

Are You Prepared For An Emergency?

Classes are now available for 2016/2017!

Why Take CERT Training?

CERT training is designed to increase individual and community preparedness and self-reliance in the event of man-made or natural disasters. Emergency services may not be immediately available, so residents may have to rely on each other for life-saving skills and needs.

Our all-hazard approach training teaches disaster preparedness, hazard mitigation in your home and workplace, and life-saving skills with emphasis on rescuer safety, decision-making skills, leadership and ***“doing the greatest good for the greatest number of people”***.
