February 10, 2014

Michael Lloyd  
Senior Traffic Engineer  
City of Moreno Valley  
Planning Department  
14177 Frederick Street  
Moreno Valley, CA 92552

RE: Scope of Study for State Highway Facilities in CEQA Documents

Mr. Lloyd:

It has been brought to our attention that clarification is needed related to the interpretation and use of the California Department of Transportation's "Guide for the Preparation of Traffic Impact Studies" (December 2002). On January 21, 2014, Tracy Zinn of T&B Planning, Inc. and Aric Evatt of Urban Crossroads, Inc. attended a meeting in our office, during which they asked for clarification of our Guidelines and particularly Section II (When a Traffic Impact Study is Needed) Subsection A (Trip Generation Thresholds). It is our understanding that Ms. Zinn and Mr. Evatt are consultants working on several traffic studies and California Environmental Quality Act (CEQA) compliance documents for which the City of Moreno Valley is the CEQA lead agency.

As the owner of the State Highway System (SHS), it is our responsibility to coordinate and consult with local jurisdictions when proposed development may impact our facilities. As a responsible agency under CEQA, it is also our responsibility to make recommendations to offset impacts associated with projects that add traffic to the SHS.

This letter clarifies Section II, Subsection A of our Guidelines. It also describes the approach and geographic scope of analysis that Caltrans District 8 finds acceptable for the evaluation of direct and cumulative impacts to the SHS that may be caused by industrial, warehouse, and logistics center development in the geographic area of the Moreno Valley Industrial Area Plan (MVIAP). This area is generally bounded by March Air Reserve Base to the west, Oleander Avenue to the south, Wildwood Street to the north, and Indian Avenue (north of Cardinal Avenue) and Kitching Street (south of Cardinal Avenue) to the east.

1. When a TIS is Needed: If a development project will add traffic to the SHS, a traffic impact study (TIS) is recommended by Caltrans if either of the first two criteria are met. The third criteria may come into play based on consultations with Caltrans. The third criteria under section II subsection A is slightly different than criteria 1 and 2. We point out that it MAY need a study. This is due to specific or unique contexts causing potentially significant impacts with lesser volumes.

Mr. Lloyd:  
February 10, 2014  
Page 2

2. Requested Geographic Scope of Study for Freeway Mainline Segments: Once it is determined that a traffic study is needed the criteria set forth in section ii and based on consultation with Caltrans can be used to determine the geographical scope of the study. For industrial, warehouse, and logistics center development projects in the MVIAP, Caltrans District 8 requests quantitative analysis of project-related traffic on freeway mainline segments where the project would add 50 or more peak hour trips and/or the most heavily impacted segment in each direction. Because impacts to freeway segments dissipate with distance from the point of SHS entry, quantitative study of a larger area is not highly useful to Caltrans decision-making. Typically, when a project's traffic volumes dissipate to fewer than 50 peak hour trips on a freeway mainline segment, they become unrecognizable from other traffic on the SHS.
3. Significance Thresholds for SHS Roadway Segments: Caltrans District 8 recommends that the City apply the following significance thresholds in its CEQA documents for impacts to SHS freeway segments. Impacts are considered significant by Caltrans if:
  - i. The traffic study finds that the LOS of a segment will degrade from D or better to E or F.
  - ii. The traffic study finds that the project will exacerbate an already deficient condition. A segment that is operating at or near capacity or under saturated conditions (LOS E&F) is deemed to be deficient.
4. Mitigation for Significant Impacts: At this time, Caltrans has no fee programs or other mitigation programs in place for the mitigation of direct or cumulative impacts caused by development projects in the MVIAP on SHS roadway segments. Mitigation of direct and cumulative impacts to freeway ramps are satisfied by mandatory participation in the TUMF program.

We appreciate the opportunity to offer comments concerning this project. If you have any questions regarding this letter, please contact Talvin Dennis at (909) 806-3957 or myself at (909) 383-4557 for assistance.

Sincerely,

*Original signed by Daniel Kopulsky*

**Importance:** High

John,

I stand corrected... you do need to include the warehouse space in the 1,700 gpd/AC calculation for sewer generation but only the building footprint – not the landscaping or parking areas. The only difference is in how we charge connection fees using a much lower generation factor for the warehouse space compared to office or other higher sewer generation areas once you are ready to set meters and connect to public facilities.

Best Regards,  
Brian

Brian, I think you meant to apply the 1,700 GPD/AC to the floor space of the building, and not the surrounding (parking/landscaping) space....that is our practice, as you said, for the last few years...

Please confirm.

Maroun.

Yes, you can always deduct the warehouse space for sewer generation as long as there are no plans for wastewater generating fixtures. The connection fees are addressed similarly as well using a much smaller multiplier for warehouse area vs. office space. We've been consistently using this practice for at least a few years now based on all of the logistic centers that have sprouted in the area and our observed flows have reflected that.

Best Regards,  
Brian

Hi Brian,

Thank you, that is hugely helpful and allows us to proceed with a more accurate rate, I really appreciate it.

For future Projects (we have other large logistics warehouse Projects) would it be correct to assume that this approach should be applied as well (applying the rate of 1,700 gpd/ac to the project site, minus the warehouse space)? It would be helpful to know so that we can update our procedure (and in doing so we can avoid pestering you every time this issue comes up).

Thanks again,

John,

Apply the 1,700 gpd/ac rate to everything but the warehouse space as I presume the mezzanine area will have fixture units to generate wastewater. If not, then just the office spaces. When you prepare any documents, just note how you came up with the calculations and that should be close enough for your EIR reporting. Does that answer your questions to proceed with your calculations?

Best Regards,  
Brian

Hi Brian,

One thing I forgot to mention is that the plan I sent is still conceptual and under review by the City, however we anticipate that any revisions would be minor in nature and not affect the general layout or design of the plans.

Thanks,  
-John

**Subject:** RE: WW Generation Rates - First Nandina Logistics Ctr

Good Morning Brian,

Thank you for getting back to me so quickly, we're starting to get in a little bit of a time crunch here so I really appreciate it.

I have attached a copy of the Plot Plan for our Project, and here are some of the basic details to go along with it:

It is a 1,450,000 s.f. logistics warehouse facility, broken down as follows:

- 10,000 s.f of office space
- 66,790 s.f. of mezzanine area
- 2,000 s.f of shipping/receiving office space
- 1,371,210 s.f. of warehouse space

Although the Project is being pursued on a speculative basis and the future tenant is not known at this time, the building design is for high-cube warehousing/distribution.

If there is any other information you need please just let me know and I will promptly get it for you.

Thanks again,

John,

The 1,700 gpd/AC rate factor should be applied as appropriate to the detail of use. For instance, if a property is identified as Industrial with no proposed development, we apply the 1,700 gpd to the entire property. Once we know a building footprint, then we apply that factor to the building footprint. If we know what the interior layout will be with regards to specific type of use (warehouse, storage, manufacturing, office space, etc.) then we apply the planning factor to the type of use as appropriate. If you could provide more information on your actual proposed logistics center, I can assist you with how to apply the planning factor for wastewater generation. Thanks!

**Subject:** City of Riverside Cumulative Project List as of Feb 13, 2014

Good afternoon,

Thank you for your patience in allowing the City of Riverside Planning Division to update the Citywide cumulative list of entitled projects. Attached you will find an Excel spreadsheet and coordinating pdf file of all projects organized by case type, as well as a list of existing Specific Plans throughout the City. Please note: When using the Excel spreadsheet be aware of the additional spreadsheet tabs at the bottom that refer to the different case types.

Additionally, please keep in mind that based on the sudden influx of requests for this data, we are only able to provide a Citywide list of projects. You will need to extract the appropriate projects that affect your analysis. We intend to follow up this data with a corresponding map by next week, but for the sake of getting information to you as soon as possible, we are sharing this project list with you now. We will send out the map as soon as it is available along with a revised list that will include map reference numbers.

In the future, we hope to establish a more streamlined system for providing up-to-date information with little or no delay.

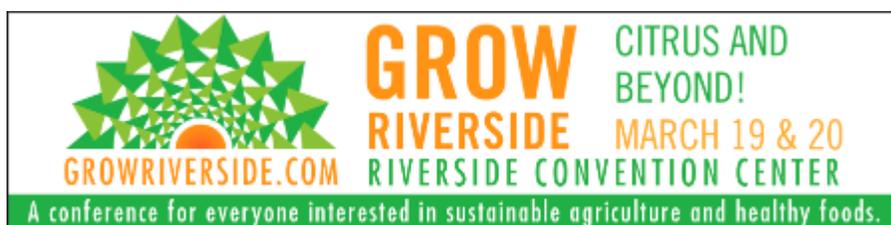

Thank you again for your patience and understanding.

Respectfully,  
Dave Murray

## City of Riverside Specific Plans

SPECIFIC PLAN NAME	INTENT OF SPECIFIC PLAN
California Baptist University (CBU) Specific Plan	The California Baptist University (CBU) Specific Plan is established to provide a vision and context for future development at CBU as well as define the development framework for the Specific Plan area, and establishes the design guidelines, development criteria and measures necessary to implement the Specific Plan. The 157-acre Specific Plan area is comprised of five unique zoning districts that are designed to facilitate development on a university campus.
Canyon Springs Specific Plan	This Specific Plan has designated the project site for Retail Business and Office uses, and represents a logical infill of development into an area where urban services and utilities are either now available or can be provided. Canyon Springs is a regionally oriented mixed use development that combines commercial, office, entertainment, and recreational uses within a total gross area of approximately 318 acres. This plan includes 283.79 acres of C – Commercial General Plan designated land.
Citrus Business Park Specific Plan	The Citrus Business Park Specific Plan is established to facilitate the repurposing of a 49 acre site from an industrial area previously dominated by a single user (Fleetwood Enterprises) to a multi-tenant and multi-owner industrial business park. The intent of the Specific Plan is to provide a district for low-intensity and low-impact industrial, office and related uses. Typical uses include research and development facilities and laboratories; administrative, executive and professional offices, small-scale warehouses, light manufacturing; and support commercial.
Downtown Specific Plan	This Specific Plan was adopted in 2002 to facilitate and encourage development and improvement to help realize the community’s vision for Downtown as a cultural, arts, retailing and entertainment center for the Inland Empire. <u>Currently this Specific Plan is under review to be revised to add 5,000 residential units throughout the planning area.</u>

## City of Riverside Specific Plans

SPECIFIC PLAN NAME	INTENT OF SPECIFIC PLAN
Hunter Business Park Specific Plan	The Hunter Business Park Specific Plan describes a planned industrial park consisting of approximately 1,300 acres of industrial and related uses northeast of downtown Riverside. It addresses planning goals which are relevant to property owners, future tenants, developers and the City of Riverside. The Plan defines the development framework for the Specific Plan area and establishes the design guidelines, development criteria and implementation measures necessary to implement the Hunter Business Park Specific Plan.
La Sierra University Specific Plan	The overall plan concept of the La Sierra Specific Plan envisions a “mixed-use” community. The community would accommodate the expansion of the La Sierra campus and development of the University’s surplus lands, located east and south of the existing campus, to help support the University’s endowment. The plan includes employment opportunities at La Sierra University as well as potential jobs in a new industrial park and in commercial areas anticipated to take on a “town-gown” character. A diverse mix of residential types and densities is also envisioned, providing housing for University faculty, staff, retirees from the Seventh-day Adventist community, and other seeking housing opportunities. In an effort to contribute to the mixed-use character of the area, an open space and circulation network has been planned as a means of encouraging pedestrian circulation and use of alternative modes of transportation.
Magnolia Avenue Specific Plan	This Specific Plan covers 1,473 acres fronting along Magnolia Avenue the primary east/west street in Riverside. The plan is intended to facilitate and encourage development and improvements along Magnolia Avenue to help realize the community’s vision for the corridor. The City’s General Plan 2025 laid the foundation for this plan by establishing the Very High Residential and Mixed Use General Plan land use designations along much of the corridor.
Marketplace Specific Plan	This Specific Plan was adopted in 1991 establishing standards and guidelines for development within the 200 acre area to provide additional commerce and employment opportunities. <u>Currently this Specific Plan is under review to be revised to add more mixed use opportunities throughout the planning area.</u>

## City of Riverside Specific Plans

SPECIFIC PLAN NAME	INTENT OF SPECIFIC PLAN
Mission Grove Specific Plan	This Specific Plan is a Master Planned community to provide commercial, industrial and commercial limited uses within Mission Grove Plaza and Mission Grove Business Park, in a park like atmosphere. This plan includes 56.79 acres B/OP – Business/Office Park, 68.12 acres of C – Commercial, 53.77 acres of HDR – High Density Residential, 78.38 acres of LDR – Low Density Residential, 155.31 acres of MDR – Medium Density Residential, and 9.63 acres of OS – Open Space/Natural Resources General Plan designated land.
Orangecrest Specific Plan	This Specific Plan integrates residential, commercial, industrial, and their support uses over an area comprising 1,485 acres. Support uses include 2 parks, schools(s), a library and fire station. This plan includes 2.13 acres of A/RR – Agricultural/Rural Residential, 2.7 acres of B/OP – Business/Office Park, 138.96 acres of C – Commercial, 13.7 acres of HDR – High Density Residential, 540.76 acres of LDR – Low Density Residential, 1217.80 acres of MDR – Medium Density Residential, 6.61 acres of OSP – Orange Crest Specific Plan, 121.59 acres of PF – Public Facilities/Institutions, 59.51 acres of P – Public Park, 4.84 acres of SRR – Semi Rural Residential and 208.33 acres of VLDR – Very Low Density Residential General Plan designated land.
Rancho La Sierra Specific Plan	Rancho La Sierra Specific Plan Overlay District encompasses approximately 1,462 mostly vacant acres located at the northwesterly boundary of City, including the existing Rancho La Sierra Specific Plan area and portions of the adjacent La Sierra Hills. The Overlay District will accommodate the potential future submission of a specific plan within this area. The proposed Development Agreement is between the City of Riverside and the Rancho La Sierra Property Owners to implement the General Plan Amendment by allowing up to 598 single family dwelling units to be clustered on the River Ranch and Diaz portions of the expanded Rancho La Sierra Specific Plan area, and to preserve approximately 869 acres as open space.
Riverside Auto Center Specific Plan	The Specific Plan was designed to retain and/or return the Riverside Auto Center as the premier “state of the art” auto center in Southern California thereby: 1) Retaining and expanding a major component of the City’s sales tax and employment base; and 2) Providing an attractive shopping experience for the purchase of automobiles.

## City of Riverside Specific Plans

SPECIFIC PLAN NAME	INTENT OF SPECIFIC PLAN
Riverwalk Vista Specific Plan	The Riverwalk Vista project is an amendment to the La Sierra Specific Plan adopted by the City of Riverside July 9, 1991. The Riverwalk Vista project proposed changes in land use on the 99.7 acres located south of Indiana Avenue, north of Arizona Avenue, east of La Sierra Avenue, and west of Vallejo Street. This area is currently under construction with various housing products totaling 402 dwelling units. The remaining approximately 20.5 acres are owned by the Riverside County Transportation Commission and included in this specific plan to provide a comprehensive guide to the development of the entire 120.2 acres. A portion of this acreage is developed with a Metrolink Station and surface parking.
Sycamore Canyon Business Park Specific Plan (originally Box Springs Industrial Park)	This Specific Plan will implement the City of Riverside General Plan for the subject area. It contains land use objectives and design guidelines for future industrial development and is a planned industrial park consisting of approximately 920 acres of industrial and commercial uses within a 1,400 area project area. Approximately 480 acres of the total 1500 acre Sycamore Canyon Wilderness Park is located with the Plan area. The balance of the Park lies within the Sycamore Canyon (residential) Specific Plan. This plan includes 847.15 acres of B/OP – Business/Office Park, 10.32 acres of C – Commercial acres, and 463.88 acres of P – Public Park General Plan designated land.
Sycamore Canyon Specific Plan	This Specific Plan establishes a guide to orderly development and to maintain open space within a specific area of the City of Riverside. The concepts regulations and conditions set forth in the Plan provide for the development of the site as a whole involving a major open space/preserve area, residential uses, a school, and neighborhood commercial uses. This plan includes 41.83 acres of HR – Hillside Residential, 97.28 acres of LDR – Low Density Residential, 14.84 acres o MDR – Medium Density Residential, 884.22 acres of P – Public Park, and 27.85 acres of VLDR – Very Low Density Residential General Plan designated land.

## City of Riverside Specific Plans

SPECIFIC PLAN NAME	INTENT OF SPECIFIC PLAN
Sycamore Highlands Specific Plan	This Specific Plan, adopted in 1992 recognizes University Avenue as the key, primary link between Downtown and UCR, promoting long-term viability and rejuvenation of the Avenue. The recent update of the General Plan 2025 designates much of the land along the corridor for mixed use development of varying degrees. This plan includes 14.63 acres of C – Commercial, 52.18 acres of HDR – High Density Residential, 99.11 acres of MDR – Medium Density Residential, 1.56 acres of PF – Public Facilities, 144.17 acres of P – Public Park and 49.09 acres of VLDR – Very Low Density Residential General Plan designated land.
University Avenue Specific Plan	This Specific Plan, adopted in 1992 recognizes University Avenue as the key, primary link between Downtown and UCR, promoting long-term viability and rejuvenation of the Avenue. The recent update of the General Plan 2025 designates much of the land along the corridor for mixed use development of varying degrees. <u>Currently this Specific Plan is under review to be revised to add more mixed use opportunities throughout the planning area.</u>
Victoria Avenue Specific Plan	The intent of this Specific Plan is to preserve Victoria Avenue as a landscaped parkway and as a cultural heritage landmark as designated by the Cultural Heritage Board. It provides standards for the various factors affecting Victoria Avenue, present and future, both in the right-of-way and in its vicinity. Physical factors considered for the Avenue are street improvements, utilities, bridle trails, landscaping and irrigation and rights-of-way. Improvements will be related to traffic volumes and safety both now and in the future, taking into consideration the effects of other highways and freeways and land use in the vicinity. Land use policies and standards for private development of adjoining lands including subdivision and development design are also discussed.

**Subject:** Cumulative Project List Information Request

Good Morning Ilene,

I just placed a call into your office requesting some information relating to an EIR we are currently preparing for a Project (First Nandina Logistics Center) located in the City of Moreno Valley and was told you were briefly out of the office so I figured I would send this first and then give you a call. I was hoping that you would be able to provide some information to assist us in our cumulative analysis for projects in surrounding jurisdictions. We had sent a hard copy letter early in December but at the time we did not have a specific contact to address it to.

I have attached a copy of the letter which includes a map which specifies where the Project is located, as well as a map and list of the projects we have included in our cumulative analysis. If you could please take a look at this and confirm that our current list of active developments in the City of Riverside is correct and that our development intensity listed in the table is correct, we would really appreciate it. Also, if there are any large-scale developments of regional significance not included in the list, please advise us and we will revise our list accordingly.

Thanks for your help, if there are any questions or clarification needed please just let me know and I'll get back to you right away.

Sincerely,

John LaMar

### Project Descriptions

04-0343	Construct a new 41,650 square feet concrete tilt-up industrial building for warehousing and manufacturing purposes on 4.13 acres	Approved 2/2/05
04-0464	Construct a new 1,686,760 square feet cross dock facility on 80 acres.	Approved 8/17/05
05-0113	To subdivide into five parcels to develop four warehouse distribution buildings ranging in size from 67,000 to 742,000 square feet and totaling approximately 1,750,000 square feet on 84 acres.	Approved 6/30/09
05-0192	Construction of a 697,578 square feet industrial building on 36.72 acres.	Approved 04/10/07
05-0341	To establish Perris Marketplace, a 520,000 square feet commercial project on 49.3 acres.	Approved 7/10/07
05-0433	Construction a mini-storage facility on 10.11 gross acres.	Approved 04/04/07
05-0477	Construct a 462,692 square feet tilt-up distribution warehouse building with truck docks, parking on 22 acres.	Approved 6/07/07
05-0493	Construction of 1,907,079 square feet of distribution warehousing in two buildings on 90 acres.	Approved 3/27/07
06-0228	To construct 11 light industrial tilt-up buildings totaling 149,738 square feet on 9. 1 acres.	Approved 5/08/07
06-0332	To construct eight industrial buildings totaling 81,149 square feet on 4.6 acres.	Approved 5/08/07
06-0337	Is a proposal to develop a 484,300 square-foot commercial retail shopping center on 58.8 acres located at the southeast corner of the 215 Freeway and Ethanac Road.	Approved 4-16-08
06-0365	To Construct 355,067 square foot industrial building on a 16.29 gross acre.	Approved 6-20-07
06-0378	A proposal to construct 429 senior residential units on 18 acres of land in the Senior Housing Overlay (SHO) Zone. The project is located west of Murrieta Road just south of Nuevo Road.	Approved 2-7-07
06-0417	To construct 2 million square feet distribution center on 96.25 acres.	Approved 07-15-09
06-0432	To construct 643,787 square feet distribution center on 28 acres.	Approved 03-31-09
07-0119	To construct 1,191,080 square feet distribution warehouse building on 61.63 acre.	Approved 07-12-11
07-07-0029	To construct 1,608,322 square feet industrial complex of 5 buildings on 93.2 acres.	Approved 12-08-09
07-09-0018	To construct 173,000 sq. ft. tilt-up industrial building on 9.2 gross acres.	Approved 12/3/08
08-01-0007	Proposal to develop 4 concrete tilt-up building totaling 3.2 million square feet on 217 acres located at the northeast corner of Redlands Ave and Ellis Ave.	Approved 07/13/10
08-04-0006	Proposal for construction 3 concrete tilt-up buildings totaling 3.4 million square feet located at the southwest corner of Goetz Rd and Mapes Rd.	Approved 07/13/10
08-04-0016	Is a proposal to construct an approximately 643,000 sq. ft. commercial shopping center on 68 gross acres at the southeasterly corner of San Jacinto Avenue and Redlands Avenue.	Approved 10-13-09
08-11-0006	to expand an existing 232,215 sq. ft. internet/mail-order distribution facility by incorporating 21.79 acres of contiguous land and constructing a new 454,088 sq. ft. industrial building.	Pending
10-01-0008	Proposal to construct a 43,000 square feet commercial center on 5 acres located on northwest corner of San Jacinto Avenue and Redlands Avenue.	Approved 06/29/10

11-07-0003	492-unit four and five-story senior apartment complex and 21,000 s.f. community center on 22 acres	Approved 8/28/2012
11-09-0011	to construct 80,000 sq. ft. shopping center on 7.9 acres located at the south east corner of I-215 freeway and Nuevo Road.	Pending
11-12-0004	to construct a 1,712,880 sq. ft. industrial development on approximately 91 gross acres	Approved 11/27/12
11-12-0009	Proposal to construct a new 57,400 sq. ft., 4-story, 100 room hotel with pool amenities on 2.25 acres	Pending
12-05-0013	construct a 75-unit multifamily apartment complex on 7 vacant acres, including a 762 sq. ft. maintenance building, and a 2,875 sq. ft. community room located at the northwest corner of Jarvis Street and Ruby Drive	Approved 2/20/2013
12-10-0005	Development Plan Review of a proposed high-cube industrial warehouse development consisting of two buildings totaling 1,463,887 square feet on 68.48 acres located north of Ramona Expressway between the I-215 Freeway and Webster Avenue	Pending
13-01-0007	The modified project will increase the residential units from 19 to 40 and reduce the commercial component from 17,000 sq. ft. to 1,000 sq. ft. for retail and 2,000 sq. ft. for a day care facility requiring a Conditional Use Permit (CUP 13-01-0006)	Approved 2/20/13
13-02-0005	Development Plan Review to construct two industrial buildings, totaling 600,000 sq. ft. of industrial development, on approximately 31 gross acres	Pending

#### Tract Maps

30850	496 residential lots on 158.2 acres.	Final Map Recorded on 05/07/07
30973	Subdivide a 9.65 ± acre site into a 35-unit residential subdivision located on Southeast corner of Metz Road and Beckley Lane.	Pending
31225	This project is to subdivide 15.1 acres into 57 residential lots located at the northwest corner of "A" Street and Metz Road.	Tentative Map approved 10-15-04
31226	This project is to subdivide 20.1 acres into 82 residential lots southwest corner of Nuevo Road and McKimball Road located	Final Map Recorded 1-30-07
31240	This project is to subdivide 31.47 acre site into 114 residential lots located on the northeast corner of Wilson Avenue and Dale Street.	Final Map Recorded 4-24-07
31304	This project is to subdivide approximately 40.4-acres of land into 123 lots for single-family residential development located at northeast corner of Mountain Avenue and McPherson Road.	Tentative Map Approved 5-25-04
31407	This project is to subdivide 80 acres to 243 residential lots located at southwest corner of Metz Road and Webster Avenue	Tentative Map Approved 07-13-04
31650	This project is to subdivide 15.6 acres of land into 61 lots for single-family lots located at between Van Way and Bowen Drive, west of DeLines Drive.	Final Map Recorded on 6-13-06
31659	Divide 55.07 acres of land into 161 residential lots for detached, single-family residential development	Tentative Map Approved 7-27-04
32032	This project is to subdivide 37.5 acres to 108 residential lots located at southeast corner of Ellis Avenue and A Street.	Tentative Map approved 6-28-05
32041	122 residential lots on 44.03 acres	Final Map approved 4/24/07
32406	To subdivide 3.5 acres into 15 lots for single-family residential development.	Final Map Approved on 11/28/06
32525	This project is to subdivide 56.2 acres into 162 lots for single family south of Mountain Avenue, west of "A" Street, and north of Alpine Drive.	Tentative map approved 2-15-06
32666	subdivision of 226.9 acres into 663 residential lots for single family residential development	Final Map Approved on 5/9/07

32707	137 single family dwellings on 36.8 acres.	Final Map Recorded on 3/27/07
33193	This project is to subdivide 10.65 acres of vacant land into 12 lots for a 94-unit townhome located at east side of Bradley Road, north of Rider Street.	Tentative Map Approved 8-30-05
33247	subdivide 16 gross acres into 28 residential lots and 4 lettered lots located on the west side of Witt Street, south of Eleventh Street	Tentative Map Approved on 1/9/07
33338	subdivide a 19 acre site into 75 residential lots located on the northwest corner of Evans Road and Nuevo Road.	Final Map Approved on 4/24/07
33549	This project is for a 127 residential lot subdivision located on the northeast corner of Perris Boulevard and Commercial Street	Final Map approved
33900	This project is to subdivide 116-acres into 198 single-family lots at the southeastern corner of Ethanac and McPherson Road.	Tentative Map Approved 5-27-08
33973	Subdivide 153.7 acre property into 384 single family lots, located north of San Jacinto River, west of McPherson Road, south of Ethanac Road, east of Sophie Street.	Tentative Map Approved 5-27-08
34078	This project is to subdivide subdivide 18.85 acres into 72 lots located at the northwest corner of Murrieta Road and San Jacinto Avenue.	Tentative Map approved 9-26-06
36343	subdivide 42.61 gross acres into 184 residential lots	Final Map Approved 4/09/2013

04-0343	Construct a new 41,650 square feet concrete tilt-up industrial building for warehousing and manufacturing purposes on 4.13 acres	Approved 2/2/05
04-0464	Construct a new 1,686,760 square feet cross dock facility on 80 acres.	Approved 8/17/05
05-0113	To subdivide into five parcels to develop four warehouse distribution buildings ranging in size from 67,000 to 742,000 square feet and totaling approximately 1,750,000 square feet on 84 acres.	Approved 6/30/09
05-0192	Construction of a 697,578 square feet industrial building on 36.72 acres.	Approved 04/10/07
05-0341	To establish Perris Marketplace, a 520,000 square feet commercial project on 49.3 acres.	Approved 7/10/07
05-0433	Construction a mini-storage facility on 10.11 gross acres.	Approved 04/04/07
05-0477	Construct a 462,692 square feet tilt-up distribution warehouse building with truck docks, parking on 22 acres.	Approved 6/07/07
05-0493	Construction of 1,907,079 square feet of distribution warehousing in two buildings on 90 acres.	Approved 3/27/07
06-0228	To construct 11 light industrial tilt-up buildings totaling 149,738 square feet on 9. 1 acres.	Approved 5/08/07
06-0332	To construct eight industrial buildings totaling 81,149 square feet on 4.6 acres.	Approved 5/08/07
06-0337	Is a proposal to develop a 484,300 square-foot commercial retail shopping center on 58.8 acres located at the southeast corner of the 215 Freeway and Ethanac Road.	Approved 4-16-08
06-0365	To Construct 355,067 square foot industrial building on a 16.29 gross acre.	Approved 6-20-07
06-0378	A proposal to construct 429 senior residential units on 18 acres of land in the Senior Housing Overlay (SHO) Zone. The project is located west of Murrieta Road just south of Nuevo Road.	Approved 2-7-07
06-0417	To construct 2 million square feet distribution center on 96.25 acres.	Approved 07-15-09
06-0432	To construct 643,787 square feet distribution center on 28 acres.	Approved 03-31-09
07-0119	To construct 1,191,080 square feet distribution warehouse building on 61.63 acre.	Approved 07-12-11
07-07-0029	To construct 1,608,322 square feet industrial complex of 5 buildings on 93.2 acres.	Approved 12-08-09
07-09-0018	To construct 173,000 sq. ft. tilt-up industrial building on 9.2 gross acres.	Approved 12/3/08
08-01-0007	Proposal to develop 4 concrete tilt-up building totaling 3.2 million square feet on 217 acres located at the northeast corner of Redlands Ave and Ellis Ave.	Approved 07/13/10
08-04-0006	Proposal for construction 3 concrete tilt-up buildings totaling 3.4 million square feet located at the southwest corner of Goetz Rd and Mapes Rd.	Approved 07/13/10
08-04-0016	Is a proposal to construct an approximately 643,000 sq. ft. commercial shopping center on 68 gross acres at the southeasterly corner of San Jacinto Avenue and Redlands Avenue.	Approved 10-13-09
08-11-0006	to expand an existing 232,215 sq. ft. internet/mail-order distribution facility by incorporating 21.79 acres of contiguous land and constructing a new 454,088 sq. ft. industrial building.	Pending
10-01-0008	Proposal to construct a 43,000 square feet commercial center on 5 acres located on northwest corner of San Jacinto Avenue and Redlands Avenue.	Approved 06/29/10

11-07-0003	492-unit four and five-story senior apartment complex and 21,000 s.f. community center on 22 acres	Approved 8/28/2012
11-09-0011	to construct 80,000 sq. ft. shopping center on 7.9 acres located at the south east corner of I-215 freeway and Nuevo Road.	Pending
11-12-0004	to construct a 1,712,880 sq. ft. industrial development on approximately 91 gross acres	Approved 11/27/12
11-12-0009	Proposal to construct a new 57,400 sq. ft., 4-story, 100 room hotel with pool amenities on 2.25 acres	Pending
12-05-0013	construct a 75-unit multifamily apartment complex on 7 vacant acres, including a 762 sq. ft. maintenance building, and a 2,875 sq. ft. community room located at the northwest corner of Jarvis Street and Ruby Drive	Approved 2/20/2013
12-10-0005	Development Plan Review of a proposed high-cube industrial warehouse development consisting of two buildings totaling 1,463,887 square feet on 68.48 acres located north of Ramona Expressway between the I-215 Freeway and Webster Avenue	Pending
13-01-0007	The modified project will increase the residential units from 19 to 40 and reduce the commercial component from 17,000 sq. ft. to 1,000 sq. ft. for retail and 2,000 sq. ft. for a day care facility requiring a Conditional Use Permit (CUP 13-01-0006)	Approved 2/20/13
13-02-0005	Development Plan Review to construct two industrial buildings, totaling 600,000 sq. ft. of industrial development, on approximately 31 gross acres	Pending

#### Tract Maps

30850	496 residential lots on 158.2 acres.	Final Map Recorded on 05/07/07
30973	Subdivide a 9.65 ± acre site into a 35-unit residential subdivision located on Southeast corner of Metz Road and Beckley Lane.	Pending
31225	This project is to subdivide 15.1 acres into 57 residential lots located at the northwest corner of "A" Street and Metz Road.	Tentative Map approved 10-15-04
31226	This project is to subdivide 20.1 acres into 82 residential lots southwest corner of Nuevo Road and McKimball Road located	Final Map Recorded 1-30-07
31240	This project is to subdivide 31.47 acre site into 114 residential lots located on the northeast corner of Wilson Avenue and Dale Street.	Final Map Recorded 4-24-07
31304	This project is to subdivide approximately 40.4-acres of land into 123 lots for single-family residential development located at northeast corner of Mountain Avenue and McPherson Road.	Tentative Map Approved 5-25-04
31407	This project is to subdivide 80 acres to 243 residential lots located at southwest corner of Metz Road and Webster Avenue	Tentative Map Approved 07-13-04
31650	This project is to subdivide 15.6 acres of land into 61 lots for single-family lots located at between Van Way and Bowen Drive, west of DeLines Drive.	Final Map Recorded on 6-13-06
31659	Divide 55.07 acres of land into 161 residential lots for detached, single-family residential development	Tentative Map Approved 7-27-04
32032	This project is to subdivide 37.5 acres to 108 residential lots located at southeast corner of Ellis Avenue and A Street.	Tentative Map approved 6-28-05
32041	122 residential lots on 44.03 acres	Final Map approved 4/24/07
32406	To subdivide 3.5 acres into 15 lots for single-family residential development.	Final Map Approved on 11/28/06
32525	This project is to subdivide 56.2 acres into 162 lots for single family south of Mountain Avenue, west of "A" Street, and north of Alpine Drive.	Tentative map approved 2-15-06
32666	subdivision of 226.9 acres into 663 residential lots for single family residential development	Final Map Approved on 5/9/07

32707	137 single family dwellings on 36.8 acres.	Final Map Recorded on 3/27/07
33193	This project is to subdivide 10.65 acres of vacant land into 12 lots for a 94-unit townhome located at east side of Bradley Road, north of Rider Street.	Tentative Map Approved 8-30-05
33247	subdivide 16 gross acres into 28 residential lots and 4 lettered lots located on the west side of Witt Street, south of Eleventh Street	Tentative Map Approved on 1/9/07
33338	subdivide a 19 acre site into 75 residential lots located on the northwest corner of Evans Road and Nuevo Road.	Final Map Approved on 4/24/07
33549	This project is for a 127 residential lot subdivision located on the northeast corner of Perris Boulevard and Commercial Street	Final Map approved
33900	This project is to subdivide 116-acres into 198 single-family lots at the southeastern corner of Ethanac and McPherson Road.	Tentative Map Approved 5-27-08
33973	Subdivide 153.7 acre property into 384 single family lots, located north of San Jacinto River, west of McPherson Road, south of Ethanac Road, east of Sophie Street.	Tentative Map Approved 5-27-08
34078	This project is to subdivide subdivide 18.85 acres into 72 lots located at the northwest corner of Murrieta Road and San Jacinto Avenue.	Tentative Map approved 9-26-06
36343	subdivide 42.61 gross acres into 184 residential lots	Final Map Approved 4/09/2013

**RE: AIRPORT LAND USE COMMISSION (ALUC) DEVELOPMENT REVIEW**

File No.: ZAP1095MA14  
Related File No.: PA 13-0037 (Plot Plan), PA 13-0038 (Parcel Map)  
APNs: 316-210-002 through 316-210-011; 316-210-051; 316-210-055

Dear Ms. Descoteaux:

On May 8, 2014, the Riverside County Airport Land Use Commission (ALUC) found City of Moreno Valley Case Nos. PA 13-0037 (Plot Plan), a proposal to construct a 1,450,000 square foot industrial warehouse building (including 66,790 square feet of mezzanine area and 12,000 square feet of ground floor office space) on 72.88 gross acres located southerly of Nandina Avenue, westerly of Indian Street, easterly of Heacock Street, and northerly of Grove View Road, and PA 13-0038 (Parcel Map), a proposal to consolidate the twelve existing parcels cited above into one legal parcel, **CONSISTENT** with the 1984 Riverside County Airport Land Use Plan, as applied to the Airport Influence Area of March Air Force Base (now March Air Reserve Base/March Inland Port), subject to the following conditions, as amended (conditions added or amended at hearing shown in **bold type**):

**CONDITIONS:**

1. Any outdoor lighting installed shall be hooded or shielded to prevent either the spillage of lumens or reflection into the sky. Outdoor lighting shall be downward facing.
2. The following uses shall be prohibited:
  - (a) Any use which would direct a steady light or flashing light of red, white, green, or amber colors associated with airport operations toward an aircraft engaged in an initial straight climb following takeoff or toward an aircraft engaged in a straight final approach toward a landing at an airport, other than an FAA-approved navigational signal light or visual approach slope indicator.
  - (b) Any use which would cause sunlight to be reflected towards an aircraft engaged in an initial straight climb following takeoff or towards an aircraft engaged in a straight final approach towards a landing at an airport.
  - (c) Any use which would generate smoke or water vapor or which would attract large concentrations of birds, or which may otherwise affect safe air navigation within

the area. (Such uses include landscaping utilizing water features, aquaculture, production of cereal grains, sunflower, and row crops, composting operations, trash transfer stations that are open on one or more sides, recycling centers containing putrescible wastes, construction and demolition debris facilities, fly ash disposal, and incinerators.)

- (d) Any use which would generate electrical interference that may be detrimental to the operation of aircraft and/or aircraft instrumentation.
  - (e) Children's schools, day care centers, libraries, hospitals, skilled nursing and care facilities, congregate care facilities, hotels/motels, places of assembly, noise sensitive outdoor nonresidential uses, and hazards to flight.
3. Prior to issuance of any building permits, the landowner shall convey and have recorded an avigation easement to the March Inland Port Airport Authority. Contact March Joint Powers Authority at (951) 656-7000 for additional information.
  4. The attached notice shall be given to all prospective purchasers and/or tenants of the property.
  5. Retention basins on the site shall be designed so as to provide for a maximum 48-hour detention period following the conclusion of the storm event for the design storm (may be less, but not more), and to remain totally dry between rainfalls. Vegetation in and around the retention basin(s) that would provide food or cover for bird species that would be incompatible with airport operations shall not be utilized in project landscaping. Trees shall be spaced so as to prevent large expanses of contiguous canopy, when mature. Landscaping in and around the retention basin(s) shall not include trees that produce seeds, fruits, or berries.
  6. This project has been evaluated as a proposal for the establishment of a warehouse with ancillary office use. The City of Moreno Valley shall require additional review by the Airport Land Use Commission prior to the establishment of any of the following uses in this structure:  
  
Commercial/service uses; civic uses; churches, chapels, and other places of worship; classrooms; day care centers; gymnasiums; theaters; conference or convention halls; auditoriums; fraternal lodges; bowling alleys; gaming; auction rooms.
  7. ~~Overall office area shall be limited to a total maximum of 22,000 square feet (including mezzanine office area). Office area shall be dispersed to each corner of the proposed building and shall not be consolidated to any individual corner that would exceed 15,000 square feet of office area (including mezzanine office area) within any individual corner so as to not exceed the draft single-acre criteria for Compatibility Zones B2 and C1. If any development of the warehouse building proposes to exceed 22,000 square feet of office area overall or 15,000 square feet within any individual building corner, it shall require further ALUC review to determine its consistency with the applicable criteria in place at that time.~~ **The number of Office Work Stations shall be limited to no more than 200 in any single acre (210' x 210' area) so as not to exceed the draft single-acre criteria for Compatibility Zones B2 and C1. For purposes of this condition, an Office Work Station shall be defined as any location within the building that is an individual's primary work location.**
  8. The elevation of the proposed building at its top point shall not exceed 1520 feet above mean sea level.

9. ~~Prior to issuance of a building permit, the applicant shall have received a "Determination of No Hazard to Air Navigation" from the Federal Aviation Administration Obstruction Evaluation Service.~~
10. **The Federal Aviation Administration has conducted an aeronautical study of the proposed building (Aeronautical Study No. 2014-AWP-1973-OE) and has determined that neither marking nor lighting of the structure is necessary for aviation safety. However, if marking and/or lighting for aviation safety are accomplished on a voluntary basis, such marking and/or lighting (if any) shall be installed in accordance with FAA Advisory Circular 70/7460-1 K Change 2 and shall be maintained in accordance therewith for the life of the project.**
11. **The maximum height of the proposed structure shall not exceed 42 feet above ground level, and the maximum elevation of the proposed structure, including all roof-mounted appurtenances (if any), shall not exceed 1,520 feet above mean sea level.**
12. **The specific coordinates, height, and top point elevation of the proposed structure shall not be amended without further review by the Airport Land Use Commission and the Federal Aviation Administration; provided, however, that reduction in building height or elevation shall not require further review by the Airport Land Use Commission.**
13. **Temporary construction equipment used during actual construction of the structure shall not exceed the height of the structure, unless separate notice is provided to the Federal Aviation Administration through the Form 7460-1 process.**
14. **Within five (5) days after construction of the structure reaches its greatest height, FAA Form 7460-2 (Part II), Notice of Actual Construction or Alteration, shall be completed by the project proponent or his/her designee and e-filed with the Federal Aviation Administration. (Go to <https://oeaaa.faa.gov> for instructions.) This requirement is also applicable in the event the project is abandoned.**

If you have any questions, please contact Russell Brady, ALUC Contract Planner, at (951) 955-0549, or John Guerin, ALUC Principal Planner, at (951) 955-0982.

Sincerely,  
RIVERSIDE COUNTY AIRPORT LAND USE COMMISSION
