lived in Moreno Valley for 27 years. I have three Adult Children all of who are commuting to work out of the city. My husband and I commute to the Artega, Rosemedd area Monday thru Friday ourselves. I am a RN, Practicing as a Director of Nurses. I am active in the community through New life Baptist church formally Foothill Baptist Church. My husband is a deacon and has been for 27 years. We've commuted for

over 20 years, which impacts our life by limiting time with family and community activity opportunities.

I Believe the World Logistic Center project will afford jobs for the community citizens and enhance the city, via tax revenues and decease the number of neighbors commuting outside the city. This tax revenue should help put Moreno Valley on the map, enhance the city, help c the safety of the city and hopefully the school districts. And jobs for our children. They all graduate from College this year. It would be Awesome to get all of us off of the Freeways and support the city of Moreno Valley I urge you to vote for the World Logistic Center project as it would be a huge step towards improving our community and helping it's citizens.

Sincerely,

Alena Willingt

15 JUL -9 PM 2:16

I am writting you this letter after ~~the~~ hearing about The world Logistics Center from my family. I believe it would be a great project and investment to our city, friends, and family. I am a 16 yr old residence of Moreno Valley and have been since 2008. When I moved here there were almost no jobs but also very little population. Now there are still very little jobs but the population is increasing rapidly. Ive always wondered when would the City bring more jobs to moreno valley since having a mother who would have to drive to Los Angeles 3 or 4 3 times a week to work. When I heard about the The world Logistics Center, right away I wanted to become part of it due to its great reasoning. Growing up in a house hold of 6, 5 children and a single mother, it was hard having the one parent away half of the week. Till this day my siblings and I are wishing our mother can find a job in the city we live in, moreno Valley. Not only my family, but there are several of familys who have the same situation as myself. There has

been many of times where my siblings or I needed my mom when we were at school but due to her work location she could not make it or we had to wait 2 or more hours, sometimes until she got off work.

Overall The world Legistics Center would be an outstanding project. I cant imagine what would it do for my city positivly. Council Members, please hear our voices and make the world Legistic Center happen.

Sincerely,
Anaami Gonzalez

Dear Councilman Price,

I am writing to you to express my support for the World Logistics Center project. I support this project because I believe that bringing jobs & economic opportunity to our city is the most important we can do for our community. This project also directly responds to the city's adopted Econic Development Action Plan.

We have lived in Moreno Valley since 1985. As we have been watching the city grow, we have seen more & more people crawling on the freeways to job one to two hours away. This has made it hard for families to participate in community activities.

We have always thought there should be more businesses = job local to Moreno Valley.

To this point we need more jobs here and therefore, we the people, of Moreno Valley Do not want to miss the great ~~opportunit~~ opportunity which has been offered to us. The World Logistics Center is the way to go! Lets be a progressive city not bogged down with hot air junk from outsiders.

Please listen to us!

Most Sincerely

14177 Fredrick Street
Moreno Valley, CA 92553

Dear Councilmembers,

First off let me tell you that I am supporting the World Logistics Center project. I have lived in Moreno Valley my entire life. I have seen the growth and changes happening here since 1971!! I have also seen how the shut down of March has effected the community. I feel that this project would help to revive the city by bringing needed jobs back to our city. Too many people have to commute outside of our city and waste time and money. I used to commute to ~~Brea~~ every-day. With 3 little ones, at that time, it was very difficult and there was no family time, no community time, and all my money for day care was being paid out to another city! I feel that this project would bring needed jobs, needed monetary funds (taxes), and needed improvement to Moreno Valley. This would in turn provided more funds for our schools, police force, hospitals,

AND HOUSING MARKET.

JUST LIKE OUR COUNTRY NEEDS TO KEEP JOBS HERE IN THE USA AND NOT OUTSIDE SOURCES; I FEEL THAT MORENO VALLEY NEEDS TO DO THE SAME THING. KEEP THINGS LOCAL AND IMPROVE OUR CITY!!

PLEASE HELP TO BETTER OUR LIVES AND COMMUNITY OF MORENO VALLEY BY APPROVING THIS PROJECT!! THIS IS A PERFECT OPPRUNITY TO BETTER THE CITY AND PEOPLE OF MORENO VALLEY.

THANK YOU,

LYNDA DEAN

Moreno Valley, California 92553

Dear Councilman Jesse L. Molina

I have lived in Moreno Valley for 20 years. Our city is a wonderful place to live. However, it is easy to see that our city does not have jobs for its residents. For this reason, I urge you to approve the project of the World Logistic Center. I know that the industry of logistics offers great opportunities at different levels. I believe our city needs the opportunities of different level jobs that will allow our residents and family members a unique opportunity to work locally. Currently, my two brothers, have to work in Colton and Fontana because our city doesn't offer higher paying job opportunities.

I am sure that you know ~~and~~ and ~~that~~ are aware that Moreno Valley needs jobs now. Please, look around and see how many families are suffering and sacrificing because our leaders are not approving projects that bring local jobs. Mr. Molina, it is time for you to leave

aside personal interests and to look into your heart to bring out the best of you; helping Moreno Valley residents and families.

I look forward to attending the Public Hearing, but just in case that I'm not able to make it, you are still aware of what we need and I know that I have voiced out my opinion and need to you. I have no doubt that you will consider my letter. Please approve the World Logistic Project as soon as possible.

Respectfully,

Gema D. Franco

Dear Council Member George E. Price

I am writing to you to let you know my concern about our City of Moreno Valley we need the World Logistics Center Project to pass. Our City needs the jobs. I am a resident of Moreno Valley for 6 years and I enjoy living in Moreno Valley and want the best for the community and our families.

I support this project because my daughter lives here in the City and she has to drive to Pomona every single day with resting only one day from this long commute.

I urge you to please approve the proyect to have local jobs for my family. I have grand kids and I don't want them to put their lives in danger driving to work on the Road and Fwy.

We need to approve this project, please listen to my cry, I am a mother and grandmother very concern for the future

of my family.
We gave you our vote and support and now we are hoping that you will make the Right decision and approve the WLC project.

Thank You Very much.

Dear Council Members:

My name is Digna Diaz I have been Living in Moreno Valley for 12 years I have 2 small children and I have to commute to San Bernardino to work.
I risk my life every day on the Road because driving far is always dangerous. Is also bad for me to leave my kids in the care of baby sitters, the babysitter takes my kids to school and I spend a lot of more money for child care. this is definately not a way of living - I am stressed out because I can not take care of my children. I am urging the Council member to say Yes to this project immediately so that there will be a lot of opportunities for Moreno Valley families.
the World logistic Center will bring growth to our city and also a lot of prosperity and will generate

money for schools.
I am always thinking about what is best for our families and my children.
Please approve this project.

Digna Diaz

I lived in Moreno Valley city
for 22 yrs in the same house,
I drive to my job for the same
time to different location from here
to Wilmington, Long Beach, W. Los Angeles
Whittier, Montebello, Duarte, Chino
and Pomona / San Dimas, El Monte
at the present assignment I work
for the county of Los Angeles for 35 yrs
I am ready to retirial may be next
year, I miss many years not to be
here in my city only evenings and
weekends, and this is a beautiful city
and a project like the world
register center will help so much
to the next generation and this young
people won't have to spend so much
time in the road & driving for 5 to
6 hrs per day, the impact to the city
will be so big, bring jobs, more
revenue, to create community centers &
programs after school that will benefit
children, also programs that will be
impact residents with any need that
they are going thru in their lifes.
I support & the logistic center
will all my best, one letter is

Not enough for ~~my~~ me to tell all what we can do for this beautiful ~~miracle~~ Moreno Valley We have at this time of our life to do & help a project that will benefit so many and will change for better so ~~many~~ many lives in our community, please! Support this project La Donna, is so much that we have be able to offer with the same support that Baptist Center will contributed to serenity and opportunity for so many, I live in Moreno for one this years with a dream to create a garden for children in my community that's what God ask me to do. I did not understand at the beggining know I know, is a beautiful big garden that need to be create in this city for all, the point he ask me for the children and know these children are my grandchildren that will be benefit is allways next generation and that's what the word of God is teaching us to be good to other and the children & children, children will benefit

World Logistic Center is a big opportunity to put the seed of Good education that have for such other in a big way.

Please give us and the city to be an example of this great country wants to live in Miracle Moreno Valley

Thank you

Dear - Council Member Jorge Price

I IVONNE TORRES address this letter to ask and demand for you to approve the World Logistics Center Park in our city I support the project in it's totality, because I believe is good for our city economy, we need the tax revenue.

My husband commutes every day leaving home from 3:30 Am to 8:30 P.M. and do to this way of life he misses all my children activities at school he has no relationship with his own kids, and that is sad. You have the power to stop this way of life. Approve these project, so families can have a more united life style.

Sincerely

Dear Councilmen

I am writing seeking your full support of the logistic Center without reservation. The region that I live in District #1 I have live in this City for 25 years, I'm a grandmother of 7 wonderful grandchildrens. Now I'm not working - "occupation was nursing"

I'm very active in my Church and Sports and reading.

During the years that I commuted, it was very hard on me and my family a lot of time was lost "family time" - we couldn go to outings as a family.

The time were very limited, doing the commuting back and forth from [illegible]

I think that the Logistics Center Project is a wonderful thing for Moreno Valley, That we can benefit from this project we are in need of jobs

Sincerely
Consolacion Rubio

Dear Council Members,

I am writing to you to encourage your support for the World Logistics Center project.

I believe that this project would have a very positive impact on our community. Of course, the jobs it would bring would increase the quality of life here. Increased revenue base would add funding for city services such as Police, Fire, Parks Department, etc.

I am retired from Southern California Edison and have lived in the city for fourteen years. My son and his family also live here. We are very hopeful for a city that will provide jobs, safety, activities and advancement to the city.

Please support the Logistics Center.

Sincerely,

Maxine Phillips

Dear Council member,

The goal for this letter is to demand you, as decision makers of the City of Moreno Valley, to support the World Logistics Center totally. I want you to know that I support this project. I urge you to approve it for the benefits of our community. I've noticed that many people I know, including my parents have or are looking for jobs out of Moreno Valley. For that reason, my parents suffer the stress over getting there on [redacted] time but because of traffic in the City of Riverside, they are late to their jobs sometimes. I believe that our City needs these new jobs to progress. We need this project to happen in our community. The logistics industry is the main industry in our nation that provides great opportunities for jobs and income. I really hope this letter motivates you to help us do good for this community

Sincerly,

Moreno Valley, Ca. 92553

Dear Council members

I am writing to you today to express my strong support for the World Logistics Center project. I have lived in Moreno Valley for 14 years and have dreamed of a project of this size coming to our beautiful city. This project will help our youth of this community to have a dream of their own in knowing that they will have a bright future. Over the past few years I have noticed more and more young people pan-handling on our street corners. We need to give back to our community by approving this project so we can invest in Moreno Valley's future, not as a place for gangs to grow but as a place to raise our family in! With all the tax dollars that this project will raise it will help with hiring police officers to patrol our streets and keep everyone safe.

I think about this project on a regular basis and I weigh in the Pros & Cons of building a project of this magnitude. I also see the Moreno Valley sign on the side of the freeway and can't stop noticing that the population here in Moreno Valley is close to 200,000 people. Please give the people HOPE that someday they will not have to commute to some other city to work somewhere else and give them HOPE that there will someday be a great job close to home so that we will live & work here in Moreno Valley and spend more time with our families! Thank you very much and I hope that you also weigh in on the Pros & Cons of The World Logistics Center and see that there are more Pros than Cons.

Sincerely

Dear Council

I am writing to request your full Support for the World logistic Center. I may not be able to attend the public hearing on the world logistic Center. I urge you to approve the project for the benefit of all of Moreno Valley.

I Commuted Many hours every day and It was a horrible way to Live hopefully future generation will be able to Seek Employment locally in Moreno Valley. I have lived in Moreno Valley for 32 yrs always with the promise of Jobs that never Come.

logestics will provide Stable well paying Jobs generating revenue

for City Services, education
public Safety.

This project is a tremendous opportunity
for our City to thrive, lets not
let our City turn into a poor area
without jobs full of poverty and disparen
Such as Detroit, Baltimore and
San Bernadino.

Our City is full of latch key Children
Lacking the guidance of parents
how will these Children turn out
as adults, they deserve the best
Chance for a Successfull future
through parental ~~guid~~ guidence
and quality education.

Please give the World Logistics
Center your full backing

Dear council members;

I address this letter to you becouse I support the so called Project of the world logistic center business park - I believe that this mega park will bring something that are so much needed

JOBS - yes, Jobs to our city

I hear about contamination - the worst contamination is leaving all those parent that work outside of Moreno Valley their children behind unatended. with the risk of becoming futur criminals -

We need you to make the righ desicion as you swore when you were votete to protect the city of Moreno Valley and its people.

Thank you and God guide your mind for the best of our city.

x Emma Nunez

Honorable Council Members;

I want you to support the project of the world Logestic Center Business Park. I do Supported because is the future of my kids and my grandsons and the future of all the youth of Moreno Valley, so they don't have to go through what we have commuting every day long hours to go to work to other cities. hours and hours on the Fryways when to get back home you are so tire that you have no no more energy to help the kid with homework.

I Demand all of you to Support the world Logistic Center. Please, we need the money that this Mega Business park is gona generate.

Sincerely
Margarita R.

To: City Council Members

I am writing this letter in support of the Planning Commission Hearing on June 11, 2015. concerning the World Logistics Center. I have been living in Moreno Valley for the last 3yrs and a home owner. All of our children are grown + have families that live + own property in Moreno Valley. We feel that this program would help these families in the future not to have to commute out of the area in the future. I feel this project is a World Class environmentally friendly project, Minimal Water Usage. It will be designed with high standard of sustainability and water efficiency. This will result in an estimated 70% reduction in the projects total water usage compared to the City's current general plan of the project area. I am the Pastor of California Visiting Chaplains + Executive Director with our Administrative Offices in Moreno Valley CA bringing jobs into the community rather than going out.

I would hope + appreciate if this Commission would approve this project for the future residents of Moreno Valley and the present Home Owners + We Pray that Prayer for this approval. God Speed

Dear city council members, I'm writing this letter on regards to my support and concerns with the World Logistics Center. My Names Simran P Gonzalez I've been living in Moreno Valley sense 2008, I moved out here from Los Angeles with my family. I have two brothers and two sisters and was raised by a wonderful single mother.

Moving out of Los Angeles was one of the best choices my mother made for us. She wanted to take us out of all the bad and nagetive influences that the city had to offer. She was looking for a more peaceful envirerment to raise her five children ~~and~~ within the first few year's of living in Moreno Valley we noticed the good's and bad's that are in the city. We liked how it was so quiet and peaceful and best of all the city was clean. We didn't like how there wasn't any community structure and no job opportunity.

We noticed that almost everybody that lived in the city would get up every morning and drive out of Moreno Valley to go to work. We live in a bedroom community, people just lived here and worked outside of the city. The jobs that were avalible are most minimum wage paying job's. Nothing that you can sustain and raise a family on.

I first heard about The World logistics Center back in Feb. of 2004. My mom found a flyer inviting people to come out Iddo Benzevi home and listen to the plans for Moreno Valley. My family and I attended a few meeting before we fully understood what the World logistics Center was and the project that's in plan. Not only will it bring job's to the resident's of Moreno Valley it will help lower our city taxes. I'm in favor of this project and fully support it. I hope the city council sees that this is a great opportunity and proceeds with it.

Dear City Council.

I have lived in the City of Moreno Valley for 7 years. I am concerned for the lack of jobs in the city. My DAD has been commuting outside of the City of Moreno Valley. I feel like we need to improve the city by having more jobs. That will help out financially the local residents of Moreno Valley. It will benefit the city for as in increasing the city's income and stability. What I think about the World Logistics Center is that it's a very good project because the point is to create more jobs, it will generate good factors for what the city needs. As it having more money the schools will be funded, increasing more organized safety issues that it needs. to ensure that the kids are not only getting there education but that safety awareness, is very important.

Dear Councilmembers, of Moreno Valley CA.

I'm writing to you today in hopes that you will make sure World Logistic Center gets it approval for Moreno Valley. I support a project like and especially World Logistic Center here in our community. Moreno Valley has come a long way and this project is another step in the right direction.

With the economy the way its been and also the jobs, World Logistics Center can answer many or assist with these issues. Our community can and will benefit from the new jobs world Logistics Center will bring. These jobs will be local which in turn will also be a great economic factor. Not having to commute out of our local area means more money in pocket for those locals benefiting from working in any of these new jobs. Not to mention the time better spent with families than commuting or being stuck in traffic.

Once again, I am asking you that you also support World Logistics Center as I do.

I lived in M.V. since 1988. I have 4 children, all adults not living here anymore.
I am retired from Riverside Co. Sheriff Dept. I am active in our church here in M.V.
I never had to commute far, only to downtown Riverside, but when my daughter lived here, she commuted to Irvine everyday. She was tired everyday and by here being a single mom it was hard on her and the kids.
I think this project would be a good project by keeping the family close together with the jobs they would have available here and the revenue. That would up the revenue for our city and more business. Thank you

Mrs. Bethany J Clark

June 6, 2015

I lived in Moreno Valley for 15 years and I have one children. I work in a warehouse as Inventory clerk and my son he's in a soccer team. wich is hard for me to take him to soccer practices because of my job been so far and traffic so I really don't spent that much time with my son because of that. Also the soccer practices we have to leave early most of the times because there's no lights. I think that their should be more help on that for the kids that are in sports to keep them away from trouble, gangs and all of the bad things. we will have a better city. People will be able to spent more time with their family and our kids will have more opportunities also. This project will benefit everyone.

Sincerely,
Ana Rivera

TO COUNCILMAN JEFFREY GIBA

FROM GARY P. HAYES

WE HAVE LIVED IN MORENO VALLEY FOR 29 YEARS WE HAVE SIX CHILDREN THAT ARE ALL GROWN. THREE OF THEM LIVE IN THE LOCAL AREA AND THE OTHER THREE LIVE OUT OF STATE. WE HAVE NINE GRANDCHILDREN AND TWO GREAT GRANDCHILDREN

I AM RETIRED FROM THE UNITED STATES MARINE CORPS, ATLANTIC RICHFIELD OIL COMPANY AND PRUDENTIAL INSURANCE.

WE ARE ACTIVE IN ST PATRICK'S CATHOLIC CHURCH

I COMMUTED FOR A NUMBER OF YEARS TO BOTH ORANGE COUNTY AND TO LOS ANGELES. THE COMMUTE WASTED A LOT OF TIME WITH MY FAMILY AND WAS VERY TIRING.

THE WORLD LOGISTIC CENTER PROJECT IS A LONG OVER DUE AND NEEDED PROJECT FOR MORENO VALLEY AND THE SURROUNDING AREA. IF MORENO VALLEY IS GOING TO GROW AND BECOME MORE THAN A BEDROOM COMMUNITY THIS KIND OF PROJECT IS NEEDED.

THE CHILDREN AND GRANDCHILDREN OF THE RESIDENTS NEED JOBS, AND OPPORTUNITIES THAT THIS PROJECT WOULD PROVIDE. IT WOULD KEEP RESIDENTS FROM COMMUTING LONG DISTANCE FOR WORK

A Quien Corresponda:

Por medio de la presente me dirijo a mi consejal Jeffrey J. Giba para hacerle saber la gran importancia que tiene el proyecto de World Logistic Center.

Necesitamos un proyecto como este, que de a los habitantes una mejor vida, mejores oportunidades, que podamos realmente sentir que Moreno Valley es nuestra casa.

Necesitamos mantener nuestros familias unidas, dar calidad de tiempo que nuestros hijos tengan la oportunidad de crecer con bases especificas que los lleven al EXITO, que nos motiven a prepararnos, a tener metas y objetivos que sean reales.

El Proyecto es lo que toda ciudad desea, Seguridad Economica, Integracion familiar, Exito Laboral, Exito Personal y Orgullo de que gente como usted esta a favor de su COMUNIDAD.

Mr George E Price,

My name is Claudia Elias I have been living in Moreno Valley a little bit over a year. I moved here from busy San Gabriel Valley to be closer to my family. I am married and I have a 25 year old and a 19 year old daughter. My husband and I both work for the County of Riverside. I am a nurse and commuted over 50 miles each way for the first 6 months that we were here. I loved my job at City of Hope, but the commute was a killer. It took away time from my family and affected the rest of my day after sitting in traffic for hours. I think the world logistics center will bring opportunity, prosperity, and growth to Moreno Valley. I think this city has the potential to be a great place to live, work, and play. But without the support of your office for this project we will be losing out on all those things.

He vivido en Moreno Valley por 17 años
Me iba a las 5:30 de la mañana a trabajar
y por dejar a mis hijos uno de ellos el
mayor se unió a las pandillas se
puede imaginar mi sufrimiento como madre
y que personalmente anduvo casa por
casa cuando se estaba postulando diciendo
que iba ayudar y mi deseo es que se
apruebe el proyecto para que mis otros hijo
puedan tener una oportunidad de trabajo.
Este proyecto si es aprobado habra muchos
trabajos para los nieto y demas familiares
y toda la comunidad.
El proyecto hara mas empleos, los padres
no tendran que manejar fuera y dejar
a sus hijos y traerá ingreso a la ciudad.
El proyecto ayudará porque traerá diseño
a nuestra ciudad, y tendremos mas seguridad
publica en las calles que es lo principal
mas seguridad.

April 30, 2015

Conrado Lansang
[redacted]
Moreno Valley CA, 92553

Dear Mr. Price,

I have lived in Moreno Valley for more than eleven years and raised 3 children. Now that I am already retired I can tell you exactly what had happened in my 34 years of employment in Los Angeles City.

Though I not active in community service, I helped poor people by doing their income tax return for free.

I had to start early in the morning to beat the traffic but then I can do anything in my way back home but again the traffic. I did not spent much time with my family.

The World Logistic ~~Ce~~ Center is doing its best to bring work here in Moreno Valley. For us, the residents have to go for higher education to qualify the the job that the Center is going to offer. Jobs that are to be created here will reduce traffic, less travel, more time spent with our family. It will bring more revenues to our City ~~and~~ which will be used for the benefit of our residents. I did not send my kids to college and spent thousands of dollars for their education just for them to get a minimum wage job.

I believe that people who oppose the creation of jobs here are those who dont even live here.

Please help Logistic accomplish its purpose and God Bless.

Sincerely yours
Conrado L. Lansang

Dear Councilwoman D. La Donna Jempson,

I have lived in Moreno Valley for 21 years, I moved here from South Central L.A. after the L.A. Riots, to start a new life.
My family and me Love this city of Moreno Valley, we just wish there would be more jobs here in this city.

I am writing in support of the World Logistic center, and to ask for your support as well.
The WLC will bring so much opportunity to our community for jobs and hope.

This project is enviromentaly sustainable and it will use less water than most projects.

So I respectfuly ask you to please help, please approve this project for our Community, we need to take advantage of our Location, this is our opportunity.
other cities are already taking advantage of projects like this.

To Counselor J.L. Molina,

My name is Ricardo Esparza I've been a resident of Moreno Valley Since 1995, I myself like many others came from Los Angeles to Moreno Valley to get away from the crime that plagues the city, in search of a quieter decent life, Since I've been here though I seen that Moreno Valley grew in population through the yrs. but there was no jobs created for the growing population and in turn that created more crime in the sense that people resorted to selling drugs, manufacturing it and I know this because I myself was involved in that, where I was sucked into it why? because there was no hope in this city, especially for a parolee like me who can't find a job in the city he lives in, with that being said I think this is an excellent opportun. for people that find themselves in the same situation like me. ~~that~~ It would give a sense belonging and contribute and do good for the city instead of the wrong. I myself am a changed man by the Grace of God ~~an~~, I belong to ~~a~~ ~~b~~ A Church in Moreno Valley. I want this city to prosper and create ~~many~~ many jobs and opportunities for the many that live here.

Thank You

Dear Councilmembers,

My name is Natalie Scuedlo*, I've been living here for 9 years. I support the World Logistic center Buisness Park project fully. For the past few years my mom was struggling to find a job here in Moreno Valley. Until luckily, she got an opportunity to work at the recently opened Skechers. However, there's three more of us that will need a job; my two younger sister and I. Prices are rising for everything. I'm soon going to be attendinding a four year university and I will be needing a part time job. But how am I suppose to afford going to college when i'm limited to jobs in moreno valley. Not only will this project support my future, but families in this city struggling financially. I highly recconend pulling through with this project. Thank you.

Sincerely
Natalie Scuedlo*

DEAR MR. GIBA

I HAVE LIVED IN MORENO VALLEY OVER 9 YEARS. I HAVE THE PRIVILEGE TO HAVE A BUSINESS AND A FAMILY THAT HAS DONE WELL IN MORENO VALLEY. HOWEVER, OVER THE LAST FEW YEARS I NOTICED A DECLINE IN OUR BUSINESS COMMUNITY.

I AM WRITING THIS LETTER IN SUPPORT OF THE WORLD LOGISTICS CENTER. I AM ASKING FOR YOUR HELP IN THIS PROJECT. I FEEL THAT THIS PROJECT WILL BE GOOD FOR OUR FUTURE IN MORENO VALLEY. I HAVE 4 CHILDREN WHO ARE BEGINNING THIER CAREERS AND COLLEGE STUDIES. THIS PROJECT WILL HELP MANY OTHER FAMILIES SUCH AS MINE TO PROSPER IN THIS COMMUNITY.

THE TRAVEL FOR MANY OF OUR CITIZENS IS VERY BURDENSOME. I HAVE EXPERIENCED PERSONALLY THE LOSS OF PRECIOUS QUALITY TIME DUE TO THE \/

UNDUE TRAFFIC GOING TO AND FROM WORK. WLC IS PROPOSING A PROJECT THA COULD GREATLY REDUCE THIS "PRECIOUS TIME

AS I UNDERSTAND IT, THIS PROJECT IS A LONG TERM PROJECT THAT CAN MULTIPLY THE "VISIBILITY" OF MORENO VALLEY THROUGHOUT THE STATE AND SURROUNDING COMMUNITES. THE URGENCY OF THE WLC IS NOW!! TODAY WE CAN MAKE A DIFFERENCE FOR OUR CITY AND OUR FAMILIES.

PLEASE HELP WITH THIS PROJECT YOUR SUPPORT WILL GREATLY BE APPRECIATED.

THANK YOU VERY MUCH

Querido Señor Molina
Le estoy escribiendo a usted el dia de hoy para pedirle que apoye este proyecto Del Centro Legistico Mundial
Mi nombre es Francisca Lopez y tengo 22 años Viviendo en Moreno Valley y me toco ir a trabajar a la ciudad de Rancho Cucamonga tenia que irme muy temprano 4:30 am para no agarrar trafico y por la tarde llegaba muy tarde a mi casa con mis hijos y esposo y hubo muchos problemas con mis hijos y ahora ellos estan mayores, pero cuido a mis nietos y estan en la escuela y quiero la mejor vida para ellos por eso le pido que apruebe este proyecto Del Centro Legistico Mundial.

Le agradesco su tiempo.

Gracias
Francisca Lopez

Señores consejales:

Mi nombre es Juan Belman y yo creo que el proyecto del World Logistic Center es una buena idea para nuestra región. Yo tengo cuatro hijos que tienen que salir a trabajar todos los días fuera de la ciudad. Otro hijo estudia y no se que va hacer cuando termine la escuela. Este proyecto nos beneficiaria a todos. Muchas gracias por su tiempo.

ATENTAMENTE.
JUAN BELMAN

Dear George E. Price,

I'm addressing to you as my council member that I, Harjit Dubb, support The World Logistics Center Business Park ~~sure~~ one-hundred percent. I demand that you support it as well because it will bring more jobs in our community, increase industries and businesses in our area, decrease crime-rate due to more job opportunities for the people, and increase our real-estate value that ~~ov~~ we, the moreno valley residents have ~~a~~ invested our hard-worked earnings in. It is your duty to support a project that will help the moreno valley community. Please don't let this opportunity get away from us!

Sincerely,
Harjit Dubb

Dear councilmembers;

I'm writing to you to express my support for the World Logistics Center project. I support this project because I believe that bringing jobs and economic opportunity to our city is the most important thing we can do for this community. The project also directly responds to the city's adopted Economic Development Action plan, which I also adamantly support.

For the past 10 years, I've been driving to Los Angeles. I've wasted hour upon hours just to get my work.

Sincerely,

Alfredo DE lara

Dear Council members:
Estoy escribiendo esta carta, Por el motivo, de que estoy completamente de acuerdo, en el proyecto World logistics Center. Aqui en esta ciudad de Moreno Valley porque con ese proyecto, esta ciudad va a tener mas dinero, y asi las escuelas van a tener mas dinero, y tambien vamos a tener mas policia y ya no tenemos que pasar tanto tiempo en el FWY manejando. Yo pienso que es un gran proyecto, y por eso lo apoyo.

Dear Councilmembers:

I HAVE OWNED PROPERTY in Moreno Valley since 1980. I HAVE RESIDED SINCE 1986. I AM A Retired Air Force Musician (15th Air Force Band) and a Big Rig Driver. I Ring the bell and play trombone during The Salvation Army Moreno Valley Corps Christmas Appeal.

I have visited the Skechers Logistics Center. As a former trucker the building is the epitomi of a state of the art edifice. Also, As a trucker perceived pollution problems of "clean air trucks" are non-existant.

The improvements to current bare land would increase property tax/business tax

Sibley to Council Member Page 2

Revenue for the city thus providing additional funds for services.

I indorse The World logistics Center and request your YES vote for this project.

Sincerely

Dennis B. Sibley

Dear Councilmembers,
I am addressing this letter to you because Moreno Valley needs more jobs for the citizens of the city. If you follow through with this investment, 20,000 more jobs will be open to the people of Moreno Valley. Also, during the construction of more buildings, it would give 6,000+ jobs. Thank you for reading my letter and I strongly support this investment.

Sincerely,
Nina Parillo

Dear Councilmember

I moved to "Rancho Belago" in 2004 (Brand new beautiful area being developed.) I came to open "It's A Grand Coffee House"

I saw the dream for this area and now the night mare. Many of my customers did not work in the area due to the commute and were spending their time and money where they worked. Business did not survive, people left the area. If this project for the W.I.C. is for the future of Moreno Valley there will be NO MORE VALLEY!! I have witness the results of a city that is dying and I see the signs of it here.

I have lived in Moreno Valley for 15 years. I have 3 Kids and at the moment I'm a housewife My family and I are active in school, sports, and music.

The world logistics project is a good idea because the kids of today need a better future and a stable job where they won't struggle. Our communities need help for example the schools. Our children are not getting the education they need. Our children also need help in having support in other activities such as sports and music. We can't live like this forever. Change needs to happen NOW! We can't wait forever for change to happen. The project will help not only our community but neighboring communities as well to show them how it can change ones life for the better

Dear councilmembers;
I'm a 15 year old female and I'm writing to you to express my support for the World Logistics Center project. I support this project because I feel and see the disadvantage of seeking for jobs in Moreno Valley. I have been living in Moreno Valley for 5 years. My dad has not had an opportunity for a new job, therefore he drives to L.A. almost every single day. We have lost alot of money for gas. My father is always tired and sometimes I feel he can get in a car accident. The project will also help the youth. My generation is the future and I want to serve and have opportunities to make my community better. I know that The World Logistics Center will help my community in making a better future for Moreno Valley and themselves.

Dear Counsil Members:

I have been a resident of this wonderful city for 15 years. I have seen the up's and the down's of Moreno Valley. With the Development of Skechers a couple years ago, made a somewhat positive impact for the residents. I believe that the new development of the World Logistics Center will benefit the residents even more than Skecher's did. Please approve this development now, so that we can start building Moreno Valley back up.

Again, I understand the pro's and con's of this project. But the pro's outway the Con's, which in the end is going to benefit the residents. Please start the approval process so that we can begin to build. The World Logistics Center will produce tax revenue that will make Moval more sufficient economically.

Dear council members.

I would like to encounter the world logistic center and show my support. Moreno valley does have hope to gain more opportunities for employement and should be strongly supported when a new form of employement will take place. This city has faced many economic problems and has a very high issue of unemployement. I am going to be turning 18 in a few months and the work field is becoming more and more competitive. It would be great for the community to open more jobs and opportunities for their residents.

Sincerely,

Emily V. Wence

City Council of Moreno Valley

c/o City Hall/Clerk's Office

14177 Frederick Street,

Moreno Valley, CA 92553

Dear members of our esteemed Council;

I am writing to you in support for the The World Logistics Center project. I fully support any and all projects that bring growth economically and socially to a community with minimal drawback. I believe in order to secure the future for a community and its children, we must be taking the right steps in the present. The World Logistics Center is one of those positive steps that I strongly suggest be taken. The estimated 5-6 million tax surplus annually that the Logistics Center will bring into the city will help to secure such a future for our children. Such a surplus will ensure that our city's structures, parks, and public departments are properly improved and maintained. Not to mention the estimated 20 million + that will go towards improving our schools statewide.

The World Logistics Center will bring an estimated 20 thousand jobs to Moreno Valley. Who can argue with providing a city with such opportunity? While some of my fellow neighbors have argued that the majority of these position/jobs will be entry level and not as fruitful as maybe they are marketed, I offer this rebuttal; When we live in a city and state that has an unemployment rate below 1%, then I will entertain those who argue we don't need more entry level/low wage jobs. Until then, intelligent minds will tell you that opportunity at any level, is exactly that, opportunity. If 5-10 thousand entry level jobs means that 5-10 thousand citizens are no longer exhausting their unemployment benefits and worrying about their next move, I say such is a victory.

I understand that the EIR results will be explained to us in a public forum and further outline the pros and cons of The World Logistics Center, however, my mind is already made. The World Logistics Center's benefits to the city of Moreno Valley while statistically estimated, will be unmeasurable. It's not about today but rather our tomorrow. Please make the right decision in approving the rezoning of land and approval of The World Logistics Center moving forward.

Sincerely,

Arthur Izzo

Dear City Council and Mayor Jesse Molina:

Greetings, I am Writing to you in support of the World Logistics Center Proposed By Highland Fairview. I have been a resident of Moreno Valley for 16 years and feel and a volunteer for the city for the betterment of our Community.
My Professione is a nurse and Surgical Tech.
During my time of Employment I Commuted daily and abandoned my family and the cost was overwhelming including and not limited to gas, food and car Repairs.
For this Reason I hope you approve this project so that many families do not continue the commuting nightmare.
Thank you very Much,

Wright

Dear Council Member George E Price

I am writing you today about my support of the Moreo Valley Logistics Project. I am very in favor of this project. I don't know if you've seen the pro's to this project, so if not there over 20,000 pro's to this project. When I seen this project. I think of all the kids that are beging there teen years, and How I have a chance to have a positive impact on there lives by giving them the opportunity to create a life in Moreo Valley. If you have any intention to do your job and rep the people you vowed to prepersent you will vote yes for this project. When you look at this project don't think of yourself but think of the next generation, and how it been nice for them to want to stay and have ~~the~~ means to raise a family here and not have to drive hours to work. Dont be a fool please, and listen for the forture.

Dear Councilmembers:

Hello I am in ~~to~~ complete support of the World Logistics center project. I am 28 and I have been searching and commuting to jobs out of the city. I am also a mother and commuting steps time I could spend with my child. This center will provide jobs within my city that will require less commuting, and results in more family time.

These jobs that will be provided will be ~~good~~ well paying and living wages jobs. These jobs will give the residents more financial stability and security. Please approve this project so our unemployment rate can decrease, and I can provide for my family.

Sincerely,
Tara ~~Pirto~~ Pirto
Moreno Valley ~~Resident~~

Dear Councilmembers;

I am writing to you to express my support of the World Logistics Center Project

I have lived in Moreno Valley since 1995 my children have grown up here and moved away, because of the like of job provided by their city. I support this project because I believe that bringing jobs and economic opportunity to our city is the most important thing we can do for our community.

My husband drives everyday to Anaheim for work because their was no opportunity for him to work in the city of Moreno Valley.

This project will bring a ton of jobs to the area for all sorts of people.

The World Logistics Center would be huge step to better our community.

I have been living in Moreno Valley for 13 years. I am in highschool in 11th grade and I was in the swim team and I'm going to join the water polo team. My dad for ten years has been going to Torrance because there are no jobs for Moreno Valley.

I am supporting the World Logistics Center project so there can be jobs here and this will help us young people in a future near and to help me and my family. If there is more jobs in Moreno Valley there will be more opportunities for everybody and there will be better ingressed taxes and this will reflect in the schools, having better programs. This is why I want this project because it will help our lives and families will be more unified. I hope that they will consider my letter and I support this fully.

Dear Councilmembers,

I, Anthony Villalobos, am a recent resident of Moreno Valley and have seen first hand how hard it can be to find employment. I am 22 years old from San Fernando Valley and I strongly believe and encourage that World Logistics Center would be a great assel to this community. My profession is carpentry and this would defenitly ensure me work without having to commute hours just to make a living. Even after the project is built this would help out many people with employment issues. I ask and hope that you would pass the permits needed for us residents to make a living and our home a better place.

Consejal Distrito 4

Por medio de la Presente Me dirijo hacia ud. Dr. Yxtian Gutierrez para pedir su apoyo a este proyecto de Warehouse Logistics que va a producir muchos trabajos en la Ciudad de Moreno Valley, Ca, y generar mas empleos para personas que desean estar mas tiempo con sus familias ya que la mayoria de los trabajos se encuentran fuera de la Ciudad y en Orange County que por lo cual seria de mucha conveniencia para muchos Residentes de Moreno Valley tener un empleo mas cercano a sus casas y asi poder tambien gastar menos gasolina y economizar en tiempo y dinero.

Toda la comunidad de Moreno Valley se veria beneficiada con este gran proyecto, ya que beneficia enormemente e incrementaria la Economia de esta Ciudad que tiene mucho prospecto y tenemos fé de que se aprueba este proyecto y que muy pronto se llegue a realizar con su ayuda.

Hace 4 años Recien que nos mudamos que mi esposo perdio su trabajo y el tiene que mantener grandes distancias y se la pasa viajando por varios meses y casi no nos queda para comprar la comida.

Dear councilmembers.

mi nombre es beatriz Aguirre
tengo 11 Años viviendo en moreno Valley
y mi esposo trabaja en ~~Anahe~~ Anaheim Ca.
y para poder llegar a su trabajo se
tarda 4 oras en manejar y nos benos
muy poco casi no esta con mis hijos
somos padres de 3 hijos y mi esposo
no tiene tiempo para mis hijos
y me gustaria que ubiera trabajos aqui
en moreno Valley para poder trabajar yo
y poder ayudar a mi esposo con los
biles de la casa y este proyecto
estaria bien para mi familia y para
muchas mas. de antemano les agradesco
mucho al Señor Iddo Benzeevvi por su
proposito de ayudar a tantas familias

Moreno Valley, Ca 92553

Dear Councilman Giba

I have lived in Moreno Valley for the past 32 years. I love Moreno Valley I commuted to Paramount for approx 18 years and as the years went by the commute became longer and longer making it all but impossible to arrive at work on time.

I am asking you to support the World logistic Center project. My support is not so much for myself but for future generations of Moreno Valley Citizens. to be able to work live and play in a strong well balanced community.

Jobs are so important to the success of Moreno Valley so we can end up a slum city, full of empty homes and urban decay. This could be the tipping point for the City

Please help this project to completion for the benefit of all. Don't allow a small group of retired persons prevent progress in our city.

I do trust that you will make the right decision for Moreno Valley. I hope that this will be one of many projects coming to Moreno Valley.

Sincerely
Robert Harris

Dear Counsil members:

As an ex-Resident of Moreno Valley, that was forced to leave for work, I am thrilled about the World Logistics Program. This W.L.C will provide over 20,000 jobs to residents and provide living wages. Moreno Valley is desperate for jobs and tax revenue. This center will benefit us all economically.

Once I am able to qualify for a position, I cannot wait to move back to my hometown. I have a family that I take care of, and I am praying that I will be able to continue to support them once the center is approved. Please approve the World Logistics Center. Moreno Valley and it's residents need this project done NOW!

I have watched the city grow by leaps and bounds with rooftops but never NO Jobs. were created by any prior council.

I am writing in support of the world logistics center and I ask that you too support the WLC. The WLC will bring the much needed Jobs and Revenue to the city.

I hear from neighbors and friends that commute to work every day. they are missing out on life and their children are suffering. Due to lack of Parenting. the children go unattended due to NO Parents at home and end up getting in trouble.

the Rooftop to Job Ratio is unacceptable. Moreno Valley is number 1 at unemployment. that is nothing to Be Proud of.

Please I ask that you help the community by approving the WLC.

The time has come to move the city forward with this great opportunity

I have lived in Moreno Valley since 2002. I have four children whom all go to Val Verde Unified School District. I am a homemaker as of last year. I have all my children in soccer so they can learn something productive, ie. teamwork and be active.

I don't commute anymore but my husband has to commute 30-40 miles each way to Fontana. He has to continue working the night shift as he does not have seniority to work the morning shift. He can't afford to get another job because there are no well paying jobs in Moreno Valley. He misses the school events, the kids practice and really family time in the evening because he has to work. If the World Logistics Center project will bring jobs and better employment opportunities without impacting the environment or the drought situation then I'm all for it. We need better paying jobs in Moreno Valley. Hopefully parents will be able to spend more time with their family. If it helps our schools, that would be excellent. We need more money for our schools so the kids have access to the best technology and have productive field trips, more teachers for lower class sizes. Overall if it helps the city of Moreno Valley then I support The World Logistics Center project.

Sincerely,

Marla Guillen

Dear Councilmember George E Price;

I have lived in Moreno Valley for 18 years. My children grew up in Moreno Valley, and now they are in their early 20's. I am concerned about the future for my kids. Our city is number 2 for worst jobs. They have some college experience, but not enough to land a stable job to continue school.

The World Logistic center Project will greatly impact and benefit our city in a postive way. We need change in order to grow as a community. Our city is filling up with people therefore we need the jobs to match the growing population.

Sincerly,

Rhonda Turkowski

Dear Counciman

I am writing seeking your full support of the logistic Center without resvation. The region that I Live in District #3 I have live in this City for 25 year's, I'm a Mother of 6 Children's and GrandMother of 7 wonderful grandchildren's.

Now I'm Not Working - "occupation was Nursing"

I'm very active in my Church and Sport's and reading. Doing the year's that I Commuted, it was very hard on me and the Family. A lot time was lost, "family time". We Couldn go to Church together or outing's as a Family. The time were very limited, doing the Commuting back and forth from La. Ca.

I think that the Logistic Center Project is a wonderful thing for Moreno Valley, that we can benefit from this Project.

We ARE in Need of job's

Moreno Valley, CA 92553

Dear, Dr Yustian Gutierrez

I'm writing to express my support for the World Logistics Center Project. I ~~and~~ believe and support this project will provide more jobs for our community. The most important reason is the improvement of families lives like mine, so they can live and support their own lives.

I am a disabled mother of two young adult children. I have been a resident of Moreno Valley for a little over 2 years. I moved here due to my immediate family (brother) who has been a resident in Moreno Valley for 20+ years. Unfortunately, both of my children had to move far away so they can support themselves as well as their families. My brother has been commuting from Hawthorne to work 20+ years. He now suffers a condition ~~and~~ called stints in his heart. I believe his stressful driving the long distance took a toll of his body due to traveling.

The WLCP would be such a tremendous step to better our community and the time in raising families like mine.

I believe it would give us hope to better our lives as well as the next generation.

Sincerely

Wenda Claus

Dear Councilmembers:

I'm writing to you to take in consideration to approve the World Logistic Center.
I have been Living in Moreno Valley for the last 16 years, I have 4 children and I have 5 grandchildren. I have been commuting since 1999 and when I saw the presentation of the World Logistic Center I thought it was a really good opportunity for jobs and revenue for the city and a lot more benefit for Moreno Valley that will not only be a benefit for me but for my future generations.
I am a home owner and this project will benefit my taxes and also the crime will decrease in my neighborhood with more job opportunities.
Due to driving to work at night I have developed Glaucoma and it is very dificult for me to commute I can barely see and I am putting my life in danger on the road.
Please hear the cry of our community, You have a moral obligation to do what is right Approve the World Logistic Center
Sincerely.

Dear councilmembers:

My name is Abigail Huitron. I am currently going to highschool. I have been living here for about four-teen years. The purpose of this letter is help you make the decision in approving the World Logistics Center. This project is a wonderful idea because it will bring many opportunities to all kinds of families. There is many Moreno valley residents that drive so far to their jobs and hardly spend time with their families. If this project does develop it will benefit many people and also reunite families. Another benefit is that it will make the city of Moreno valley Stand out. This project will save many lives like the unemployed and the homeless. During my years living here I have seen the city improved, but not enough. In conclusion, the councilmembers should start taking action and aprove the World Logistics Center!

Sincerely,

Abigail Hurtron

July 2, 2015

Dear Council Members;

First of all I want to say I am in favor of the World Logistics Center.

I have been a resident of Moreno Valley before it was even named Moreno Valley! I moved here in the 80's and bought a home. Got married and moved to the East end of Moreno Valley (**District 3**) where we now live right off of Redlands Blvd. We are both retired, we do not need the jobs and we have no children living at home, so schools are not a concern.

What is of concern is if you do not approve the WLC, some developer may end up putting houses or apartments in that area. You are worried about the air quality of trucks, trucks that have emission guidelines. What about all the cars and smog that people in houses and apartments would cause? We moved into our area because it was "rural" (zoned R2). The seven acres behind us was converted to a different zoning I assume, because 20 houses were built in that 7 acres. Drive by those houses on any given day and count the number of cars parked in the driveways of those 2 and 3 car garages. Why are they in the driveways instead of the garages? Perhaps multiple families living there? Do the math. Twenty houses with no less than 2 cars each puts a lot more cars on the road.

The Wal-Mart shopping center on Moreno Beach Drive is always busy with consumers. Many of them from the West end of Moreno Valley. Do their cars all meet the emission standards? I think not.

I feel that Mr. Benzeevi has addressed all the concerns regarding the WLC. Moreno Valley needs to do more for the East end of the city than just changing the name of an area. Rancho Belago is still Moreno Valley. Keep Moreno Valley money **IN** Moreno Valley!

Please vote in favor of The World Logistics Center. Vote **YES**.

Sincerely,

Cherryl L. Diefenbach

July 2, 2015

Dear Council Members;

First of all I want to say I am in favor of the World Logistics Center.

I am 69 years old and have lived in Moreno Valley (this time) since before we were Moreno Valley. I live just off of Redlands Blvd and enjoy the relative peace offered on the east edge of the city. Contrary to some beliefs put out by a couple of council members. I don't see RETIRED individuals rising up in multitudes to oppose the WLC. My wife is also retired and in complete accord with the completion of this project.

As far as the nightmare scenario of truck traffic with the accompanied increased health risks; I remember the nightmare scenarios promised when Sketchers was up for approval none of which has come to fruition. Since the completion of the Sketchers project I have seen exactly one Sketchers truck on the roadway – hopefully no one contracted a deadly disease as a result of this ONE truck!!!

My wife and I are retired with enough financial security that we do not need to compete with other of our citizens for jobs but we fully commiserate with the local work force that has to commute on a daily basis because there are no jobs locally for them. We have an opportunity here to bring home thousands of our local workers if only we could provide this opportunity for them.

It has been voiced by more than one of you that Moreno Valley is over industrialized and why would we want to commit 10% (I highly question this percentage) of our city to more ugly industrialized warehousing. Please don't bring forth your own prejudices and then try to force your beliefs on our citizenry. If you think that 20,000 or so warehouse jobs would just be beneath and degrading to our workers, perhaps you should realize that not everyone has nor does everyone aspire to the 6 figure salaries that you folks knock down – for your edification, there are 6 figure jobs available in warehousing and not all of our prospective workers would consider these jobs demeaning or beneath themselves!

We know that this project will be built if not here then somewhere else. Let us build it and gain the massive tax base that this would create for our city along with the many improvements that we would then be able to afford without trying to raise taxes on our citizens.

Come on people, put aside your petty prejudices and private agendas (I realize not all of you have these – if the shoe fits) and do what in fact is good for our city and inhabitants. I'm not entirely sure but I do believe that is why you were elected to your individual

positions on the city council. We have elections for a reason, and I am willing to bet that next election those members perceived to have not fulfilled their jobs in the eyes of the people will no longer have their prospective jobs. Incidentally, our citizens are not the dolts and ignorant sheep (as you may perceive them to be) that can be lead around by their noses to do whatever you may wish for them to do and to vote the way you may wish them to vote! If any of you have this mentality it would behoove you to reconsider or you may face very rude awakenings in your prospective futures!!

Come on, let's all do our jobs without trying to impose our own hidden agendas or prejudices (again, if the shoe fits!), do the jobs you were elected to do and make our city more profitable and self-sustaining!!!!

Please vote in favor of The World Logistics Center. Vote **YES**.

Sincerely,

Ken W. Diefenbach

Dear Counsil Members:

First I would like to start off by saying, Moreno Valley really needs more employment. We are one of the top cities with an high unemployment rate. Once approved, the World Logistics Center will provide ~~e~~ jobs and help build up revenue for the city.

Please let them build there Logistics Center now so we can thrive again. Many of the residents want it, and very few who are against. Although they do not have legitimate reasons to be against. This project deserves approval now.

Sincerely, Eric runs

Dear Council members,

My name is Susana Castillo, and I'm writing to you to ask you if you can please support this project "World Logistic Center". I have lived in Moreno Valley for many years and think it would be a big mistake to not support this project. It will bring many jobs and help families stay here and not have to move cause there are no jobs. The entire community will benefit one way or another from this project. I would hate to have to uproot my family to another city. We love living here and want to stay.

Sincerely. Susana castilla

To the City Council of Moreno Valley
The reason for writing this letter to you today is to ask that you work to make sure the World Logistics Center gets the approval here in Moreno Valley. Please back this project. We enjoy living here in Moreno Valley, and want the best for the community, and everyone concerned that is why we want you to support it. I want to believe that you have this area's best interests in mind so I ask for your support of this logistics project. The World Logistics Center provides Moreno Valley with the opportunity to make huge and very needed changes to the city, making it a better place to live and work. The entire community will benefit in one way or another from the project. My name is Roger L. Hall and I will be sixty years old in August, and have lived in Moreno Valley for five years in October. I know that Moreno Valley needs a boost. To spark that boost we need business, and we need jobs. This project will bring a ton of jobs to the area for all sorts of people. We have the land available, and our community is more than willing to work. We can no longer allow our residents a decreased quality of life because of commuting or unemployment. We can no longer allow our residents to

benefit a city that is not their own. Our economy has been stagnating as a result of too few jobs and not enough effort to bring more to our city. If we keep building houses without creating more jobs in this city then we will be compounding existing problems. This logistics center will help generate more millions in fees, giving the city more flexibility to fix the problems in the community. When you consider how many people have long commutes in this city, the people of Moreno Valley need the new jobs that the World Logistics Center will create. Spending hours every day trying to get to work is no way to spend a persons life. It makes sense for jobs to come to our city. The wear and tear on a vehicle and the gas expense is tremendous. The next generation of Moreno Valley residents needs stable, career opportunities in town, after they finish their education.

Sincerly

Roger L Hall

This note is to convey my concerns about the WLC. I am "one of the few" that one of the planning commissioner refer to in her statement in the last hearing. I will suffer irreparable damage (health and property value) if you vote yes on this plan. Secondly, if this plan is to go through, will will actually benefit? So, I'm asking you to vote no on this plan. If you refuse to vote no, I will withhold my vote from you in the next election.

Hello George, our names are Richard and Kathleen Martinez, we are sending this email to show our support for the WLC Project. I am one, who at one time, had to drive 66 miles one way to get to work. This really had a toll on my family life. We live on the eastside of town where the warehouses will be built and support them. I believe the people who are against it are just being selfish. They are not considering all the people in mo val who need jobs. They are not considering what benefits the warehouses will bring to all the city, not just the east end. So please vote in favor of the WLC, Thank You and have a good day.

Subject: World Logistics Center

Dear Mayor Molina,

We have been watching with great interest as the plans for the World Logistics Center have been developing over the last several years. I want to commend the City of Moreno Valley and Highland Fairview for their visionary leadership in bringing forth this extraordinary project.

The project's innovative design and state-of-the-art sustainable features sets a new industry standard and provides the leadership necessary to move the entire industry to its next level. Partnering with Highland Fairview, one of the most innovative and leading development firms will give Moreno Valley the competitive edge it needs to succeed. The phenomenal success of Highland Fairview's Skechers building is known nationally which also set a new standard for logistics facilities, and I am sure, the World Logistics Center project will do the same.

As one of the leading sectors in the U.S. and global economies, the logistics industry represents a historic opportunity for Moreno Valley. Demand for logistic facilities is at an all-time high. Development grew 100% in 2014 with 115 million square feet delivered and the market is now projected to grow another 40% in 2015. Over the last 15 years the Inland Empire industrial market alone has grown by over 215 million square feet, which is an unprecedented 91.75% increase of sustained growth. We expect this trend to continue for many years to come. In addition, E-commerce will be an enormous driver of demand for large logistics facilities with over 50 million square feet of E-commerce users currently seeking facilities in the market. Many of these companies may also provide an exceptional opportunity for the city of Moreno Valley to generate additional tax revenues from ecommerce sales.

Therefore, we believe that the unique Master Plan for the World Logistics Center combined with the type of buildings envisioned will enable Moreno Valley to attract top global companies, establishing its leadership as a prominent business center in Southern California.

As the world's leading real estate brokerage firm, CBRE has been responsible for leasing over $108 billion of industrial space and completing over 60,000 transactions, we recognize the significance of this important project in the market. The World Logistics Center is not just important for Moreno Valley; it is significant for California and is poised to become one of the preeminent business centers nationally and globally. We know it will be a great success.

This is the moment for bold action on the part of the Moreno Valley City Council. You have an opportunity to build a logistics center unique among the world's business centers, a center that can truly be a world-class, state-of-the-art International Trade complex unsurpassed in its locational advantages and unexcelled design. This vision, prompted by the City of Moreno Valley who has the imagination, drive and commitment to be leaders in the 21st century, can set in motion development and employment opportunities that will shape the future for the whole region. It also represents a momentous opportunity for Moreno Valley to secure its place amongst Southern California's leading business centers.

You have an unparalleled opportunity in front of you. Great achievements are made by leaders of vision. This unique project is entrusted to you and we challenge you to use it well. We look forward to seeing this vision become a reality.

Sincerely,

Darla Longo | Vice Chairman / Managing Director | Lic. 00639911

Just a note to plead with you and the council to vote no on the WLC. The planning officials don't live here in Moreno Valley, and his comment that anyone who owns a piece of land should be allowed to build whatever they want is B.S. when it comes to the trouble and suffering of other people. That warehouse DOES NOT BELONG in that area. If he wanted to build the WLC, and planned it properly from the onset, he should have purchased appropriate property, where the other warehouses have been built... Along the 215. Why should the city accommodate such a project that size, that was never planned for until fairly recently. IT'S JUST WRONG, and everyone knows that in their hearts. The traffic and pollution will haunt this city for years to come, much like Eastvale, at mission and the 60fwys. Please, vote to do the RIGHT thing,... For you and ALL OF THE RESIDENTS... VOTE NOOOOOOO! !
Thank You... Mike

Dear Mr. George Price,
I voted for you, hoping you will do the best for our City.
I have lived in Moreno Valley for over 30 yrs and have seen many changes.
I am so afraid that the World Logistics Center, if voted in, will be terrible for the future of of our City and generations to come.

The trucks spewing diesel and gas, extra volume cars polluting our air.

The traffic on the 60 is already unbearable. How can you account for horrific changes to commuters using the many freeways in all directions? These homeowners are already stretched to the max.
Some of the trucks are presently using urban streets, and they will use them more if this nasty Center becomes a reality.
You and I and your constituents know that the figures presented to you regarding employment are overblown-that they are just what we want to hear. The environmental, traffic, sketches, employment, extraneous numbers (such as restaurants), and more; none of these numbers have or will be proven to be at all true. And you know it.

What do you want your Legacy as City Councilman to be? Please stand up for Moreno Valley and vote against this nasty Center!
Thank you.

On Jul 9, 2015, at 8:12 PM, wrote:

> In the near future there will be a decision made in regard to a project that has been ongoing for quite a few years. Frankly I'm surprised there hasn't been a definitive answer on this project before now. I have noticed that whenever an important decision must be made, the conflicting parties involved usually become easily irritated and that more often than not, the discussions tend to break down into personal attacks on either the proponent or opponent, and at times even toward the third party who is responsible for the ultimate decision. This has been quite evident at many of the recent council meetings. This seems to be a human trait that is both unnecessary and embarrassing, seemingly more an act of desperation rather than one of a successful, proactive debate. I have found that time and time again more progress toward an educated, fair and just decision can be made when cooler heads prevail. It has been proven again and again that when the parties involved simply back off a bit and remove these personal attacks from the situation, it makes for a more fruitful and productive environment, which in turn, promotes the opportunity

to address concerns, separate fact from fiction, thus allowing for a well informed decision to be made. In addition, there seems to be a sense of desperation as to the approval of this project. There needn't be! I truly believe there are other alternative projects that as of yet haven't been researched. Many of which would be a much better fit for both the city and it's inhabitants. Presently the Environmental Impact Report presents quite a stumbling block due to both it's length and it's confusing legal jargon, making it difficult for most to comprehend. However, from the information I have both read and heard discussed as to the proposed project, the EIR states that the traffic congestion and air pollution issues alone, are irreversible, unavoidable, and quite damaging to the health and wellness of the inhabitants living in the valley. This alone raises a huge red flag for me! But rather than debate the reports findings of obvious permanent problems of which it states there is no solution to eliminate.....may I offer a suggestion? Why not consider other alternatives for development in the east end of the city! It is general public knowledge, well documented per news sources, that Moreno Valley has a rather less than sterling reputation and a bit of a public relations issue. That being said, it was thought by some that by rebranding nearly half of the city it would perhaps somehow change the publics perception of at least a part of MoVal! This foolhardy project failed miserably! But rather than waste time lamenting a failure, let me offer a suggestion that if implemented correctly, could and would change Moreno Valley's image, while at the same time attract county, state, even national attention in a positive way. It would produce jobs now, not years from now, be non-polluting, have little to no impact on local traffic, and help Moreno Valley to become a state-of-the-art example of what a truly forward thinking city can become! My suggestion is to build the largest solar farm within the boundaries of an established, incorporated city. This along with a storm drain/waste water treatment facility powered by a portion of the electricity produced by the solar project. The treated water could then be redistributed throughout the city for greenbelt irrigation, agricultural applications, or even recreational water uses. Just for a moment, think of the recognition/positive publicity a project like this would bring to Moreno Valley! A true renewable energy resource for the city! The financial benefits alone make this a very attractive option. No costly highway infrastructure required to accommodate the added auto and truck traffic that is unavoidable with mega warehouse projects. And in addition by producing true clean energy, the air pollution problem would be eliminated! No added traffic equals no added pollution! I would also like to offer, at the very least, one simple word,...moderation...for as it is well known, anything in excess is bad. With that being said, we already have an abundance of warehouses in the city, so perhaps some light manufacturing sites or other businesses to help create jobs would be a better use of dwindling available, as of yet, undeveloped land. These types of facilities could easily coexist with the solar and water treatment plant projects. I respectfully suggest patience, to enable you to gather and digest the facts, not the elaborate sales pitch with its speculated promise of plentiful jobs, along with the fanciful belief of reduced traffic congestion and cleaner air. And furthermore, may I also suggest variety, to help create a balanced, vibrant, and sustainable future for the city, for both it's present and future residents. For, after all is said and done, what would you like the city's history to state? That the elected leaders and representatives of Moreno Valley were cutting edge, out of the box, forward thinkers?...or that they were simply complacent, lacking in both vision and hope for their cities future, thus ultimately crippling the opportunity of becoming more than just another stagnant, warehouse saturated community. Both the city and it's citizen's future rests on your decision....Thank You J.
Zeitz

DEAR MR.PRICE,

I FELT IT WAS TRULY FORTUNATE TO HAVE YOU AS OUR DISTRICT COUNCILMAN. WE FELT THAT THE PAST COUNCIL WAS ONLY CONCERN ABOUT THE DEVELOPERS AND NOT THE CITIZENS OF THIS

COMMUNITY. THIS EAST PORTION OF THIS COMMUNITY WAS AND IS A BEAUTIFUL LANDSCAPE. IT IS UNFORTUNATE THAT THIS WHOLE AREA WILL BE AND INDUSTRIAL AREA. LOOK AT THE COMMUNITIES OF VERNON AND C

CITY OF COMMERCE. WHO WILL WANT TO MOVE INTO THIS INDUSTRIAL AREA IF IT GROWS TO THE LEVEL THAT CREATES A MINI INDUSTRIAL SUB CITY. MANY OF THE STORES ARE HAVING A DIFFICULT TIME TO FLOURISH

ON THE EAST SIDE. THERE IS SUCH A POTENTIAL. YOU KNOW THE STORY OF SKEECHERS, PROMISING JOBS TO RESIDENTS. IT REALLY DID NOT PAN OUT. LETS DEVELOP HOMES AND SHOPPING AREAS WITH EATERIES

AND PLACES TO VISIT IN OUR OWN COMMUNITY INSTEAD OF GOING OUTSIDE OUR COMMUNITY. LETS IMPROVE ON WHAT WE HAVE. WE CAN ATTRACT MORE TO THIS COMMUNITY IF WE DO NOT HAVE AND INDUSTRIAL AREA.

YOU LIVE HERE, YOU HAVE CHILDREN AND GRANDCHILDREN. WHY NOT MAKE THIS WHOLE COMMUNITY AND ESP THE EAST END A PLACE WE CAN BE PROUD OF. WE NEED FAMILIES THAT CAN TAKE PRIDE IN THE

COMMUNITY THEY LIVE IN. ITS GOING TO BE HARD TO SAY I LIVE IN THE INDUSTRIAL AREA OF RANCHO BELAGO IN MORENO VALLEY.

SINCERELY. DR ROBERT REYNOSO

We are writing this to let you know that we are totally against the proposed warehouse center and in particular the proposed extension of Cactus Avenue in order to make it a corridor for thousands of trucks. We live very close to this proposed corridor. This proposal would totally destroy our right to peace and enjoyment of our home. We, along with many others on the East side of Moreno Valley are seriously considering leaving Moreno Valley if this occurs. We also do not believe that there will be 20,000 new jobs and are not aware of any facts to support this claim.

Please reconsider this destructive proposal.

Cactus avenue should not be used for truck deliveries to the warehouses if this project passes, it is a residential street on the east end of the valley. Also, if the 20,000 workers does not happen, will the the developer be fined for his statement to this fact. There has to be a lot of concessions for this project to be approved. Please fight for our citizens of Moreno Valley.

Sue, please consider forwarding this to all Mountain View residents ASAP.

I'm sure that most of us are fully aware of the proposed World Logistics
Center to be built just to the East and North of Mountain View. This project
has been pushed by the developer for several years now and has been a
controversial topic of discussion, both for and against, by Moreno Valley
residents. It is a forgone conclusion that sooner or later this project will
be approved for construction whether we like the idea or not. The official
estimate (from the developer himself) of vehicle traffic that this project
will generate, when it is completed, on a DAILY basis is an astounding
14,000 vehicles. At LEAST 3,500 of these vehicles will be the large
tractor-trailers, according to the developer's own estimates. 24 HOURS A DAY
7 DAYS A WEEK.

There is one shocking aspect of this plan that I certainly was not aware of
until recently, and you may not know about, and that is the traffic plan

associated with the project. The current plan calls for Cactus Ave (Which
now dead ends just East of Redlands Blvd), to be extended further East and
North to lead directly into the World Logistics Center. Also, Alessandro
Blvd will be modified in such a way as to keep the Logistics Center traffic
from using it, and force it onto, the newly extended, Cactus Ave. The result
and sole purpose of these street modifications is to make the entire length
of Cactus Ave a corridor for vehicle traffic between the 215 freeway and the
Logistics Center. Of course there will be a route for vehicles also to the
60 freeway as well. But, even if Cactus Ave only becomes the preferred route
for as little as 25% of the 14,000 vehicles going to and from the Logistics
Center daily that would be 3,500 vehicle round trips per day in addition to
normal traffic on Cactus Ave. Right outside our gate and through many other
residential neighborhoods. 24 HOURS A DAY 7 DAYS A WEEK.

The planning commission approved the project (6 to 1) this past week and the
City Council is set to vote on it in on JULY 15. It is a pretty certain that
it will be approved by the council - the developer has invested a great deal
of money these past few years in the right places to assure that it will.

Please consider expressing your views to our City
officials. Perhaps we can
at least get them to reconsider the Cactus Ave corridor aspect of the
traffic plan before it's too late. THERE IS STILL TIME.

Subject: Letter from a Concerned Citizen!!!

Dear City Council Members,

I am writing this letter in regards to the upcoming vote for the World Logistic Center. I live very close to the desired location of the center (Redlands and Cottonwood) and have been struggling with the fact that you are even considering the rezoning. If someone would have told me this would be happening before I moved in I would have not moved here. I have always seen the eastern portion of Moreno Valley as a quiet and family friendly neighborhood ***the ideal of what Moreno Valley should be***. People often commented on how beautiful and quiet this side of Moreno valley is. I have always been proud of the fact that this side is the "nicer part" of the city and people want to move here. But lately I have seen more for sale signs and people afraid of what is to come to our beautiful neighborhood.

With the planned rezoning I don't see how you are looking out for our kids and our neighborhood. I understand we need more jobs, yet you are only offering one type of job that is will only be degrading our city. What has Moreno Valley become? I ask myself so much lately. Are streets are littered with trash are homes are suffering in decay. Instead of focusing on the plan of bringing down our city with the WLC, Highland Fairview and its owner (who love the city very much!) should bring more jobs by constructing a better library, more parks more retail stores and the likes. Things that will bring our home values up instead of sacrificing our health and drama that the Center will bring. I moved to Moreno Valley with the hopes of better school district a quiet neighborhood where I could raise my kids without the traffic and drama of a big city. I am afraid of what this is going to do to my neighborhood. I already see people fleeing away from the city because of the mere thought of a huge warehouses consuming our city.
I pray that you see beyond the dollar signs and see this project for what it is a money hunger company that has no interest in the betterment of our city only the money it will bring into their pockets. This is not the city I moved into and I have already seen the downfall that warehouses has brought and it makes me very sad. I want Moreno Valley to flourish for its beautiful and family friendly environment not for the amount of warehouses it has. We need more jobs but not at the cost of our city. I plead with you to think about our city!!!! Not the benefits it will bring you. I do not want to see my streets filled with trucks and smog. I don't want my child's health to suffer for what,...more jobs. I don't want my city to become another Mira Loma... period. Our neighborhood in the East side is the best part of the city and now what is it becoming a warehouse invested zone. I want you to look out for our city and see that this is the worst thing that could happen to it. I am terrible afraid of what consequences my neighbors and I have to endure for the sake of jobs. Jobs with no guarantee to be filled with Moreno valley residents.

I beg that you consider the consequences of trucks in our streets and highways. We have two warehouse and I already see the traffic and congestion this has brought to our streets. I want to raise my son in a great up and

coming city not a mediocre one which values dollar signs more than family. Please vote no to the proposed rezoning and say yes to a better family oriented Moreno valley. We deserve more!!! Let's not settle for a less just because someone says that is all we can have. I Want my city to prosper. I want Moreno valley to become the place where families want to move because of safety and progress. I want my city to be a Temecula and Murrieta. A vibrant and prosperous city were people want to move to and NOT move out of!!!!
PLEASE VOTE NO!!! And show your city who you are really working for!!!

Thank you very much.
A **VERY** concerned citizen!!!

Re: World Logistics Center

Is it true that the current plan calls for Cactus Ave (Which now dead ends just East of Redlands Blvd), to be extended further East and North to lead directly into the World Logistics Center?

Also, is it true that Alessandro Blvd will be modified in such a way as to keep the Logistics Center traffic from using it, and force it onto, the newly extended, Cactus Ave.?

Is it true that the result and sole purpose of these street modifications is to make the entire length of Cactus Ave a corridor for vehicle traffic between the 215 freeway and the Logistics Center?

If there is no response to this email, I will assume all of the answers are yes.

As a homeowner and HOA Board Member of the Mountain View Community which borders Cactus Ave., this is of extreme concern to me and others in our community.

The result of this decision will have a major impact on future elections.

The correct answer to the above questions should be NO!!! All Logistics Center traffic should use the 60 freeway, rather than a suburban street.

Awaiting your reply,

Hi Mr.Price, I am sending you this email because you live and represent my district. I live in the Mountain View community on Cactus near Redlands. I am very concerned about using Cactus as a corridor for WLC. This is a senior development and is very quiet and pleasant for the older generation. Why would anyone consider Cactus a a corridor for this project? I voted for you in Nov. because I thought you were against this project. I am against it because of heavy truck traffic the freeway and and side streets are not equip to handle, air quality is also an issue. Please address my concerns. I

If we have to have the logistic center in Moreno Valley, you should at least take into consideration the residents of this community and direct the traffic to the 60 Freeway, and not allow it into the local neighborhoods. Take into consideration the safety of our families who use Cactus to and from schools, shopping, etc. Please don't make it any harder on us by ruining everything.

Ms. Macduff,

I just wanted to say that I think you are right about going slow about making the decision on the World Logistics Center. It bothers me that the Moreno Valley city council has moved the vote forward to the middle of July; the rush smacks too much of jerking the rug out from underneath the public and the organizations that advise the region on air quality, transportation, and the environment.

It is true that development of almost any kind will adversely affect all three of these aspects of life in Moreno Valley (and probably the rest of the region), but I would argue that very few proposals would adversely affect things as much as one that puts 14,000 trucks on the freeway a day. An overturned big rig on the 60 freeway on June 30 backed up traffic on that freeway and the 91 for hours (see my letter to councilman Giba, below)--and that was just *one* truck!

I can think of two reasons why the city council would want to rush the decision: (1) to get out of the hot water the city council currently finds itself in, and (2) to advance the project to the point where those who object to it give up. But the hot water is a red flag--a sign that something is wrong--and starting the project before the issues connected with it are resolved smacks of bully-boy tactics pure and simple. If this vote takes place in mid-July, I think it will be fair to say that Moreno Valley is not being well served by its city council, and that it has a right to expect better.

Sincerely,
Marian Bailey
Technical Editor (Retired)

> **Subject: Fwd: World Logistics Center**
>
> Dear Mr. Giba,
>
> The paper doesn't say whether or not the planning commission voted in favor of the World Logistics Center last night, but regardless of its decision, I hope you will consider voting against

the project. It seems to me that many Moreno Valley residents are concerned about the additional noise, air pollution, and traffic congestion the project will create, and that project supporters talk about the jobs the project will create and rely on trivializing these difficulties.

Well, as if on cue yesterday morning, we got a sample of what Moreno Valley is in for if the project is approved: at 5:12 a.m., a big rig overturned at the Box Springs Mountain offramp from the 215 south, and at about 8 a.m., when I traveled through there going the other way, the southbound traffic was jammed. Then, on my way home at about 9 a.m., I decided against using the overpass from the 91 south to the 215 south, because the backup had just reached the bottom of the overpass.

Instead, I continued on the 91 south (eventually exiting at Central) ... and traffic was also backed up on the 91 north, because it was impossible to make the transition onto the 215 south!

I fear this accident is only one of others like it, and it raises a question: What will the World Logistics Center big rig drivers do, if they are caught in a humongous traffic tie-up like that one? Will they sit patiently for hours on the freeway while traffic filters through? They'll be on a delivery schedule! Or will they exit onto surface streets like Canyon Crest Drive near my house, which is not constructed for big rigs?

I fear that the impact of this project will be felt throughout the region: Not only will people on surface streets have to contend occasionally with big rigs, but also, the roads the big rigs are on (in addition to the freeways) will break down.

Moreno Valley is largely a bedroom community; many of its residents commute. Let's make life easier for them instead of harder; please vote No on the World Logistics Center.

Sincerely,

Marian Bailey

On Jun 18, 2015, at 10:44 AM, wrote:

Dear Mr. Giba,

I am writing to you because the district map shows that you represent the part of Moreno Valley closest to my home in Riverside, which is near Sycamore Canyon Park, about a mile away from the 60 freeway.

I am writing to say that I think Moreno Valley can do better than approve the World Logistics Center (WLC). Right now, the east end of the Moreno Valley is attractive, with its open land and rural aspect; I can imagine that it would appeal to many other developers, some of whom would be likely to want to situate business parks there. The WLC, with its square miles of warehouses, would eradicate that appeal. Simultaneously, the WLC would make Moreno Valley more vulnerable to the downturns in the economy that rely on the sale of material goods.

The WLC would also make the eastern end of the valley less appealing to migrating birds, some of

which now settle in and around Mystic Lake to rest and recoup.

The addition of big rigs to the 60 freeway would be unwelcome too. I drive that freeway myself, as do many commuters, and the part of the route that travels downhill from about Day Street to University Avenue is already very dangerous; adding huge trucks with heavy loads would make things even worse. Noise would be a problem too; trucks going downhill often chortle and snort, and since I can hear this from my house, hundreds of other people will be affected by that noise as well.

Please vote against this development, Mr. Giba. Moreno Valley has the luxury of time, because its population is steadily increasing. Better, more attractive development proposals than this one will be forthcoming in the years to come, and I think that will be the time to vote yes.

Sincerely,

Marian Bailey

Subject: World Logistics

Good morning Jeff,

Here we are go again Jeff with more rhetoric about how good the World Logistics Center will be for the City of Moreno Valley. I think that City Planning made a big mistake voting 3-2 for the project without more research on traffic issues, jobs & sales tax.

First, the planning commission talks about jobs in Moreno Valley & Mr. Benzeevi promises that citizens of Moreno Valley will be given preference. He can not promise this as this was be a discriminatory act all by itself. Let's look at the unemployment rate of 11/14, the unemployment rate was 9.6%. For discussion purpose lets round up to 10%, let's say the city has 225,000 people. So that would be 22,500 residents, statistics say that 50% do not want job. So that is 10,250 that does not a job. As I have told you I have a business in Moreno Valley. I think it would be a safe bet that 1/2 of the 10,250 could not pass the drug test or be physically enough to do a fast paced job. This is just my personal opinion.

So saying that he is going to hire Moreno Valley is just his way of getting the citizens of Moreno Valley to vote for the project. He states that all the trucks will have to meet the 2010 emissions standards. That is already the law, he is not given the city of Moreno Valley anything, just another play on words with promises once he cannot regulate or keep.

Let's talk about his own statement of 14,000 trucks per day. Let's do some basic math, 14,000 per day = 560 trucks per hour, which = 9.3333 PER MINUTE. Can you imagine that? Can you imagine that line of trucks? The numbers doesn't make sense if there is not 2 designated lines both east & west bound, before the project is allowed to forward.

If you want real life examples go over to Etiwanda at the Costco warehouse & look at the truck congestion. Also, take at look at Cherry Ave in Fontana & please look at the congestion that has caused to that community. Please stop & take a breath & see what this will do this city.

I have seen no where Mr. Benzeevi, where he says that these warehouses will create sales tax for the city. There is no true guarantee that this will create anything other than warehouse jobs. It will not create substantial jobs for Moreno Valley, but it will create jobs for the surrounding cities. The existing citizens of Moreno Valley will only get the traffic & the City Council or Mr. Benzeevi can not guarantee anything but this.

Jeff, if you wish to share this with the other City Council members including the doctor who never responded to my email, please feel free to do so. As usual, please free to call me on my cell [redacted] Please understand that I have read & done research so please do not try to convince me this is a good thing for our city. Because the facts do not support it.

Concerned Sunnymead Ranch Citizen,

Mike Beam

Mark Gross, Moreno Valley Planner
City of Moreno Valley

Dear Sir: Please include the following comments in the public record for the public review of the World Logistics Center project (WLC).

I oppose the proposed World Logistics Center project (WLC) and urge you to deny its approval. I present some of my reasons for opposition below.

I am a long time resident of Riverside and have watched as Moreno Valley evolved from the small rural and agricultural communities of Edgemont and Sunnymead to the sprawling bedroom community (largely for Orange County) it is today. While most major cities grow up around sources of primary economic activity, most Moreno Valley residents have always (at least since incorporation) depended on job centers many miles away. As the population has grown, the commuter transportation capacity has always lagged behind demand and is already essentially maxed out, at least during the morning and afternoon "rush hour" periods. And, of course, traffic congestion is so much worse when traffic collisions occur in and around the SR-60/I-215 and SR-91/I-215 interchanges; I note that such collisions seem to be getting ever more frequent .Prospects of increases in truck and commuter traffic (and inevitable highway collisions) associated with the WLC project should give local residents nightmares. It gives me nightmares, and I would be affected less than Moreno Valley residents.

Traffic congestion would worsen

Any notion that increased jobs provided by the WLC may reduce local commuter traffic in and around Moreno Valley is unrealistic. Even if the wildly optimistic projections of jobs associated with the WLC were to occur, that would not decrease long-distance commuter traffic. It is reasonable to assume that jobs in Orange and Los Angeles County, which may be vacated by Moreno Valley residents to work nearer their homes in Moreno Valley, will be filled quickly by others, who are also likely to seek more affordable housing in Moreno Valley. The end result is ever more commuter traffic, not less.

Economic uncertainty

In considering the proposed World Logistics Center project, it would be wise to consider the implications to the city's economic future. The commitment of such a large portion of remaining space (almost 41 million sq-ft) available for development in the City of Moreno Valley to a single industry sector (warehouses), whose economic success in turn depends on the expansion of trans-Pacific trade indefinitely into the future, is a risky gamble. Post World War II trans-Pacific trade has grown more-or-less steadily as first Japan and Taiwan, then Korea, followed by China, and now Viet Nam, Cambodia, and Bangladesh have succeeded each other in hosting the production of consumer goods once produced in the USA. But, as those Third World countries have benefitted from the overseas flow of US dollars, they have continued to develop, with consequent increased labor costs and factories moving to ever cheaper labor sources.

Considering the economics of production, and the proclivity of manufacturers to seek ever cheaper labor, it is only a matter of time before factories leave Asia and head for the last frontier

of cheap labor: Africa. Chinese entrepreneurs are already heading in that direction. And when the majority of consumer trade shifts to Africa, trans-Pacific trade will decrease, and all that local warehouse space may be unneeded, like a stranded whale on the beach. Perhaps it would be wise to plan ahead for that eventuality and adopt a sound and prudent strategy to plan for a more diversified economy.

Sincerely, Greg Ballmer

Subject: WLC Questions

Dear Councilman Price:

Please consider my questions and concerns as you ponder your decision on the proposed World Logistics Center project. Thank you.

Questions
What are the specific sources of funding for the mandated Hwy 60 infrastructure changes to accommodate additional traffic estimated at 14K trucks per day? The published information regarding responsibility for funding this aspect of the project is confusing and contradictory.

How will Moreno Valley mitigate the air quality changes caused by increased logistics truck traffic & employee traffic?

Who are some of the anticipated vendors for WLC?

Like many, I question the job projections. Are we taking into consideration the likelihood that many of the 20,000 promised jobs at WLC will ultimately be replaced by robots.

Concerns
Many of your constituents have made the case for WLC based on the need for more jobs in Moreno Valley. I've heard compelling stories of the long, stressful & challenging commutes people have endured for many years. My family has its own stories of lengthy commutes; however, Moreno Valley is currently adding more jobs, Amazon, Aldi, et. al. There is also great potential for more jobs (requiring a variety of skill levels) if the medical campus under discussion becomes a reality.

Despite increased e-commerce and imported goods, I am of the opinion that the WLC is possibly more logistics development than what is required. Do we have proof that WLC would be at or near capacity considering the competition it will undoubtedly have from existing logistics centers?

It seems to me the massiveness of the WLC, as currently proposed, will erode some of the rural aspects of the community and contradicts the General Plan's imperative to maintain a pleasing physical environment, preserve open space, support habitat conservation, etc.

Our city could lose some of its rural charm in favor of an industrial complex. (albeit the center's Environmental Design Gold Standard). I don't see myself taking pride in living in a city that boasts the largest logistics center in the nation if that parallels some of the worst traffic congestion and air quality. I don't believe these two critical factors have been adequately addressed. I ask our City Council to do their due diligence in reviewing a newer version of the EIR. This is such a critical decision. If more time is needed to access the pros and cons than so be it.

Best,
Madelyn Millen

Subject: Highland Fairview decision

July 3, 2015

Councilmember:

While you are reviewing the Highland Fairview warehouse development I hope you will consider the following:

1. Do you clearly understand how the economic impact and projected employment numbers are determined? Or are you just taking someone's word for it?
2. What happened to the 1000 to 2500 jobs that Sketchers was bringing to Moreno Valley? (Jack Katzanek, Press Enterprise, 02-01-2012).
3. How much money has the City of Moreno Valley invested in projects that directly benefited Highland Fairview proposed projects?
4. What happened to Rancho Bellagio?
5. What happened to the medical complex that was to be built when Nason Avenue was extended to Iris Ave?
6. Why will it take 7 years to complete the first phase of the warehouses?
7. How much will the City of Moreno Valley spend on infrastructure for the proposed warehouses?
8. How much will the City of Moreno Valley give to Highland Fairview and future warehouse tenants in the form of tax breaks, electrical discounts and other incentives?
9. How much will the City of Moreno receive directly in taxes and fees?
10. Will this project really benefit the citizens of Moreno Valley? Or will it be a pile of gravel like the March health care project?
11. Does Highland Fairview have financing in place to fund this project?

Please remember in your considerations that no one has a crystal ball. All of the numbers you are hearing are merely someone's rosy projection of the future. For example, continued labor problems at the Ports of Los Angeles and Long Beach may have a negative effect on shipping volume in the future; planned rail lines from the ports will change how and where incoming shipments are moved.

Sincerely,

Larry Merrill

Subject: Comments on proposed World Logistics Center

Hello Councilman Price,

Thank you for this opportunity to express my views on the proposed World Logistics Center.

I am very concerned that the Center, with its enormous size equivalent to 700 football fields of high-cube warehousing, will deeply degrade the quality of our environment in Moreno Valley and, particularly, of the air that we all must breathe. According to the Final Environmental Impact Report, the WLC will be visited by at least 14,000 truck trips and thousands of other vehicle trips *per day.* While the quality of our air has improved in recent years (thanks in large part to governmental regulations), we still have some of the worst air quality in the nation during warm weather periods. We frequently exceed federal standards for ozone and particulates. The diesel particulates that would be emitted by the enormous number of trucks have been shown in many studies to cause cancer, heart, and other health problems.

As a teacher in the Moreno Valley Unified School District for 16 years, I have seen many cases of asthma among my students. I am deeply concerned about the effects of the degraded air quality on the health of students who live on the East side of Moreno Valley and near our freeways, many of whom enjoy playing outside during the summers. The MVUSD has expressed its concerns about the environmental effects of the project. Elderly residents and those with a variety of health problems could also be subject to a worsening of their conditions by having to breathe more polluted air. Comments from experts at the South Coast Air Quality Management District express their view that the FEIR unduly minimizes the effects of the emissions from so many diesel trucks. (These comments, included in a SCAQMD email to Mark Gross on 6-24-2015, are very informative. I encourage you to read them, if you haven't already.)

As we all know, the developer is attempting to sell the project on the basis of projected major economic benefits to our community. Given the high degree of automation and frequent reliance on part-time and low-wage workers in the logistics industry, there is substantial justification for viewing the job-creation and economic-benefit claims with considerable skepticism. The number of local jobs created by the Skechers plant has been very small. If many warehouses brought so large economic benefits, then Mira Loma and Fontana should be

models of prosperity (which they aren't). The proponents of the WLC can promise enormous rewards, but, if those don't materialize, what then? We will be stuck with all of the problems but without the promised benefits.

There are already many warehouses on the South side of our city and along the 215. Do we need to additionally have this massive development on our East edge, making us the warehouse capital of inland Southern California?

The WLC also raises serious issues about traffic congestion, with so many additional truck trips and visits by other vehicles to that location. These trucks will be clogging our freeways through Riverside and other neighboring communities. This becomes a regional issue, not just a local one. Also, what about effects on transitions on and off of the freeway near the WLC? In addition, with so many additional truck trips there will be inevitable spillover of drivers directing their rigs through streets that aren't designated truck routes.

The argument doesn't have to come down to a choice between a growing local economy and the quality of our air and environment. We can have both, if we aggressively work to attract and develop employers that provide local jobs without further endangering out health. Opportunities in health care, renewable energies, and manufacturing could be examples of fields that would generate employment without all of the problems of warehouses. We should have a community dialogue about the future of Moreno Valley, its economy, and what types of businesses and industries we want here. We could examine the approaches of other California cities that have been successful in growing their economies in an environmentally healthy manner.

I hope that you will seriously take into account these concerns and the health of all Moreno Valley residents in your deliberations on this critical issue. Thank you for your service to our community.

Sincerely,

Robert Willson

Mr. Sharp
Thanks again for taking the time to write. I cannot speak for my colleagues on the Council however I feel if a citizen takes the time to express their opinion the least I can do is respond.
As to your question, I am working with staff to determine alternate routes other than Cactus. Cactus is not an acceptable route to handle truck traffic to and from the site. I am not one who considering allowing this to happen as you state.
Thanks again for your email.

Mr. Price,

You mention that you are "concerned" with these plans. Does that mean that you are actively doing anything to try to alter this plan of using Cactus Ave in this manner?

I am not necessarily against the WLC in theory, BUT I CERTAINLY STRONGLY DISAGREE WITH CREATING A PATH FOR HUNDREDS OF TRACTOR TRAILERS A DAY TO RUMBLE THROUGH OUR TOWN AND RESIDENTIAL NEIGHBORHOODS, CREATING NOISE, POLLUTION AND TEARING UP OUR ALREADY WORN STREETS. Frankly, I'm appalled that the council is even considering allowing this to happen.

Can you please give me a more information on your position on this matter and how your district's constituents best interests are being represented.

Thank You

Bill Sharp

p.s. When I sent the original message to you about this matter, I also sent it to all of the other council members including Mr. Molina (The Mayor). They didn't even bother to respond to my question. Very disturbing that they cannot even be bothered to respond to a citizens concern. Very disturbing indeed.

City Council,

Looking at the latest plans for the proposed World Logistics Center I was shocked to see what appear to be plans to create a truck corridor by extending Cactus Ave further East and then North so that it leads directly to and from the proposed Logistics Center.

Am I reading the map incorrectly? That would put hundreds of trucks a day East and West bound on Cactus Ave (and adjacent streets) all the way from the 215 freeway to the proposed WLC. Through all of those residential neighborhoods????

SURELY THE COUNCIL CHARGED WITH REPRESENTING THE INTERESTS OF OUR CITY'S RESIDENTS WOULD NEVER EVEN CONSIDER SUCH A PLAN.

Please tell me that I'm incorrect here, that I am reading this March 11, 2015 Land Use Map wrong, and that you are not even considering such a thing.

Subject: Re: WLC Comments

Dear City Council Members, Planning Commissioners, and City Staff:

I sent you the following memo prior to the last Planning Commission meeting. Unfortunately, We will be unable to attend the meeting this evening due to a prior commitment. You have have received concerns regarding air quality, freeway capacity, city infrastructure, freeway overpasses limitations, and quality of life issues with this project. I urge you to vote against the WLC.

I strongly oppose the proposed World Logistics Center.

Why should Moreno Valley bolster our logistics capacity beyond the level needed to meet our local needs in light of few jobs and low paying salaries. The strains on our infrastructure, tax revenues, schools, highways, and general well being of our residents would out weigh the meager benefits of the WLC.

Warehouses neither provide upward mobility or at least middle-class salaries for our residents. The majority of warehouse salaries are below poverty levels.
In an article by Jock O'Connell, who is regarded as one of California's foremost authorities on world trade, global economy trends, and the internationalization of California's economy, he states that "our analysis finds that studies contending that the logistics sector is replacing manufacturing as a primary source of jobs for the state's blue collar workforce are, at best, misleading. And contrary to the claims of some economists, there is scant evidence that the logistics sector offers marginally-educated, unskilled workers a broad pathway for career advancement into positions paying a middle-class income."
Logistics/warehouses are a poor investment for our community. Too much of Moreno Valley is being designated for warehouses. We are putting our future economic opportunities in jeopardy.
In his report summary Mr. O'Connell states that the consensus is that logistics/warehouses provide a relatively poor return on public investment and generally do not represent the highest and best use of which real-estate should be devoted. He further states that the logistics/warehouse sector is no panacea for communities seeking to create large numbers of jobs paying middle-class wages for those lacking the kinds of skills that are increasingly demanded of workers in today's economy.

Traffic and Circulation
The proposed location of WLC does not make sense. Highway 60 is already overburdened (with no monies available for improvements) and does not have the capacity for the amount of truck traffic that will be generated by this warehouse project. There is no appropriate rail access for warehouse transport in this area.

Residents should not have to face additional burdens such as safety, infrastructure debt and freeway congestion for this project. In addition, freeway ingress and egress is not suited for heavy truck traffic. Improvements are needed to adequately handle **current** usage.

Residents' Investment in Community

The recent city council recalls and the amount of financial investment the WLC developer had to expend to attain election results speak to the dissatisfaction residents have with the proposed WLC and change to the general plan land use. A great deal of time, expense and community input went into developing the city's general plan. The WLC drastically changes the quality of life for all residents. It is unfair subject residents to a project the magnitude the WLC.

The WLC is counter to the type of community residents thought they were investing in when purchasing homes and raising families in Moreno Valley. This isn't just an "east end" issue. I have personally talked to hundreds of residents who live in all areas of Moreno Valley, friends who live in Mira Loma, etc. Warehouses and truck traffic do not make for a livable/sustainable community. People want better paying jobs for our residents and future generations. They do not want to be a city surrounded by warehouses.

The city's focus should to ensure that Moreno Valley is a vibrant community that is both sustainable and livable. In order to do this we need to attract cutting-edge industries that provide *good jobs*, occupations that attract and maintain community members, safe streets, educational opportunities, places to recreate, open space, housing alternatives, and clean air.

Warehouse Automation
In addition to meager salaries, a recent public radio broadcast interviewee indicated that warehouse jobs provide a poor square footage/employee ratio due to automation. A "60 Minutes" program also covered the issue of job loss through automation. Warehouses do not offer a vital economy, nor will it meet the occupational needs of future generations. Contrary to information being provided, warehouse jobs do not lead to career advancement for the majority of workers. A high percent of these jobs are temporary. Employees usually do not have sick pay, retirement benefits, family necessity leave, etc. Childcare is often unaffordable to these families. These conditions erode communities and families. The WLC is a deadend for Moreno Valley.

Again, I am opposed to the WLC for these and many other issues with the project. No mitigation can change the impact the WLC will have on Moreno Valley.

Subject: Zoning may change for warehousing in Moreno Valley

Dear Planning Commission, Council, EPA, and Wally Jiang,

I am a long time resident and homeowner in Moreno Valley.

Today, Moreno Valley residents are impacted with developers who wish to change the present zoning for schools, medical buildings and housing to warehousing.
Residents by the hundreds are attending council meetings to stop the 40-1,000,000 s.f. of warehousing.

Our council members state we need jobs. Jobs for whom? Truck drivers or all the graduates from the very close University of Riverside, and Riverside Community College?

Job creation is when you are not swayed by developers, first you create great ideas then seek out developers that are professional, innovative, and not self-serving, they are serving the community.

Our city is next to a great University that is now adding a Medical Department, like UCLA, they are from the same California University system.

1. UCLA, Riverside Community College, and UCR has branched and bridged into its community, which means, there are educational opportunities, for example, RCC, is now building an Arts Center, which will be an opportunity for students to have a career in Cuisine, Music, and Fine Arts. Along with Medical students graduating.

Our City should concentrate on bridging to our great University and College systems which would lead to our public schools.

Are these graduates going to apply at warehousing?

When you visit UCLA, there is a thriving, rich economy, full of banks, restaurants, housing, research, etc.. What is exciting about our area is we can include agriculture.

2. I am sending this info to Wally Jiang, he is now working with Gov. Perry in Texas, on building a Solar City, which includes, a factory, training center, housing, mall and convention center.
Wally, is a wonderful person to meet!! He started out with 15 employees and now has 150,000 around the world. Job creation!! He believes in job creation, a pollution free world using green energy.

I hope our city mandates all developers to pay for solar or green energy for new buildings.
I hope our Governor supports this mandate, soon.

Germany is close to 80 % green energy and has a goal of eliminating nuclear by 2020.

3. Last week, China stocks plunged 11%, Bloomberg reported. The San Diego Union-Tribune reported, Setback for US Economy, on May, 21, 2015. (With a large picture of containers!) A quarterly drop in gross domestic product of -0.7%. This is not good news.
Euro Up 27.4%.

My last opinion is warehousing is a short term financial endeavor. Hyper consumerism will be diminished due to pollution, depletion of natural resources, (water), the heartbreaking dumping of overproduction dumped into our oceans, ethics, and economics.

How long will China, India, Thailand, etc. be able to provide slave labor, and toxin products for American companies overseas?

Another mandate that should be implemented is any product with formaldehyde should not be allowed in our homes, for example, laminate flooring from China, it contains formaldehyde.

We need ethical, intelligent decisions for our growing community, the purpose of a community is involvement. Warehousing will not bring the community together. Visualize a thriving community at UCLA compared to stark white buildings in a dead community.

It will create pollution and a traffic-nightmare.

Thank you for your time and interest in Moreno Valley.
C. Orozco

Dear Mr. Giba, I urge you to vote against the developer's proposal to rezone huge areas of the city of Moreno Valley to build the World Logistics Center warehouse. If you vote for this project, in exchange for a small number of jobs, most of them not very well paying, you are guaranteeing that there will be more traffic congestion, more air pollution, more chewed-up roads, and more noise. Huge new buildings and acres of pavement will also raise the nearby temperatures. These problems will not only affect Moreno Valley but also the entire area. Is this environmental degradation what you want for your city and for California?

I am a citizen of Riverside, but the development of Moreno Valley into a sea of warehouses, some of them already closed and derelict, affects me and all citizens of Southern California. Please consider your responsibilities to your constituents, your neighbors, and your fellow citizens. Vote no on giant warehouses in Moreno Valley. Thank you.

Sincerely,

Frederick K. Gable

Subject: Another one on my hit list

Hi Jeff,

Did you see the LA Times Sunday edition (6/28/2015)? Another hit on Moreno Valley; the Press Enterprise and Times are both on my shit list! You can tell what this is about--LA has less and less room for business development except at very high land costs. So, throw a rock through Moreno Valley's front window! Yup, that's a great plan. But, THAT is what happens after all the land has been swallowed up by development, both good and bad, over decades of anything goes.

I have only one suggestion/comment for you, the rest of the city council, the planning commission, and staff. WHAT DO WE WANT MORENO VALLEY TO LOOK LIKE IN 10 YEARS? How about in 50 years?

Sure, it is time for MV to continue its business development, but why can't at least some of the development along the 60 include at least a few four to six story office buildings? We give these developers expanded land use terms all the time, so why not make them work out plans that would also include white collar development? The 60 freeway is our showcase road--thousands of people make an assessment of MV based on what they see along that highway. To line it with loading dock doors is not the right public message for this city. I watch the council meetings every month and frankly I'm very tired of hearing the usual "any job" is a great job rehearsed pitch during public comments. How many jobs per sq ft do we get from these warehouse projects vs office and professional buildings? Take into consideration the income difference between warehousing and white collar and it makes our goal to be the bigger and better Ontario look pretty sad.

What happened to "build it, and they will come?" Remember Irvine in the late 70's and 80's? They started office developments surrounded by strawberry fields. Office buildings 50 miles from downtown LA--who would possibly go there?? Well the answer was more office buildings, hotels, restaurants, and so on and so on. What happens in MV today will be its legacy for the next 50 years. If the citizens are really interested in good schools, a city with real employment potential, and a fiscally strong city somebody better wake up and smell the diesel exhaust.

Jeff, would you pass my comments onto the Council and Planning Commission. I don't doubt the integrity of the Council, The Planning Commission or our City Staff--not at all. But I do wonder if the "band wagon" pressure constantly dumped on all of you is taking the city away from a real vision for the future and instead focused, wrongly, on only the here and now.

Best regards to all,
Ron Schwarz

YO CARLOS IBARRA VIVO EN ESTA CIUDAD DESDE HACE 13 AÑOS.
APOYO ESTE PROYECTO THE WORD LOGISTIC CENTER YA QUE ES MUY NECESARIO QUE LOS RESIDENTES DE MO.VA NO TENGAMOS QUE SALIR A OTRAS CIUDADES A TRABAJAR, ASI NO SE CONGESTIONARIAN TANTO LOS FREWAY QUE NOS RODEAN.
VISUALIZO EXCELENTES Y GRANDES OPORTUNIDADES DE TRABAJO Y PROGRESO PARA NUESTRA CIUDAD. YA QUE YO COMO PADRE DE DOS HIJOS ADOLESCENTES VEO FUTURO PARA ELLOS.

ADELANTE CON ESTO!

MORENO VALLEY, CA 92553

I AM WRITING THIS LETTER SINCE I MAY NOT BE ABLE TO ATTEND THE PUBLIC MEETINGS REGARDING THE WORLD LOGISTICS CENTER. I SUPPORT THE PROJECT AND URGE YOU ALL TO SUPPORT THE PROJECT

THE PROJECT WILL PROVIDE, - JOBS - TAX REVENUES - AND IMPROVE RESIDENTS LIVES FOR THOSE WHO COMMUTE AND CAN OBTAIN EMPLOYMENT IN TOWN.

IF WE HAVE NO EMPLOYMENT OPPORTUNITIES WE CONTINUE TO RELY ON NEW HOUSING CONSTRUCTION FOR THE PROPOSED AREA. WHILE THIS WILL PROVIDE TEMPORARY CONSTRUCTION JOBS IN THE LONG TERM IT WILL NOT CHANGE THE CITY'S PROFILE AND MAKE IT A PLACE WHERE PEOPLE STAY AND SPEND THEIR MONEY IN MORENO VALLEY. EVERYONE WILL STILL BE COMMUTING. THIS MEANS THE CITY'S SOLE TAX REVENUE NEVER INCREASES SUBSTANTIALLY AND YOU ADD SOME KIND OF TAX TO MY PROPERTY. IT SEEMS THAT LA, ORANGE COUNTY, IE IRVINE, AND ONTARIO/RANCHO CUCAMONGA HAVE

THOSE CITIES. THE ADDITIONAL REVENUE FROM TAXES FROM THE WORLD LOGISTICS CENTER WOULD HELP IN THE LONG TIME TO EASE CONSTANT BUDGET CRISES FOR THE CIT IN ADDITION THE SUPPORT NEED FOR THE NEW CENTER WILL INCREASE REVENUES AND SPAWN NEW BUSINESSES & TAXES TO SUPPORT THE CENTERS BUSINESSES AND THEIR EMPLOYEES.

I HAVE LIVED IN MORENO VALLEY FOR 11 YEARS. I HAVE COMMUTED FOR WORK OUT OF THE CITY FOR 10½ YEARS. NOT ONLY DID THE COMMUTE TAKE MY TIME AWAY FROM MY FAMILY IT MEANT THAT I DIDN'T SPEND MY MONEY IN TOWN. I WOULD LIKE TO SEE MY GRANDCHILDREN.. ALL FIVE OF THEM - TO HAVE OPPORTUNITIES NEAR THEIR HOME TOWN.

AS FAR AS CONCERN OVER POLLUTION AND TRAFFIC, NEW TRUCK REGULATIONS IN CALIFORNIA HAVE ENORMOUSLY REDUCED TRUCK POLLUTION. DO YOU WANT THE JOBS, AND TAXES ON ANOTHER BATCH OF HOMES WITH COMMUTERS - THOUSANDS OF THEM - COMMUTING OUT OF TOWN. OF COURSE WE COULD WAIT FOR SOME OTHER CITY WEST OF MORENO VALLEY TO OPEN A LOGISTIC CENTER AND STILL HAVE TRUCK TRAFFIC GOING DOWN THE 60.

I WOULD ENCOURAGE YOU TO SUPPORT PROGRESS - JOBS - AND TAX REVENUE FOR OUR CITY

Dear councilmembers

I would like to support the project The World Logistic Center because everything that ~~wi~~ they are bring to Moreno Valley is exactly what we need in the city. and for the future of our kids. because I feel now days there is no jobs in the city. The few that are just pay the minimum there are no raises everything is so expensive and there is no enough money. Most of our people have to travel for other places looking for a job.

Give approval for this great project of World Logistic Center the opportunity to get a better live for our kids and great gran kids. the opportunity to go to better schools, better hospitals, colleges better life for everyone.

Thank you for reading my letter support

Sincerely,

Maria Echeverria

Hello my name is Zarani Arroyo, the reason for this letter is to please ask to make sure the world logistic center recieves approval. The reason for why I want to support the project is because I think it is great for the future. I think the world logistic center is a great work opportunity for the city. This project will make life quality better in Moreno Valley with all the jobs their is to offer. This project is a great opportunity for the whole city because most of the people here wont have to travel as much as they do to go to work. Many people will have more time to spend with their families. I believe this project will be a success in the future mostly for the persons who are still attending school and are planning to go to college, in the world logistic center there will be great job opportunities.

Dear Councilmembers, My name is Gerson Echeverria. I am a resident in Moreno Valley and for 12 years I had to commute to Riverside for work, because In our city there is no opportunity. I ask you please approve the World Logistic Center for the benefit of our future generations to come.

When the project is approved my children won't have to go through countless years away from the family by commuting to work. I believe this project is going to benefit many families not just my own. This project is going to be helping out the city with its tax revenue like the schools, hospitals, fire departments etc.

My children need better schools to have a better education and I believe this project can help. Thank you for your time and for approving the project

Sincerly, Gerson Echeverria

Dear Council members,

I'm writing this letter in support of the World logistics project. I grew up in Moreno Valley. I attended school here from elementary up until high school. Now as an adult, I have found it difficult to find employment in the very City I live in.

As soon as I heard of a world logistics center project, I thought of all the jobs it would bring and how it could improve our City. Most importantly it would eliminate driving an hour plus to get to work.

I truly feel we need this opportunity in our City, and we shouldn't let it go. I hope you take this letter into consideration.

Dear Miss Jempson my name is Richard I. Harry I have lived in Moreno Valley for ~~twenty~~ three years with my four children and twelve grand children.

I am a retired public employee 2 years with the Police Dept, 6 years with the U.S. Post Office and 34 years with the Southern California Gas Company

I am active in the community as a C.A.S.A. court appointed special advocate for the Riverside Juvenile courts, also the Senior Citizen Board, The Moreno Valley Black Chamber of Commerce.

I have commuted to LA. County for over twenty years which had a detrimental effect on the whole family. It limited my time with my family but fortunately my was able to get a job as a teacher here. Most people are not so lucky or blessed.

I Whole heartedly support the World Logistics Center Project. It is about time Moreno Valley took a step into the future

From: Jesse L. Molina
Subject: FW: Zoning may change for warehousing in Moreno Valley

-----Original Message-----
From: Corinne Orozco
Sent: Thursday, June 25, 2015 12:58 PM
To: Planning Email; Jesse L. Molina; George Price; Dr. Yxstian A. Gutierrez; D. LaDonna Jempson;
[redacted]
Subject: Zoning may change for warehousing in Moreno Valley

Dear Planning Commission, Council, EPA, and Wally Jiang,

I am a long time resident and homeowner in Moreno Valley.

Today, Moreno Valley residents are impacted with developers who wish to change the present zoning for schools, medical buildings and housing to warehousing.
Residents by the hundreds are attending council meetings to stop the 40-1,000,000 s.f. of warehousing.

Our council members state we need jobs. Jobs for whom? Truck drivers or all the graduates from the very close University of Riverside, and Riverside Community College?

Job creation is when you are not swayed by developers, first you create great ideas then seek out developers that are professional, innovative, and not self-serving, they are serving the community.

Our city is next to a great University that is now adding a Medical Department, like UCLA, they are from the same California University system.

1. UCLA, Riverside Community College, and UCR has branched and bridged into its community, which means, there are educational opportunities, for example, RCC, is now building an Arts Center, which will be an opportunity for students to have a career in Cuisine, Music, and Fine Arts. Along with Medical students graduating.

Our City should concentrate on bridging to our great University and College systems which would lead to our public schools.

Are these graduates going to apply at warehousing?

When you visit UCLA, there is a thriving, rich economy, full of banks, restaurants, housing, research, etc.. What is exciting about our area is we can include agriculture.

2. I am sending this info to Wally Jiang, he is now working with Gov. Perry in Texas, on building a Solar City, which includes, a factory, training center, housing, mall and convention center.
Wally, is a wonderful person to meet!! He started out with 15 employees and now has 150,000 around the world. Job creation!! He believes in job creation, a pollution free world using green energy.

I hope our city mandates all developers to pay for solar or green energy for new buildings.
I hope our Governor supports this mandate, soon.

Germany is close to 80 % green energy and has a goal of eliminating nuclear by 2020.

3. Last week, China stocks plunged 11%, Bloomberg reported. The San Diego Union-Tribune reported, Setback for US Economy, on May, 21, 2015. (With a large picture of containers!) A quarterly drop in gross domestic product of -0.7%. This is not good news.
Euro Up 27.4%.

My last opinion is warehousing is a short term financial endeavor. Hyper consumerism will be diminished due to pollution, depletion of natural resources, (water), the heartbreaking dumping of overproduction dumped into our oceans, ethics, and economics.

How long will China, India, Thailand, etc. be able to provide slave labor, and toxin products for American companies overseas?

Another mandate that should be implemented is any product with formaldehyde should not be allowed in our homes, for example, laminate flooring from China, it contains formaldehyde.

We need ethical, intelligent decisions for our growing community, the purpose of a community is involvement. Warehousing will not bring the community together. Visualize a thriving community at UCLA compared to stark white buildings in a dead community.

It will create pollution and a traffic-nightmare.

Thank you for your time and interest in Moreno Valley.
C. Orozco
